We are a friendly and flexible group practice of eight young family physicians, sharing an office with 5 sets of exam rooms, and it is a fun place to practice medicine. We have a well-equipped procedure room, and light-filled office space on the second floor of a dedicated medical building, with wonderful support from both nurses and medical office assistants. Each physician has her/his own patient panel and clinic schedule, which is negotiable, but we help each other out. We share hospital rounds (one week out of eight) and after-hours clinic work (one evening every other week), and help cover each other for leaves if needed, though we have always enjoyed good locum support.

Obstetrics and emergency are not required, but there may be opportunities for those interested. Surgical assists and addictions/mental health clinic work are also available to qualified applicants.

We admit to Penticton Regional Hospital (area population 40,000) 15 minutes south of us and see patients in Summerland's residential care facilities. The hospital has excellent specialist services which are very supportive of family practice, and there is an active local "Division of Family Practice" engaged in improving community primary care systems. Our clinic is one of four primary sites for the UBC South Okanagan Family Medicine Residency Program, so we have the opportunity to teach and mentor, if desired. We also regularly host medical students and pride ourselves on providing learners with a good experience in Summerland.
