PREAMBLE TO THE GUIDE TO FEES

A. 1. PURPOSE OF THE GENERAL PREAMBLE

The General Preamble to the Medical Services Commission (MSC) Payment Schedule (the "Schedule") complements the specialty preambles in the Schedule. The intention is that, together, the preambles assist medical practitioners in appropriate billing for insured services. Not every specialty requires a specific preamble; several are governed exclusively by the General Preamble. Every effort has been made to avoid confusion in the structure and language of the preambles; if, however, there is an inadvertent conflict between a fee item description, a specialty preamble and the General Preamble, the interpretation of the fee item description and/or the specialty preamble shall prevail.

The Schedule is the list of fees approved by the MSC and payable to physicians for insured medical services provided to beneficiaries enrolled with the Medical Services Plan (MSP). The preambles provide the billing rules under which the fees are to be claimed; these rules are a roadmap designed to clarify the use of the Schedule.

A. 2. INTRODUCTION TO THE GENERAL PREAMBLE

All benefits listed in the Schedule, except where specific exceptions are identified, must include the following as part of the service being claimed; payment for these inherent components is included in the listed fees:

i) Direct face-to-face encounter with the patient by the medical practitioner, appropriate physical examination when pertinent to the service and on-going monitoring of the patient's condition during the encounter, where indicated.

ii) Any inquiry of the patient or other source, including review of medical records, necessary to arrive at an opinion as to the nature and/or history of the patient's condition.

iii) Appropriate care for the patient's condition, as specifically listed in the Schedule for the service and as traditionally and/or historically expected for the service rendered.

iv) Arranging for any related assessments, procedures and/or therapy as may be appropriate, and interpreting the results, except where separate listings are applicable to these adjunctive services. (Note: This does not preclude medical practitioners rendering referred "diagnostic and approved laboratory facility[1]" services from billing for interpretation of diagnostic or laboratory test results).

[1] The Laboratory Services Act came into force on October 1, 2015. Reference should be made to the Laboratory Services Payment Schedule for definitions and a schedule of laboratory fees.

v) Arranging for any follow-up care which may be appropriate.

vi) Discussion with and providing advice and information to the patient or the patient's representative(s) regarding the patient's condition and recommended therapy, including advice as to the results of any related assessments, procedures and/or therapy which may have been arranged. No additional claims may be made to the Plan for such advice and discussion, nor for the provision of prescriptions and/or diagnostic and laboratory requisitions, unless the patient's medical condition indicates that the patient should be seen and assessed again by the medical practitioner in order to receive such advice.

vii) Making and maintaining an adequate medical record of the encounter that appropriately supports the service being claimed. A service for which an adequate medical record has not been recorded and retained is considered not to be complete and is not a benefit under the Plan.

The General Preamble is divided into four interdependent sections:

B. Definitions
C. Administrative Items
D. Types of Services

B. DEFINITIONS

Please note that definitions of specific types of medical assessments and services are provided in the corresponding section of the General Preamble.

"Age categories"

Premature Baby	-2,500 grams or less at birth
Newborn or Neonate	-from birth up to, and including, 27 days of age
Infant	-from 28 days up to, and including, 12 months of age
Child	-from 1 year up to, and including, 15 years of age

Notes:
a) for pediatric specialists – up to and including 19 years of age
b) for psychiatrists – up to and including 17 years of age

"Antenatal visit"

Pregnancy-related visits from the time of confirmation of pregnancy to delivery
Same as prenatal

"CPSBC"

College of Physicians and Surgeons of British Columbia

"Diagnostic Facility"

Means a facility, place or office principally equipped for prescribed diagnostic services, studies or procedures, and includes any branches of a diagnostic facility

"Emergency department physician"

Either a medical practitioner who is a specialist in emergency medicine or a medical practitioner who is physically and continuously present in the Emergency Department or its environs for a scheduled, designated period of time

"General practitioner"

A medical practitioner who is registered with the College of Physicians and Surgeons of British Columbia as a General Practitioner

"Health care practitioner"

Any of the following persons entitled to practice under an enactment:

a) a chiropractor
b) a dentist
c) an optometrist
d) a podiatrist
e) a midwife
f) a nurse practitioner
g) a physical therapist
h) a massage therapist
i) a naturopathic physician or
j) an acupuncturist

"Holiday"

New Year's Day, Family Day, Good Friday, Easter Monday, Victoria Day, Canada Day, B.C. Day, Labour Day, Thanksgiving Day, Remembrance Day, Christmas Day, Boxing Day

The list of dates designated as statutory holidays will be issued annually by MSP

"Hospital"

An institution designated as a hospital under Section 1 of the BC Hospital Act – except in Parts 2 and 2.1, means a non-profit institution that has been designated as a hospital by the minister and is operated primarily for the reception and treatment of persons:

a) suffering from the acute phase of illness or disability
b) convalescing from or being rehabilitated after acute illness or injury, or
c) requiring extended care at a higher level than that generally provided in a private hospital licensed under Part 2.

"Medical practitioner"

A medical practitioner as entitled to practice under the Medical Practitioners Regulations to the Health Professions Act;

"Microsurgery"

Surgery for which a significant portion of the procedure is done using an operating microscope for magnification. Magnification by other than an operating microscope is not microsurgery

"MSC"

Medical Services Commission: A statutory body, reporting to the Minister, consisting of 9 members appointed by the Lieutenant Governor in Council as follows:

a) 3 members appointed from among 3 or more persons nominated by the British Columbia Medical Association;
b) 3 members appointed on the joint recommendation of the minister and the British Columbia Medical Association to represent beneficiaries;
c) 3 members appointed to represent the government.

See Preamble C. 2. for additional details

"MSP"

Medical Services Plan

"No charge referral"

Notifying MSP of a referral is usually done by including the practitioner number of the physician to who the patient is being referred on your FFS claim. If no FFS claim is being submitted, a "no charge referral" is a claim submitted to MSP under fee item 03333 with a zero dollar amount.

"Palliative care"

Care provided to a terminally ill patient during the final 6 months of life, where a decision has been made that there will be no aggressive treatment of the underlying disease, and care is directed to maintaining the comfort of the patient until death occurs.

"Practitioner"

a) a medical practitioner, as defined above, or
b) a health care practitioner who is registered with the Medical Services Plan;

"PREFIXES TO FEE CODES"

Note: These Prefixes to fee services should not be submitted when billing

A designates services not insured by the Medical Services Plan.
B designates services included in the visit fee.
C designates fee items for which it is not required to indicate by letter the need for a certified surgeon to assist at surgery (see fee item T70019).
G designates listings which are administered through the Claims payment system but are not funded through the medical practitioners' Available Amount.
P designates fee items approved on a provisional basis and awaiting further review.
S designates fee items for which the surgical assistant's fee is not payable.
T designates fees items approved on a temporary basis awaiting further information.
V designates general surgery fee items that are exempt from the post-operative general preamble rule (D. 5. 1.). Therefore, fee item P71008 can be billed for post-operative care within the first 14 days post-operative days in hospital.
Y designates office or hospital visit on the same day is billable in addition to the procedure fee.

"Referral"

A request from one practitioner to another practitioner to render a service for a specific patient; typically the service is one or more of a consultation, a laboratory service, diagnostic test, specific surgical or medical treatment.

Referring Practitioner:

Notify MSP of a referral by including the MSP practitioner number of the physician being referred to in the "Referred to Field" on your fee for service (FFS) claim. If no FFS claim is being submitted, a claim record for a "no charge referral" may be submitted to MSP under fee item 03333 with a zero dollar amount. If the referring physician does not have a MSP practitioner number (eg. alternative payment practitioner), a written request for the referral must be sent to the practitioner being referred to and a copy retained in the patient's clinical record.

Referred to Practitioner:

Notify MSP that a referral has been made to you by including the MSP practitioner number of the referring physician in the "Referred by Field" on your FFS claim.

On occasion, a MSP practitioner's number is not available, (eg. alternative payment practitioner), for these rare cases the following generic numbers have been established:

- 99957 – referral by retired/deceased/moved out of province physician

- 99991 – referral by a chiropractor to an orthopedic specialist
- 99992 – referral by an optometrist to an ophthalmologist and referral by an optometrist to a neurologist
- 99993 – referral by a salaried, sessional or contract physician
- 99994 – referral by a dentist
- 99996 – referred by public health for a TB x-ray
- 99997 – referred by a primary care organization
- 99998 – referred by an Out of Province physician

The generic numbers may be used in place of the MSP practitioner number. The name of the physician should be documented in the note field in the FFS claim and a record of the referral must be retained in the patient's clinical record.

