CANADIAN ASSOCIATION OF ORTHOPAEDIC MEDICINE
ASSOCIATION CANADIENNE DE MÉDECINE ORTHOPÉDIQUE

Exciting opportunity! Join us for Dr John Lyftogt's FINAL INTRODUCTORY perineural injection therapy workshop.
Location: Vancouver BC
Dates: June 17 – 18, Saturday and Sunday 2023
Teachers: Dr John Lyftogt, with Dr David Bowler

Dr John Lyftogt is a sports medicine physician from New Zealand, who has developed this remarkably effective treatment for musculoskeletal and neuropathic pain. At first practising on himself, and then sharing his technique with many physicians globally, John has provided a simple, easy to learn treatment using 5% dextrose water via subcutaneous injection at key sites. In addition, there are now multiple published studies available.

You will be able to incorporate these techniques in your practice immediately after attending the workshop. The course design involves some theory and anatomy teaching and many practical demonstrations. Registration is limited to allow for maximal benefit of attending physicians, and once full, a waiting list will be kept. Please note this is John's FINAL TOUR of teaching perineural injection therapy, so don't miss this wonderful opportunity to learn from the maestro!
