Family Practice Opportunity

Caledonian Clinic Ltd. is actively recruiting General Practitioners to come practice at either one of our two sites in Nanaimo. Nanaimo has a current population of approximately 85,000 and has been dubbed the “Bathtub Racing Capital of the World.” The average annual high temperature is 14.8 c with summer months averaging 23.9C to 24.3C. Some of the amenities to Nanaimo are Vancouver Island University, YCD airport located 20 km south of Nanaimo, Port Theatre which features well known talent, many walking and biking trails throughout the City, scuba diving and golfing. Nanaimo is located 112 kms north of Victoria and 155 kms south of Campbell River which is known some of the best fishing.

We offer an opportunity to join a very busy clinic with two locations in Nanaimo. Our Clinics comprise of 25 general practitioners, one orthopedic surgeon and one geriatrician. Having 25 general practitioners allows coverage for time away and education. The Clinic bills fee for services and overhead for our physicians is charged at two different pay scale options which we would happily discuss with any physician interested. We have an on-call rota (approximately once per month) for doctors with hospital privileges as well as without privileges. Both locations have [R.N.](#)'s on staff to assist with your patients. We have walk-in clinics at both locations weeknights as well as weekends. We invite you to practice in our warm and friendly environment where we have friendly and experienced staff to assist you in your practice, making it easier for you to just walk in and practice medicine. We are EMR based with billing staff who are very knowledgeable in all aspects of MSP billing. Most of our physicians use speech recognition called Dragon Medical which makes it easier for those that are not speedy typists. If interested, please apply to Ammy Pitt, Clinic Manager, for further details.