"Specialist"

A medical practitioner who is a Certificant or a Fellow of the Royal College of Physicians and Surgeons of Canada; and/or be so recognized by the College of Physicians and Surgeons of British Columbia in that particular specialty.

"Third party"

A person or organization other than the patient, his/her agent, or MSP that is requesting and/or assuming financial responsibility for a medical or medically related service.

"Transferral"

The transfer of responsibility from one medical practitioner to another for the care of patient, temporarily or permanently.

This is distinguished from a referral, and does not provide the basis for billing a consultation; the exception is that, when the complexity or severity of illness necessitates that accepting the transferral requires an initial chart review and physical examination, a limited or full consultation may be medically necessary and is requested by the transferring medical practitioner.

"Time categories"

- 12-month period – any period of twelve consecutive months
- Calendar year – the period from January 1 to December 31
- Day – a calendar day
- Fiscal year – from April 1 of one year to March 31 of the following year
- Month – a calendar month
- Week – any period of 7 consecutive days
- Calendar week – from Sunday to Saturday

"Uninsured service"

- A service that is not a benefit as defined by the MSC

C. ADMINISTRATIVE ITEMS

C. 1. Fees Payable by the Medical Services Plan (MSP)

A Payment Schedule for medical practitioners is established under Section 26 of the *Medicare Protection Act* and is referred to in the Master Agreement between the Government of the Province of British Columbia, the Medical Services Commission (MSC) and the British Columbia Medical Association (Doctors of BC). The fees listed are the amounts payable by the Medical Services Plan (MSP) of British Columbia for listed benefits. "Benefits" under the Act are limited to services which are medically required for the diagnosis and/or treatment of a patient, which are not excluded by legislation or regulation, and which are rendered personally by medical practitioners or by others delegated to perform them in accordance with the Commission's policies on delegated services.

Services requested or required by a "third party" for other than medical requirements are not insured under MSP. Services such as consultations, laboratory investigations, anesthesiology, surgical assistance, etc. rendered solely in association with other services which are not benefits also are not considered benefits under MSP, except in special circumstances as approved by the Medical Services Commission (e.g., Dental Anesthesia Policy).

C. 2. Setting and Modification of Fees

The tri-partite Medical Services Commission (MSC) manages the Medical Services Plan (MSP) on behalf of the Government of British Columbia in accordance with the *Medicare Protection Act* and Regulations. The MSC is the body that has the statutory authority to set the fees that are payable for insured medical services provided to beneficiaries enrolled with the Medical Services Plan (MSP). The MSC payment Schedule is the official list of fees for which insured services are paid by MSP.

The BC Medical Association (Doctors of BC) maintains and publishes the Doctors of BC Guide to Fees. The Guide mirrors the MSC Payment Schedule, with some exceptions including recommended private fees for uninsured services.

The process for additions, deletions or other changes to the MSC Payment Schedule, are made in accordance with the Master Agreement. Medical practitioners who wish to have modifications to the MSC Payment Schedule considered should submit their proposals to the Doctors of BC Tariff Committee through the appropriate Section. The Government and the Doctors of BC have agreed to consult with each other prior to submitting a recommendation to the MSC. If both parties agree, in writing, to a revision, MSC will adopt the recommendation as part of the MSC Payment Schedule as long as the service is medically necessary and consistent with the requirements of the *Medicare Protection Act* and Regulations and it agrees with the estimated projected cost that will result from the revision. In the case where there is no agreement between Government and the Doctors of BC, both parties may make a separate recommendation to the MSC and the MSC will determine the changes, if any, to the MSC Payment Schedule.

Usually, the earliest retroactive effective date that may be established for a new or interim fee code, is April 1st of the current fiscal year. For services not listed in the MSC Payment Schedule, please refer to the following sections C. 3. & C. 4.

Setting of Non-MSP Insured Fees - General Considerations

The Non-MSP Insured Fees have been set by the Doctors of BC Tariff Committee in conjunction with Section representatives and in accordance with general policy established by the Board of Directors. Under the arrangement with the MSC, MSP fees have been approved by the MSC.

The recommended values for services when not paid for by the MSP, WorkSafeBC or ICBC are listed under "Non-MSP Insured Fee". The charges for these uninsured services, including A-lettered items, are not to be construed as maximum or minimum charges but only as a general guide for services of average complexity, by which the individual physician dealing with the patient can set a proper and responsible value on the individual services provided:

a. You are in no way obligated, ethically or otherwise, to follow these Non-MSP Insured Fees and you may charge either a higher or lower fee according to your own judgement.
b. No special sanction of any kind is employed nor will be employed by the Association to enforce these Non-MSP Insured Fees, and you are free to exercise your discretion and judgement with respect to any charge made for any service rendered that is not payable by the MSP, WorkSafeBC or ICBC or otherwise specified in the Preamble.
c. If the patient's financial circumstances are unusual, and other doctors have been called in attendance, it is the responsibility of the attending physician to acquaint his/her colleagues of such circumstances. Each doctor concerned in the care of the patient shall give or send to the patient or his/her agent a statement showing his/her own professional services.
d. The fees listed under "MSP and WorkSafeBC Fee" have been accepted by the Medical Services Plan and WorkSafeBC through negotiated agreements as the basis for their Guide to Fees. WorkSafeBC supplies its own reporting and billing forms upon which one is asked to insert the MSP payment number to facilitate payments. MSP is currently processing claims on behalf of WorkSafeBC as an agent. Currently it is not mandatory for physicians to submit WorkSafeBC claims through MSP.

Attorney General and Crown Counsel

Information concerning Attorney General and Crown Counsel fees are contained in the Medical-Legal Matters section of this Guide to Fees.

Department of National Defence (DND)

The Board of Directors of the Doctors of BC recommends that services provided to armed forces personnel be billed directly to the patient at the time of service at the "Non-MSP Insured Fee". The DND payment policy is as follows:

a. DND will not willingly refer any patient to a physician who plans to bill the patient directly.
b. If DND makes a referral, and if the physician bills the DND administration, they will pay only MSP rates.
c. In cases of emergency, or where there is no choice with respect to referral (e.g., anesthesia), DND will pay the MSP rate plus 10 percent, if the physician chooses to bill the DND.
d. Where patients are billed directly, reimbursement of the patient is a matter between the individual patient and the DND.

C. 3. Services Not Listed in the Schedule

Services not listed in the MSC Payment Schedule must not be billed to MSP under other listings. These services should be billed under the appropriate miscellaneous fee as described in section C. 4.

On recommendation of the Doctors of BC Tariff Committee and agreed to by Government, interim listings may be designated by the MSC for new procedures or other services for a limited period of time to allow definitive listings to be established.

However, prior to establishment of a new or interim fee code, an individual or the section may request special consideration to bill for a medically required service not currently listed by following the procedure under Miscellaneous Services (C. 4.).

C. 4. Miscellaneous Services

This section relates to services not listed in the MSC Payment Schedule that are:

- new medically necessary services generally considered to be accepted standards of care in the medical community currently and not considered experimental in nature;
- unusually complex procedures, for established but infrequently performed procedures;
- for unlisted "team" procedures, or
- for any medically required service for which the medical practitioner desires independent consideration to be given by MSP

Claims under a miscellaneous fee code will be accepted for adjudication only if the following criteria are fulfilled:

- An estimate of an appropriate fee, with rational for the level of that fee
- Sufficient documentation of the services (such as the operative report) to substantiate the claim.

The Medical Services Plan will review the fee estimate proposed and the supporting documentation and by comparing with the service provided with comparable services listed in the MSC Payment Schedule, determine the level of compensation. While an application for a new fee item is in process (as per Section C. 2.), MSP will pay for the service at a percentage of a comparable fee until the new fee item is effective. Should it be determined that a new listing will not be established due to the infrequency of the unlisted service, payments will be made at 100% of the comparable service.

Miscellaneous (…99) Fee Items

00099	General Services
00199	General Practice
00299	Dermatology
00399	General Internal Medicine

59999	Orthopaedics
77799	Vascular Surgery

79199 Thoracic Surgery

If a medical practitioner wishes to dispute the adjudication of a claim submitted under a miscellaneous fee, please refer to section C. 12. on Disputed Payments.

C. 5. Inclusive Services and Fees

If it is not medically necessary for a patient to be personally reassessed prior to prescription renewal, specialty referral, release of diagnostic or laboratory results, etc., claims for these services must not be made to MSP regardless of whether or not a medical practitioner chooses to see his/her patients personally or speak with them via the telephone.

