A lovely renovated clinic right in the town of Summerland, our team of four physicians enjoy all things Okanagan: skiing, biking, water sports, wine and craft beer. Our MOAs are second to none and will ensure your day is well organized and efficient.

Drs. Harrold, Stevens and Venkataraman are all UBC alumni and enjoy the great outdoors around Summerland when not working. Drs. Stevens and Venkataraman also practice at Penticton’s Martin Street Outreach Clinic, an innovative multi-disciplinary clinic for patients living with mental health and substance use issues. Both are also involved with Foundry Penticton, a newly opened centre for youth aged 12-23. Dr. Venkataraman is also Curriculum Director for the UBC Okanagan South Family Medicine Residency program based at Penticton Regional Hospital.

Dr. Jeff Hoekstra, the most recent addition to Kelly Avenue Clinic, is a graduate of the University of Ottawa. He is enjoying life in Summerland with his young family.
