

CENTRALIZED REFERRAL MECHANISM

Referral process for patients who need a family doctor

This Comox Valley Division of Family Practice service assists unattached **patients with complex needs and/or age 70+** in finding a family physician. Patients referred may be frail elderly in the community/in care, moms and babies, people with MHSU challenges, and/or complex physical and medical needs.

The referral process is **easy** for agencies, physicians and patients to use. Agencies **fully complete the referral form** and fax it to the number below, the patients' form is reviewed by the central referral mechanism administrator, and the referral is sent to the most appropriate family physician in the Comox Valley.

- PHYSICIANS, PLEASE CONTACT LYNDSEY JENNINGS WITH AVAILABILITY & PRACTICE INTERESTS/SKILL AREAS