Some services listed in the MSC Payment Schedule have fees which are specifically intended to cover multiple services over extended time periods. Examples are most surgical procedures, the critical care per diem listings and some obstetrical listings. The preambles and Schedule are explicit where these intentions occur.

When, because of serious complications or coincidental non-related illness, additional care is required beyond that which would normally be recognized as included in the listed service, MSP will give independent consideration to claims for this additional care, if adequate explanation is submitted with the claim.

C. 6. Medical Research

Costs of medical services (such as examinations by medical practitioners, laboratory procedures, other diagnostic procedures) which are provided solely for the purposes of research or experimentation are not the responsibility of the patient or MSP. However, it is recognized that medical research may involve what is generally considered to be accepted therapies or procedures, and the fact that a therapy or procedure is performed as part of a research study or protocol does not preclude it from being a service insured by MSP. In the situation where therapies or procedures are part of a research study, only those reasonable costs customarily related to routine and accepted care of a patient’s problem are considered to be insured by MSP; additional services carried out specifically for the purposes of the research are not the responsibility of MSP.

Experimental Medicine

New procedures and therapies not performed elsewhere and which involve a radical departure from the customary approaches to a medical problem, are considered to be experimental medicine. Services related to such experimental medicine are not chargeable to MSP.

New therapies and procedures which have been described elsewhere may or may not be deemed to be experimental medicine for the purposes of determining eligibility for payment by MSP.

Until new procedures or therapies are proven by peer-reviewed studies and adopted by the medical community, they are experimental. Services related to such experimental medicine are not the responsibility of the Medical Services Plan.

Coverage:

- Associated costs for any routine follow up care and diagnostic procedures related to experimental medicine are the responsibility of the patient.
- Care related to complications of any treatment, including experimental medicine, is covered by the Medical Services Plan. Care may include direct telephone consultation with physicians as required and clinical services provided directly to patients. Physician claims are billed under existing mechanisms through the Medical Services Plan Fee-for-Service system (see the MSC Payment Schedule for further information).

Process:

Where such a new therapy or procedure is being introduced into British Columbia and the medical practitioners performing the new therapy or procedure wish to have a new fee item inserted into the fee schedule to cover the new therapy or procedure, the process to be used is as follows:

An application for a new fee item related to the new therapy or procedure will be submitted by the appropriate section(s) of the Doctors of BC to the Doctors of BC Tariff Committee for consideration, with documentation supporting the introduction of this item into the payment schedule. The Doctors of BC Tariff Committee will advise the Medical Services Commission whether or not this new therapy constitutes experimental medicine. If the Tariff Committee considers that the item is experimental, it will not be considered an insured service and will not be introduced into the fee schedule. If the Medical Services Commission, on the advice of Tariff Committee, determines that the new therapy or procedure is not experimental medicine, the fee item application will be handled in the usual manner for a new fee.

When a new therapy or procedure is being performed outside British Columbia, a patient or patient advocate may request that the services associated with this new therapy or procedure be considered insured services by MSP. The situation will be reviewed by the Medical Services Commission utilizing information obtained from various sources, such as medical practitioners, the Doctors of BC or evidence based research. If it is determined that the new therapy or procedure is experimental, then the cost of medical services provided for this type of medical care will not be the responsibility of MSP. If it is considered that the therapy or procedure is not experimental, the cost of the medical services associated with this treatment will be in part or in whole the responsibility of MSP.

If the procedures are accepted as no longer being experimental, they may be added into the MSC Payment Schedule, if approved by the MSC after the appropriate review process has been followed (see section C. 3.).

C. 7. MSP Billing Number

A billing number consists of two numbers – a practitioner number and a payment number. The practitioner number identifies the practitioner performing and taking responsibility for the service. The payment number identifies the person or party to whom a payment will be directed by the Medical Services Plan (MSP). Each claim submitted must include both a practitioner number and payment number.

C. 8. Group Practice, Partnerships, and Locum Tenens

The *Medicare Protection Act* requires that each medical practitioner will charge for his/her own services. For MSP and WorkSafeBC (WSBC) billings this requires the use of the individual's personal practitioner number. This includes members of Group Practices, Partnerships and Locum Tenens. Non compliance may impact the level of benefits a medical practitioner may accrue under the Benefits Subsidiary Agreement.

Exceptions to this rule are the hospital-based Diagnostic Imaging, and where specifically allowed by the MSC.

C. 9. Assignment of Payment

An "Assignment of Payment" is a legal agreement by which an attending practitioner designates payment for his/her services to another party. In this circumstance, the designated party may use the attending practitioner's practitioner number in combination with its own payment number when submitting claims to MSP. To authorize MSP to make payment to a designated party, the attending practitioner must complete and file an "Assignment of Payment" form. However, even though the payment has been assigned, the responsibility for the clinical service and its appropriate billing remains with the practitioner whose practitioner number is used.

C. 10. Adequate Medical Records of a Benefit under MSP

Except for referred "diagnostic facility" services and approved laboratory facility services, a medical record is not considered adequate unless it contains all information which may be designated or implied in the MSC Payment Schedule for the service. Another medical practitioner of the same specialty, who is unfamiliar with both the patient and the attending medical practitioner, would be able to readily determine the following from that record at hand:

a. Date and location of the service.
b. Identification of the patient and the attending medical practitioner.
c. Presenting complaint(s) and presenting symptoms and signs, including their history.
d. All pertinent previous history including pertinent family history.
e. The relevant results, both negative and positive, of a systematic enquiry pertinent to the patient's problem(s).
f. Identification of the extent of the physical examination including pertinent positive and negative findings.
g. Results of any investigations carried out during the encounter.

h. Summation of the problem and plan of management.

For referred “diagnostic facility” services, but not including approved laboratory facility services an adequate medical record must include:

a. Date and location of patient encounter or specimen obtained.
b. Identification of the patient and the referring practitioner.
c. Problem and/or diagnosis giving rise to the referral where appropriate.
d. Identification of the specific services requested by the referring practitioner.
e. Identification of specific services performed but not specifically requested by the referring practitioner, and identification of the medical practitioner who authorized the additional services.
f. Original requisition or a copy or electronic reproduction of the requisition, in which the method of copying or producing an electronic reproduction must be approved by the Commission, the nature of the copy or electronic reproduction must comply with the intent relative to the form and content of the standard diagnostic requisition, and must be auditable to the original source document.
g. Where a requisition is submitted electronically, the electronic ordering methods must be approved by the Commission employing guidelines established jointly by MSP and Doctors of BC.
h. Where a written requisition was never submitted by the referring practitioner, the diagnostic staff person who recorded the verbal requisition must be identified. The requisitions must be retained for 6 years.
i. Results of all services rendered, and interpretation where appropriate. These data must be retained for 6 years.

C. 11. Reciprocal Claims

All Provinces, and Territories, except Quebec, have entered an agreement to pay for insured services provided to residents of other provinces when a patient presents with a valid Provincial Health Registration Card. Claims can be submitted electronically and details of this process may be obtained by contacting MSP. However, the services listed below are exempt from this agreement and should be billed directly to the non-resident patient.

Medical Practitioner Services Excluded under the Inter-Provincial Agreements for the Reciprocal Processing of Out-of-Province medical Claims

1. Surgery for alteration of appearance (cosmetic surgery)
2. Gender-reassignment surgery
3. Surgery for reversal of sterilization
4. Routine periodic health examinations including routine eye examinations (including PAP tests for screening only)
5. In-vitro fertilization, artificial insemination
6. Acupuncture, acupressure, transcutaneous electro-nerve stimulation (TENS), moxibustion, biofeedback, hypnotherapy
7. Services to persons covered by other agencies; Armed Forces, WorkSafe BC, Department of Veterans Affairs, Correctional Services of Canada (Federal Penitentiaries)

8. Services requested by a "Third Party"
9. Team conference(s)
10. Genetic screening and other genetic investigation, including DNA probes
11. Procedures still in the experimental/developmental phase
12. Anesthetic services and surgical assistant services associated with all of the foregoing

The services on this list may or may not be reimbursed by the home province. The patient should make enquires of that home province after direct payment to the BC medical practitioner.

C. 12. Disputed Payments

Remittance statements issued by MSP should be reviewed carefully to reconcile all claims and payments made. Claims may have been adjusted in adjudication and explanatory codes should designate the reason(s) for any adjustments. If a medical practitioner is unable to agree with an adjustment, the account should be resubmitted to MSP together with additional information for reassessment. Further disagreement with the payment should be referred to the Doctors of BC Reference Committee for review and subsequent recommendation to the Commission.

