

Family Physician Opportunity Penticton, BC

Practicing in Penticton makes finding work-life balance more manageable.

You will love living in Penticton, with all of the conveniences of a large urban centre, but with the benefits of small-town living.

Penticton means "a place to stay forever". Situated between two pristine lakes for all manner of water sports. The cycling and rock climbing are genuinely remarkable, and alpine and nordic skiing are a 30-minute drive away. The local wineries and cuisine are world-class. There is a flourishing arts community, and the schools are highly rated. You can ski, golf, and ride the same day!

I work with a very supportive and pleasant group of 7 Physicians, 2 Nurse Practitioners, a Pharmacist, and a Social Worker that bring together a vast amount of experience and work exceptionally well together. Our amazing support staff is cheerful and dynamic, and we have an excellent office manager. This is truly a "turnkey" practice with a management team to administer the business side of practice, including hiring, finances, and scheduling.

This is an entire EMR office, and you will have the opportunity, if you choose, to also provide inpatient, long-term, palliative, obstetrical, and walk-in clinic care. In addition, there are regular CME and teaching opportunities with the UBC Family Medicine program, 24/7 access to a wide variety of specialists, and numerous incentives and support for providing full-service family practice.

This is a fee for service practice. Flexibility to work half days or full days. Ability to work in the office as well as virtual medicine.
