

CHRONIC PAIN AND PROBLEMATIC SUBSTANCE USE COMMUNITY PROGRAM FRASER SOUTH

Do you need help with a
chronic pain patient?

Someone who has chronic pain and is at risk of, or has a history of problematic substance use? (including prescription drugs)

Someone who may benefit from focused self-management support in a group setting, individual rehab, counselling and connection to other services/resources?

You can now refer to a program in Surrey offering these services (Open to patients in Delta, Langley, Surrey, and White Rock)