C. 13. Extra Billing and Balance Billing

"Extra Billing" means billing an amount over the amount payable for an insured service (a "benefit") by MSP. Extra billing is not allowed under the *Medicare Protection Act* except for services rendered by medical practitioners who are not "enrolled" with MSP (i.e., no services are covered by MSP) and then only for those services which are rendered outside of hospitals and community care facilities.

"Balance billing" denotes the practice of medical practitioners who are opted in under MSP billing MSP for the MSP fee and the patient for the amount of the difference between the payment made by MSP for an insured service and the fee for that service listed in the Doctors of BC Guide to Fees, under the heading "Non-MSP Insured Fee." Except as defined by differential billing for non-referred patients above, balance billing is not permitted under the *Medicare Protection Act.*

C. 14. Differential Billing for Non-Referred Patients

If a specialist attends a patient without referral from another practitioner authorized by the Medical Services Commission to make such referral, the specialist may submit a claim to MSP for the appropriate general practitioner visit fee and in addition may charge the patient a differential fee. This is not considered "extra billing."

The maximum amount the patient may be charged is the difference between the amount payable under the General Practice Payment Schedule for the service rendered, and the

amount payable under the Payment Schedule to the specialist had the patient been referred.

C. 15. Missed Appointments

Claims for missed appointments must not be submitted to MSP. Billing the patient directly for such missed appointments would not be considered extra billing.

C. 16. Payment for Specialist Consultations/Visits and specialty-restricted items

To be paid by MSP, ICBC or WorkSafeBC for specialist consultations, visit items and/or other specialty-restricted fee items listed in the specialty sections of the Payment Schedule, one must be a Certificant or a Fellow of the Royal College of Physicians and Surgeons of Canada and/or be so recognized by the College of Physicians and Surgeons of British Columbia in that particular specialty.

A specialist recognized in more than one specialty by the College of Physicians and Surgeons of British Columbia should bill consultation and referred items under the specialty most appropriate for the condition being diagnosed and/or treated for that referral/treatment period.

C. 17. Motor Vehicle Accident (MVA) Billing Guidelines

1. All cases directly relating to an MVA which ICBC Insurance coverage applies should be identified as such by a “yes” code in the Teleplan MVA field.
2. All such cases should be coded “MVA” regardless of whether seen in an office visit, emergency, diagnostic, lab or x-ray facility. Surgery or procedures performed in regard to these cases should also be identified.
3. Where possible, please attach an ICBC claim number to each coded MVA in your Teleplan billing.
4. In cases where a visit or procedure was occasioned by more than one condition, the dominant purpose must be related to an MVA to code it as such.
5. If the patient is from another province, use the normal out-of-province billing process.
6. In those instances in which the patient has no MSP coverage, the medical practitioner should bill the patient or ICBC directly. Medical practitioners have the choice of either billing the uninsured patient directly at the Non-MSP Insured recommended rate and having the patient recover the costs from ICBC (see Doctors of BC Guide to Fees), or billing ICBC for the MSP amount.
7. If the MVA is work-related, WorkSafeBC (WSBC) should be billed under their procedures.

8. Medical Practitioners are accountable for proper MVA identification and are subject to audit.

C. 18. Guidelines for Payment for Services by Trainees, Residents and/or Fellows

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the supervising medical practitioner shall be identified to the patient at the earliest possible moment. No fees may be charged in the name of the supervising staff physician for services rendered by a trainee, resident or fellow prior to the identification taking place. Moreover, the supervising staff physician must be available in person, by telephone or videoconferencing in a timely manner appropriate to the acuity of the service being supervised.

For a medical practitioner who supervises two or more procedures or other services concurrently through the use of trainees, residents, fellows or other members of the team, the total billings must not exceed the amount that a medical practitioner could bill in the same time period in the absence of the other team members. For example:

a) If an anesthesiologist is supervising two rooms simultaneously, the anesthetic intensity/complexity units should only be billed for one of the two cases.

b) If a surgeon is operating in one room while his/her resident is operating in a second room, charges should only be made for the case the surgeon performs.

c) In psychotherapy where direct supervision by the staff physician may distort the psychotherapeutic milieu, the staff physician may claim for psychotherapy when a record of the psychotherapeutic interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff physician should not exceed the lesser of the time spent by the resident in the psychotherapeutic interview or the staff physician in the supervision of that interview.

d) For hospital visits and consultations rendered by the resident in the name of the staff physician, the staff physician should only charge for services on the days when actual supervision of that patient's care takes place through a physical visit to the patient by the staff physician and/or a chart review is conducted with detailed discussion with the other members of the health team within the next weekday workday.

e) The supervising physician may not bill for out-of-office hours premiums or continuing care surcharges unless he/she complies with the explanatory notes for out-of-office hours premiums in the Payment Schedule/Guide to Fees and personally attends the patient.

f) In order to bill for a supervised service the physician must review in person, by telephone or videoconferencing the service being billed with the trainee, resident or fellow and have signed off within the next weekday workday on the ER record, hospital chart, office chart or some other auditable document.

C. 19. Services to Family and Household Members

1. Services are not benefits of MSP if a medical practitioner provides them to the following members of the medical practitioner's family:

   a) a spouse,
   b) a son or daughter,
   c) a step-son or step-daughter,
   d) a parent or step-parent,
   e) a parent of a spouse,
   f) a grandparent,
   g) a grandchild,
   h) a brother or sister, or
   i) a spouse of a person referred to in paragraph (b) to (h).

2. Services are not benefits of MSP if a medical practitioner provides them to a member of the same household as the medical practitioner.

C. 20. Delegated Procedures

Procedures which are generally and traditionally accepted as those which may be carried out by a nurse, nurse practitioner or a medical assistant in the employ of a medical practitioner may, when so performed, only be billed to MSP by the medical practitioner when the performance of the procedure is under the "direct supervision" of the medical practitioner or a designated alternate medical practitioner with equivalent qualifications. Direct supervision requires that during the procedure, the medical practitioner be physically present in the office or clinic at which the service is rendered. While this does not preclude the medical practitioner from being otherwise occupied, s/he must be in personal attendance to ensure that procedures are being performed competently and s/he must at all times be available immediately to improve, modify or otherwise intervene in a procedure as required in the best interest of the patient. Billing for these procedures also implies that the medical practitioner is taking full responsibility for their medical necessity and for their quality. Any exceptions to this rule are subject to the written approval of MSP.

"Procedures" in this context do not include such "visit" type services as examinations/ assessments, consultations, psycho-therapy, counselling, telehealth services, etc., which may not be delegated.

The foregoing limitations do not apply to approved procedures rendered in approved "diagnostic facilities", as defined under the Medicare Protection Act and Regulations, or to services rendered in approved laboratory facilities, as defined under the *Laboratory Services Act and Regulation,* which are subject to accreditation under the Diagnostic Accreditation Program.

C. 21. Diagnostic Facility Services

Diagnostic Facility Services are defined under the Medicare Protection Act as follows:

"Medically required services performed in accordance with protocols agreed to by the Commission, or on order of the referring practitioner, who is a member of a prescribed category of practitioner, in an approved diagnostic facility by, or under the supervision of, a medical practitioner who has been enrolled, unless the services are determined by the Commission not to be benefits".

The Medical Services Commission designates, from time to time, certain diagnostic procedures as "diagnostic facility" services under the MSC Payment Schedule. Currently, the following services are considered "diagnostic facility" services for purposes of the MSC Payment Schedule:

The services, studies, or procedures of diagnostic radiology, diagnostic ultrasound, nuclear medicine scanning, pulmonary function, computerized axial tomography technical fee (CT, CAT), magnetic resonance imaging (MRI), positron emission tomography (PET), and electro diagnosis (including electrocardiography, electroencephalography, and polysomnography) are not payable by MSP for services rendered to hospital in-patients, "day surgery" patients, or emergency department patients.

The venepuncture and dispatch listings in the Payment Schedule (00012) apply only to those situations where this sole service is provided by a facility or person unassociated with any other blood work services provided to that patient. Fee item 00012 cannot be billed or paid to a medical practitioner if any other blood work assays are performed or if the specimen is sent to an associated facility.

C. 22. Appliances/Prostheses/Orthotics

The costs of prostheses, orthotics and other appliances are not covered under MSP. Such devices, where insertion in hospital is medically/surgically required and where the devices are embedded entirely within tissue, may be covered under an institutional budget.

