#### Boundary Patient Medical Home/Primary Care Network Proof of Concept

The PMH is up and running in the Boundary and already impacting patient care. Check out 82 year old Walter Gambles story in "[Transforming health care in the Boundary](#)".

### CLINICAL SUPPORTS

#### Implementing Social Determinants & Adverse Childhood Experiences (ACEs) In Practice

Physicians needed to advise on implementing Social Determinants of Health (SDH) and Adverse Childhood Experiences (ACEs) Tools and Protocols across KB. For patients dealing with chronic illness, SDH/ACEs history taking can provide vital background information which helps practitioners identify effective areas of action, facilitate empowerment and behavior change, and overcome barriers to wellness.
