FOR CITIES THAT ARE NOT MENTIONED ABOVE, HERE ARE SOME TIPS TO FIND A FAMILY DOCTOR:

1. Visit the [Pathways Medical Care Directory](#). The directory helps you connect with family doctors in your community.
2. Ask your family or friends to introduce you to their own family doctor. Sometimes a doctor may take you on referral from an existing patient.
3. If you are visiting another health care provider, such as a specialist, ask them if they know of any family doctors that are accepting patients.
4. If you are visiting a walk-in clinic, ask the doctor if they would be willing to take you on as a patient.