C. 23. Accompanying Patients

When it is medically essential that a medical practitioner accompany a patient to a distant hospital, MSP allows payment at the rates listed in the Payment Schedule for the travelling time spent with the patient only. Out-of-office hours premiums may also be applicable in accordance with the guidelines. Payment is based on a return trip and not applicable to layover time. Claims should be submitted with details under fee code 00084. Claims for travel, board and lodging are not payable by MSP. Medical practitioners who accompany a patient who is being transferred will, upon application to the Health Authority, be reimbursed for expenses reasonably incurred during, and necessitated by, the transfer.

C. 24. Salaried and Sessional Arrangements

Fee for Service claims for any physician service(s) that is funded under a service contract, or compensated for under a sessional or salaried payment arrangement, must

not be billed to MSP. When physicians who receive compensation under a service contract, sessional payment or salaried arrangement are billing for an unrelated service, the appropriate location code and facility code should be included on all fee for service claims.

C. 25. WorkSafeBC (WSBC)

A detailed description of WorkSafeBC (WSBC) fees, preamble, and policies is contained in the WorkSafeBC section of the Doctors of BC Guide to Fees. The fees listed under “MSP and WSBC Fee” have been accepted by the WorkSafeBC through negotiated agreements as the basis for their Guide to Fees. WorkSafeBC supplies its own reporting and billing forms. To facilitate payment, WorkSafeBC requires the practitioner to include their MSP payment number on all forms.

MSP is currently processing claims on behalf of WorkSafeBC as its agent. The Doctors of BC and WorkSafeBC agree that MSP Teleplan is the only acceptable manner of billing WorkSafeBC for services billable through MSP.

C. 26. BC Transplant Society

With the exception of medical practitioners paid by the BC Transplant Society under an alternate payment plan, all medical practitioner services associated with cadaveric organ recovery (“organ donation”) are payable on a fee-for-service basis through the MSP. For the purpose of payment of these services, the donor’s PHN will remain valid after legal brain death until such time as the donor’s organs have been successfully harvested. A note record should accompany the account stating “organ donor”.

D. 1. Telehealth Services

“Telehealth Service” is defined as a medical practitioner delivered health service provided to a patient via live image transmission of those images to a receiving medical practitioner at another approved site, through the use of video technology. “Video technology” means the recording, reproducing and broadcasting of live visual images utilizing a direct interactive video link with a patient. If the sending and/or receiving medical practitioner are not in a Health Authority approved site, the medical practitioner is responsible for the confidentiality and security of all records and transmissions related to the telehealth service. In order for payment to be made, the patient must be in attendance at the sending site at the time of the video capture. Only those services which are designated as telehealth services are payable by MSP. Other services/procedures require face-to-face encounters. Telehealth services do not include teleradiology or tele-ultrasound, which are regulated by their specific Sectional Preambles.

Telehealth services are payable only when provided as defined under the specific Preamble pertaining to the service rendered (e.g.: telehealth consultation – see Preamble D. 2.) to a patient with valid medical coverage. Patients must be informed and given opportunity to agree to services rendered using this modality, without prejudice.

Notwithstanding the above, “telehealth examination” means an examination of a patient by the consultant at the receiving site using “telehealth services” as defined above, but does not include the “face-to-face encounter” requirements referred to under Preamble A. 2.

In those cases where a specialist service requires a general practitioner at the patient’s site to assist with the essential physical assessment, without which the specialist service would be ineffective, the specialist must indicate in the “Referred by” field that a request was made for a General Practice assisted assessment.

Where a receiving medical practitioner, after having provided a telehealth consultation service to a patient, decides s/he must examine the patient in person, the medical practitioner should claim the subsequent visit as a limited consultation, unless more than 6 months has passed since the telehealth consultation.

Where a telehealth service is interrupted for technical failure, and is not able to be resumed within a reasonable period of time, and therefore is unable to be completed, the receiving medical practitioner should submit a claim under the appropriate miscellaneous code for independent consideration with appropriate substantiating information.

Video technology services are generally payable once per patient/per day/per medical practitioner. Any exceptions to this policy must comply with all Payment Schedule criteria for multiple visits. Information regarding the medical necessity and times of service should accompany claims.

Compensation for travel, scheduling and other logistics is the responsibility of the Regional Health Authority. Rural Retention fee-for-service premiums are applicable to

telehealth services and are payable based on the location of the receiving medical practitioner in eligible RSA communities.

The College of Physicians and Surgeons of British Columbia has confirmed that in this province, licensure is defined by the location of the medical practitioner. However, other jurisdictions may have other definitions. BC medical practitioners providing care via telehealth to patients outside the province must abide by the regulations set in the patient's home province.

See the appropriate Section for specific fee items and further criteria.

D. 2. Consultation

D. 2. 1. General

A consultation applies when a medical practitioner, or a health care practitioner (chiropractor, for orthopaedic consultations; midwife, for obstetrical or neonatal related consultations; nurse practitioner; optometrist, for ophthalmology consultations; optometrist, for Neurology consultations for suspected optic neuritis or amaurosis fugax or Alon {anterior ischemic optic neuropathy} or stroke or diplopia; oral/dental surgeon (for diseases of mastication)), in the light of his/her professional knowledge of the patient and because of the complexity, obscurity or seriousness of the case, requests the opinion of a medical practitioner competent to give advice in this field.

The referring practitioner is expected to provide the consulting physician with a letter of referral that includes the reason for the request and the relevant background information on the patient. The referring practitioner is also required to notify MSP of the referral by including the practitioner number of the specialist to whom the patient is being referred on their associated FFS claim. If no FFS claim is being submitted, a "no charge referral" claim under fee item 03333 is to be sent to MSP.

The service includes the initial services of a consultant necessary to enable him/her to prepare and render a written report, including his/her findings, opinions and recommendations, to the referring practitioner. A consultation must not be claimed unless the attending practitioner specifically requested it, and unless the written report is rendered. It is expected that a written report will be generated by the medical practitioner providing the consultation within 2 weeks of the date-of-service. In exceptional circumstances, when beyond the consultant's control, a delay of up to 4 weeks is acceptable.

Additional criteria apply to certain types of specialty specific consultations. These are described in the Sectional Preambles and/or the notes to the specific fee codes.

D. 2. 2. Restrictions

i) A consultation for the same diagnosis is not normally payable as a full consultation unless an interval of at least six months has passed since the

consultant has last billed a visit or service for the patient. A limited consultation may be payable within the six month interval, if medically necessary and a consultation has been specifically requested.

ii) For consultations and/or other specialty limited services to be paid by MSP, the medical practitioner rendering the service must be certified by or be a Fellow of the Royal College of Physicians and Surgeons of Canada, and be so recognized by the College of Physicians and Surgeons of British Columbia. No other specialist qualifications will be recognized by MSP and payments for visits and examinations rendered by licensed physicians not so qualified will be made on the basis of fees listed in the General Practice Section of this MSC Payment Schedule. Exceptions to this limitation will only be made in cases of geographic need, as recommended by the College of Physicians and Surgeons of BC.

D. 2. 3. Limited Consultation

A limited consultation requires all of the components expected of a full consultation for that specialty but is less demanding and normally requires substantially less of the medical practitioner's time than a full consultation.

It is expected that the limited consultation, when medically necessary and specifically requested, will be billed as part of continuing care, and that a full consultation is not billed simply because of the passage of time.

A new and unrelated diagnosis can be billed as a full consultation without regard to the passage of time since the consultant has last billed any visit or service for the patient.

D. 2. 4. Special Consultation

Specific additional conditions may apply to specific types of consultation, as designated in the Preamble to the pertinent section of the MSC Payment Schedule and/or the notes to the specific listings.

D. 2. 5. Continuing Care by Consultant

Once a consultation has been rendered and the written report submitted to the referring practitioner, this aspect of the care of the patient normally is returned to the referring practitioner. However, if by mutual agreement between the consultant and the referring practitioner, the complexities of the case are felt to be such that its management should remain for a time in the hands of the consultant, the consultant should claim for continuing care according to the MSC Payment Schedule pertaining to the pertinent specialty.

Where the care of this aspect of the case has been transferred, except for a patient in hospital, the referring practitioner generally should not charge for this aspect of the patient's care unless and until the full responsibility is returned to him/her. For hospitalized patients, supportive care may apply.

Continuing care by a specialist (following consultation) normally is paid at the pertinent specialist rates. However, continuing care requires that a written update of the patient's

condition and care be appropriately reported to the referring practitioner at least every six months, until the responsibility for this aspect of the patient's care is returned to the Primary Care practitioner.

D. 2. 6. Referral and Transferral

A referral is defined as a request from one practitioner to another practitioner to render a service with respect to a specific patient. Such service usually would be a consultation, a laboratory procedure or other diagnostic test, or specific surgical/medical treatment.

When the medical practitioner to whom a patient has been referred makes further referrals to other medical practitioners, it is the usual practice that the original referring medical practitioner be informed of these further referrals.

A transferral, as distinguished from a referral, involves the transfer of responsibility for the care of the patient temporarily or permanently. Thus, when one medical practitioner is going off call or leaving on holidays and is unable to continue to treat his/her cases, medical practitioners who are substituting for that medical practitioner should consider that the patients have been temporarily transferred (not referred) to their care.

The medical practitioner to whom a patient has been transferred normally should not bill a consultation for that patient. However, when the complexity or severity of the illness requires that the medical practitioner accepting the transfer reviews the records of the patient and examines the patient, a limited or full consultation may be billed when specifically requested by the transferring medical practitioner.

A new consultation is not allowed when a group or physicians routinely working together provide call for each other.

D. 3. Visits and Examinations

In addition to the general requirements contained in the introduction to the General Preamble – Section A. 2., the following definitions apply. As well, please note when services are provided for simple education alone, including group education sessions (e.g.: asthma, cardiac rehabilitation and diabetic education) such services are not appropriately claimed under fee-for-service listings.

D. 3. 1. Complete Examination

i) A complete physical examination shall include a complete detailed history and physical examination of all parts and systems with special attention to local examination where clinically indicated, adequate record of findings and, if necessary, discussion with patient. The above should include complaints, history of present and past illness, family history, personal history, functional inquiry physical examination, differential diagnosis and provisional diagnosis.

ii) Routine or periodic complete physical examination (check up) is not a benefit under MSP. This includes any associated diagnostic procedures or approved laboratory facility services unless significant pathology is found. The physician

should advise the diagnostic or approved laboratory facility of the patient's responsibility for payment.

D. 3. 2. Partial Examination

A visit for any condition(s) requiring partial examination or history includes both initial and subsequent examination for same or related condition(s). A partial examination includes a history of the presenting complaint(s), appropriate enquiry and examination of the affected part(s), region(s) and/or systems(s) as medically required to make a diagnosis, exclude disease and/or assess function.

D. 3. 3. Counselling

Counselling is defined as the discussion with the patient, caregiver, spouse or relative about a medical condition which is recognized as difficult by the medical profession or over which the patient is having significant emotional distress, including the management of malignant disease. Counselling, to be claimed as such, must not be delegated and must last at least 20 minutes.

Counselling is not to be claimed for advice that is a normal component of any visit or as a substitute for the usual patient examination fee, whether or not the visit is prolonged. For example, the counselling codes must not be used simply because the assessment and/or treatment may take 20 minutes or longer, such as in the case of multiple complaints. The counselling codes are also not intended for activities related to attempting to persuade a patient to alter diet or other lifestyle behavioural patterns. Nor are the counselling codes generally applicable to the explanation of the results of diagnostic tests or approved laboratory facility services.

Not only must the condition be recognized as difficult by the medical profession, but the medical practitioner's intervention must of necessity be over and above the advice which would normally be appropriate for that condition. For example, a medical practitioner may have to use considerable professional skill counselling a patient (or a patient's parent) who has been newly diagnosed as having juvenile diabetes, in order for the family to understand, accept and cope with the implications and emotional problems of this disease and its treatment. In contrast, if simple education alone including group educational sessions (e.g.: asthma, cardiac rehabilitation and diabetic education) is required, such service could not appropriately be claimed under the counselling listings even though the duration of the service was 20 minutes or longer. It would be appropriate to apply for sessional payments for group educational sessions. Unless the patient is having significant difficulty coping, the counselling listings normally would not be applicable to subsequent visits in the treatment of this disease.

Other examples of appropriate claims under the counselling listings are Psychiatric Care, the counselling that may be necessary to treat a significant grief reaction, and conjoint therapy and/or family therapy for significant behavioural problems.

MSP payment of counselling under the counselling listings is limited to four sessions per year per patient unless otherwise specified. Subsequent counselling is payable under the other visit listings. Counselling by telephone is not a benefit under MSP.

D. 3. 4. Group Counselling

The group counselling fee items found in the General Practice and various specialty sections of the Schedule apply only when two or more patients are provided counselling in a group session lasting 60 minutes or more. The group counselling fee items are not applicable when there is a discussion with the patient in the presence of a caregiver, spouse, or relative when the patient is the only person requiring medical care. In those situations, only the applicable individual counselling fee item could be billed, using the patient's MSP personal health number.

Group counselling fee items are not billable for each person in the group. Claims should be submitted under the Personal Health Number of only one of the beneficiaries, with the names of the other patients attending the session listed in the note record. Only patients with valid MSP coverage should be included. Times should be included with billings for group counselling fee items.

D. 4. Hospital and Institutional Visits

D. 4. 1. Hospital Admission Examination

An in-hospital admission examination (fee items 00109 or 13109) may be claimed when a patient is admitted to an acute care hospital for medical care rendered by a general practitioner. The service also may be applicable when a medical practitioner is required to perform an admission examination prior to a hospital service being delivered by a health care practitioner (e.g.: a dental surgeon). The hospital admission examination listing is not applicable when a patient has been admitted for surgery or when a patient is admitted for care (other than directive care) rendered by a specialist. This service is applicable only once per patient per hospitalization and is in lieu of a “hospital visit” on the day it is rendered. This item is intended to apply in lieu of fee items 00108 or 13008 on the first in-patient day. However, if extra visits are medically required because of the nature of the problem, 00108 or 13008 may be billed in addition. An explanation of the reasons for the additional charges should accompany the claim.

This service includes all of the components of a complete examination and may not be claimed if either of these two services has been claimed by this medical practitioner, within the week preceding the patient's admission to hospital. If the MSC Payment Schedule listing for a hospital admission examination is not applicable, the service may be billed under the appropriate “hospital visit” listings.

D. 4. 2. Subsequent Hospital Visit

A subsequent hospital visit is the routine monitoring and/or examination(s) that are medically required following a patient's admission to an acute care hospital. Payments for subsequent hospital visits are usually limited to one per patient per day for a period up to 30 days. However, it is not the intent of the Schedule that subsequent visit fees be

claimed for every day a patient is in hospital unless the visits are medically required and unless a medical practitioner visits the patient each day.

If it is medically required for a patient to be visited more than once per day at any time, or daily beyond the initial 30 day period (e.g.: if the patient is in one of the Intensive Care wards), an explanation should be submitted with the claim and independent consideration will be given.

D. 4. 3. Surgery by a Visiting Doctor

If a surgeon operates outside of his/her geographical area, (for example as part of an outreach program or other such circumstances), and because of this, s/he is unable to render the usual post-operative care, the medical practitioner who performs this service for the patient may claim for necessary hospital visits at the usual frequency, as described under Preamble D. 4. 2. Claims for such post-operative care should be accompanied by a written explanation or an electronic note record. No such claims, however, should be made if the hospital at which the post-operative care is being rendered is within the same metropolitan area or within 32 km of the surgeon's home or office.

D. 4. 4. Long-Stay Hospitalization

For long stays in an acute care hospital including discharge planning and holding units because of serious illness extending beyond 30 days, claims for subsequent hospital visits greater than two visits per patient per week should include an explanation, and will be given independent consideration.

D. 4. 5. Directive Care

Directive care refers to those subsequent hospital visits rendered by a consultant in cases in which the responsibility for the case remains in the hands of the attending practitioner but for which a consultant is requested by the referring physician to give directive care in hospital during the acute phase. Payments for directive care are limited to two visits per patient per week (Sunday to Saturday), even when there is no interval between visits, for each consultant requested to render directive care by the referring practitioner.

D. 4. 6. Concurrent Care

For those medical cases where the medical indications are of such complexity that the concurrent services of more than one medical practitioner are required for the adequate care of a patient, subsequent visits should be claimed by each medical practitioner as required for that care. To facilitate payment, claims should be accompanied by an electronic note record, and independent consideration will be given. For patients in I.C.U. or C.C.U. this information in itself is sufficient.

D. 4. 7. Supportive Care

Where a case has been referred and the referring medical practitioner no longer is in charge of the patient's care but for which continued liaison with the family and/or reassurance of the patient is necessary while the patient is hospitalized, supportive care

may be claimed by the referring medical practitioner. Payments for supportive care are limited to one visit for every day of hospitalization for the first ten days and, thereafter, one supportive care visit for every seven days of hospitalization.

D. 4. 8. Newborn Care in Hospital

Newborn care in hospital is the routine care of a well baby up to 10 days of age and includes an initial complete assessment and examination and all subsequent visits as may be appropriate, including instructions to the parent(s) and/or the patient's representative(s) regarding health care. Newborn well baby care in hospital normally is not payable to more than one medical practitioner for the same patient. However, when a well baby is transferred to another hospital (because of the mother's state of health), separate claims for newborn care when rendered by a different medical practitioner at each hospital may be made.

D. 4. 9. Long-Term-Care Institution Visits

When visits are required to patients in long-term-care institutions (such as nursing homes, intermediate care facilities, extended care unit, rehabilitation facilities, chronic care facilities, convalescent care facilities and personal care facilities, whether or not any of these facilities are situated on the campus of an acute care facility) claims may be made to a maximum of one visit every two weeks. It is not sufficient, however, for the medical practitioner simply to review the patient's chart. A face-to-face patient/medical practitioner encounter must be made. For acute concurrent illnesses or exacerbation of original illness requiring institutional visits beyond the foregoing limitations, additional institutional visits may be claimed with accompanying written explanation.

D. 4. 10 Palliative Care

The Palliative Care listings are applicable to the visits for palliative care rendered to terminally ill patients suffering from malignant disease or AIDS, or end-stage respiratory, cardiac, liver and renal disease and end-stage dementia with life expectancy of up to 6 months. These listings only apply where aggressive treatment of the underlying disease process is no longer taking place and care is directed instead to maintaining the comfort of the patient until death occurs.

Claims for these listings should be billed continuously from time of determination of patient's palliative status, for a period not to exceed 180 days prior to death. Under extenuating circumstances palliative listings billed beyond 180 days will be given independent consideration upon receipt of an explanatory note record.

The listings are applicable to patients in acute care hospitals, hospice facilities or other institutions whether or not the patient is in a designated palliative care unit. The palliative care listings do not apply when unexpected death occurs after long hospitalization for a diagnosis unrelated to the cause of death.

D. 4. 11. Sub Acute Care

Sub acute care is payable twice per week under fee items 00108, 13008. If more services or concurrent care is required an explanatory note record should accompany the claim submission. Independent consideration will be given to these claims.

D. 4. 12. Emergency Department Examinations

Emergency department examinations are designated by various intensity levels of emergency department care. These fee codes apply only to those circumstances where either specialists in emergency medicine or other medical practitioners are physically and continuously present in the Emergency Department or its environs for an arranged designated period of time. For complete details, please refer to the Emergency Medicine section of the MSC Payment Schedule.

D. 4. 13. House Calls

i) A house call is considered necessary and may be billed only when the patient cannot practically attend a physician's office due to a significant medical or physical disability or debility and the patient's complaint indicates a serious or potentially serious medical problem that requires a medical practitioner's attendance in order to determine appropriate management;

ii) A house call may be initiated by the patient, the patient's advocate, or the physician when planned proactive care is determined to be medically necessary to manage the patient's condition;

iii) If a house call is determined to be necessary and is rendered any day of the week between 0800 and 2300 hours, the house call should be billed as a home visit (use 00103);

iv) If the house call is initiated and rendered between 2300 and 0800 hours, the visit may be billed as an out-of-office visit with the night call-out charge (01201).

v) A house call provided for patient convenience should be billed as an out-of-office visit (12200, 13200, 15200, 16200, 17200 or 18200) without a service charge;

vi) The above also applies to house calls rendered by medical practitioners taking call for other medical practitioners;

vii) As practicality dictates, the necessity and detail and the time of the call should be documented in the patient's clinical record.

D. 5 Surgery

D. 5. 1. General

The fees for surgery, unless otherwise specifically indicated, include the surgical procedure itself and in-hospital post-operative follow-up, including removal of sutures and care of the operative wound by the surgeon or associate. Unless otherwise specifically

indicated, the normal post-operative period included in the surgical fee is 14 days and the surgery fees include all concomitant services necessary to perform the listed service (including preparation of the operative site, incision, exploration, review of the results of diagnostic tests and approved laboratory facility services rendered during the surgery, closure, and pre and post-operative discussion with the patient and/or patient's family).

When unusual circumstances require that additional medical services are provided in the in-hospital 14 days following a surgical procedure over and above the concomitant services necessary to perform the operative procedure, the additional services performed are not part of the inclusive fee for the surgical procedure and may be billed separately. A note record is required.

D. 5. 2. Operation Only

For listings designated "operation only" the in-hospital, 14 day post-operative visits may be claimed in addition to the surgical procedure, with the exception of the visit(s) made on the day of the procedure.

D. 5. 3. Multiple Surgical Procedures

i) When two or more similar procedures (including bilateral procedures) are performed under the same anesthetic, or when two or more procedures are performed in the same general area, whether through the same incision, an extension of that incision or through separate incisions, the procedure with the greater listed fee may be claimed in full and the fees for the additional procedure are reduced to 50 percent, unless otherwise indicated by the Schedule. However, additional incidental surgery performed en passant (i.e. surgery which would not have been performed in the absence of the primary procedure, such as an appendectomy during abdominal surgery, or incidental cystectomy during gynecological surgery) is considered to be included in the fee for the planned procedure and may not be charged.

ii) When two or more different procedures are performed through separate incisions under the same anesthetic, and reposition or redraping of the patient or more than one separately draped surgical operating field is medically/surgically required (because of the nature of the procedure and/or the safety of the patient), the procedure with the greater listed fee may be claimed in full and the fees for the additional such procedures are reduced to 75 percent, unless otherwise indicated by the Payment Schedule.

iii) Procedures which are listed as "extra" in the Payment Schedule may be claimed at the full listed fee even when performed with other surgical procedures, unless otherwise indicated in the Payment Schedule.

iv) When two procedures are performed under the same anesthetic by two surgeons and both procedures are or should be within the competence of either one of the operators within the specialty or specialties, the total surgical fee claimed should be no more than that which would be payable if both procedures had been

performed by one surgeon, plus one assistant's fee.

v) Except where team fees are specifically listed in the Payment Schedule or where a team fee reasonably could be expected to apply, when two procedures are performed under the same anesthetic by two surgeons whose different specialty skills are required to perform both procedures, each surgeon may claim his/her specific services as if they were performed in isolation from the other surgeon. These surgeons are not eligible for assistant fees for assisting each other, however, unless each of the surgical procedures takes place consecutively instead of concurrently.

vi) Where a surgical procedure is performed in stages under separate anesthetics and where there is no specific staged procedure listing in the Payment Schedule, the maximum fee applicable to the complete procedure is 150 percent of the listed fee. However, for emergency surgery followed by a definitive surgical procedure for the same problem (e.g.: cholecystostomy followed by a cholecystectomy at a later date) each procedure may be claimed at the full listed fee.

vii) Surgical procedures which are abandoned before completion will be given independent consideration and paid in accordance with the services performed.

viii) Additional surgery performed to correct an intra-operative injury(ies) which result from the complicated nature of the disease or significant pathology may be billed at 50%. When submitting a claim for a repair of an intra-operative injury, it must be supported by an explanation in a note record or an operative report. If the repair is performed by another surgeon, it may be billed at 100%.

D. 5. 4. **<u>Surgical Assist</u>**

i) Time, for the purposes of fee codes 00193, 00198, 07920, T70019 and T70020 is calculated at the earliest time of medical practitioner/patient contact in the operating suite.

ii) Where a medical practitioner renders surgical assistance at two operations under the same anesthetic but for which repositioning or redraping of the patient or more than one separately draped surgical operating field is medically/surgically required, separate assistants' fees may be claimed for each operation, except for bilateral procedures, procedures within the same body cavity, or procedures on the same limb.

iii) If, in the interest of the patient, the referring medical practitioner is requested by the patient or the surgeon to attend but does not assist at the procedure, attendance at surgery may be claimed as a subsequent hospital visit.

iv) The specialist's assistant listings apply only to surgical procedures having unusual technical difficulties identified and documented by the primary surgeon **in a detailed note record** as necessitating the services of a certified surgical assistant. The general assistant listings are applicable to all other situations

where surgical assistance is necessary. (Also see Preamble B. Definitions, Prefixes to Fee Codes).

v) Where surgery is abandoned, independent consideration will be given to the fee applicable to the assistant, to a maximum of 50 percent of the listed assistant fee for the intended procedure.

D. 5. 5. **<u>Cosmetic Surgery</u>**

The guidelines for MSP coverage of surgery for alteration of appearance are listed under Preamble D. 9. For cosmetic surgery not covered by MSP, the anesthetic and assistants' fees also are not covered. In addition, hospitalization charges are not insured for cosmetic surgical procedures not covered by MSP.

D. 6. **Fractures and Other Trauma**

a. When multiple procedures for multiple fractures and/or soft tissue injuries are done by the same surgeon, through different incisions, the largest fee should be charged at 100% and all subsequent fees at 75%. In cases of dissociated injuries for which the presence of one impedes the progress of another, or in the case of multiple major fractures (e.g.: a fractured femur and tibia in the same limb), a full fee for each (to a maximum of 3) may be charged provided that adequate clinical evidence to support this charge is rendered with the account.

b. Open (compound) fractures; primary wound management fee(s) may be charged in addition to the fracture fee and will be paid at the same percentage as applies to the fracture fees. These wound management fee items are exempt from the 14 day rule (D. 5. 1.). Secondary wound management fees may also be charged and are exempt from the 14 day rule (D. 5. 1.). These primary and secondary Wound Management fees are only applicable where fee items have been designated in a section's schedule of fees for specific open fractures or specified primary or secondary wound management of fractures.

c. Open reduction of fracture or dislocation when necessary – 50% extra may be charged if a fee for open reduction is not listed.

d. All casts and plaster-moulded splints may be charged in full in addition to the procedure and visit fees, except that cast or plaster-moulded splint applied at the time of the initial procedure. In cases where a cast or plaster-moulded splint application or alteration is the sole purpose of a visit, a visit fee is not chargeable. Fees for application of casts or plaster-moulded splints are payable only when performed by the medical practitioner.

e. Open reduction of old malunited fracture – may be billed at an additional 25% of the listed fee unless a specific fee item exists.

f. External Skeletal Fixation with closed reduction – may be billed at an additional 25% of the listed fee unless a specific fee item exists.

D. 7. Diagnostic and Selected Therapeutic Procedure

a. The listings under the “Diagnostic Procedures and Selected Therapeutic Procedures” section of the MSC Payment Schedule may be claimed in addition to a consultation or other assessment/visit, when performed during that visit.

   If, however, the procedure takes place on a subsequent visit arranged to perform the procedure, then that visit may not be claimed in addition to the procedure unless the fee code for the latter is prefixed by the letter “Y”.

   A subsequent visit fee will be paid in addition to the procedure if more than thirty (30) days has elapsed between the initial visit or service and the diagnostic procedure.

b. Diagnostic procedures may be claimed in addition to surgical procedures, when applicable.

c. For multiple diagnostic procedures performed at the same sitting, the procedure having the largest fee may be claimed in full and the remaining procedure(s) at 50 percent of the listed fee(s), unless otherwise specifically indicated in the Payment Schedule.

d. When two diagnostic/therapeutic procedures are performed by separate medical practitioners at the same sitting and both procedures are or should be within the competence of either medical practitioner, the total fee claimed should be no greater than that which would be payable if both procedures had been performed by one medical practitioner, plus one assistant’s fee (if applicable).

e. When a medical practitioner performs a diagnostic procedure, s/he must be allowed to appropriately perform a full or limited consultation for which s/he charges and is paid, regardless of what consultations and procedures have been performed by other specialists or sub-specialists. The consultation would require a written report in addition to the report of the diagnostic procedure.

   If the diagnostic procedure is done on an initial visit, and the initial visit is for the specific purpose of performing the diagnostic procedure, and this visit occurs on an out-patient basis in a procedure facility (including endoscopy suites and cardiac catheterization suites), then a limited consultation would normally be billed rather than a full consultation.

f. Procedures designated as “extra” will be paid at 100 percent for the first “extra” and 50 percent for any additional procedures designated as “extra”. Should all procedures be designated as “extra” then the first procedure will be deemed a regular procedure and payment for the first subsequent “extra” will be at 100 percent and all others at 50 percent.

D. 8. Minor Diagnostic and Therapeutic Procedures

a. Minor Diagnostic and Therapeutic Procedures are defined as procedures which have a fee value that is less than that of the office visit.

Note: To determine the service with the greatest value when a tray fee is applicable, the amount of the tray fee will be added to the value of the procedure fee in the calculation process.

b. When minor diagnostic or therapeutic procedures are performed in conjunction with an assessment/visit (not a consultation) either the visit or the procedure may be claimed, but not both. Includes fee items identified as “Isolated procedures”.

c. When the performance of a minor diagnostic or therapeutic procedure is the primary purpose of the visit (excluding home visits), the fee listed for the procedure includes the associated assessment.

d. If in the course of a visit for a specific complaint, one or more procedures are performed which are unrelated to the purpose of the visit (e.g.: URI and laceration repair), the service having the largest fee may be claimed in full and the remaining service(s) at 50 percent of the listed fee(s), unless otherwise specifically indicated in the MSC Payment Schedule.

e. For two or more minor diagnostic or therapeutic procedures listed in the “General Services” section of the Payment Schedule and performed together at the same sitting, each applicable fee may be claimed in full.

D. 9. Surgery for Alteration of Appearance

D. 9. 1. General

a. Surgery to alleviate significant physical symptoms or to restore or improve function to any area altered by disease, trauma or congenital deformity normally is a benefit under MSP. Surgery solely to alter or restore appearance is not a benefit of MSP except under the circumstances listed in the following policy.

b. In establishing this policy, it has been recognized that:
- peer acceptance in our society often is influenced disproportionately by the face,
- children are especially susceptible to emotional trauma caused by physical appearances,
- some procedures traditionally have been accepted as benefits of Health Insurance Plans in spite of the obvious cosmetic nature of these procedures.

c. Emotional, psychological or psychiatric grounds are not considered sufficient reason for MSP coverage of surgery for alteration of appearance except in children and under exceptional circumstances in adults.

   On request of the attending medical practitioner, exceptions may be made on an independent consideration basis if the proposed surgery is to alter a significant defect in appearance caused by disease, trauma or congenital deformity, and if the surgery is essential to obtain employment as documented by the attending physician and by an employer with regard to a specific job.

d. Surgery to revise or remove features of physical appearance which are familial in nature is not a benefit of MSP.

e. Within the context of this policy, the word “disease” does not include the normal sequelae of aging. Surgery to alter changes in appearance caused by aging is not a benefit of MSP.

f. Within the context of this policy, the word “trauma” includes trauma due to treatment such as surgery, radiation, etc.

g. As the phrase “reasonable period of convalescence” is imprecise, independent consideration will be given to more complex cases or extenuating circumstances.

h. Authorization from MSP is not required for all surgery to alter appearance. It is required only for those categories of procedures for which some cases may not be a benefit under MSP policy.

i. Authorization required and obtained remains valid for a period of up to two years, after which a new authorization will be required.

   Where authorization has been denied or has not been obtained when required for a surgical procedure, the associated consultations, anesthesiology and surgical assistance also are not covered by MSP. Hospitalization costs also will remain the patient’s responsibility.

D. 9. 2. <u>Surface Pathology</u>

D. 9. 2. 1. <u>Trauma Scars</u>

a. **Neck or Face**

   - Includes non-hair bearing areas of the scalp.
   - Repair of all significant and unsightly such scars, including acne scars, is a benefit of MSP.
   - Repair procedures will depend upon the lesion but may include excision, revision, dermabrasion, etc. Rhytidectomy procedures to remove scar prominence, however, are not a benefit of MSP.
   - Implantation of collagen, etc. to restore contour, or chemical abrasion to reduce hyperpigmentation are not benefits of MSP except in those rare

cases where the pitting or the pigmentation is so severe that a generally acceptable result would not be possible without these procedures.

- MSP authorization for repair of such scars is required.

b. **Scars in other Anatomical Areas**

- Repair of scars which interfere with function or which are significantly symptomatic (pain, local irritation, etc.) is a benefit of MSP.
- Scars with no significant symptoms or functional interference:
  - (i) Repair is a benefit if such repair is carried out within a reasonable period of convalescence, or is part of a pre-planned post-traumatic (including post surgical) staged process. MSP notification must be included as part of the planning process in the latter case.
  - (ii) Other post-traumatic scar revision is not a benefit of MSP.
  - (iii) Revision of acne scars other than on the face or neck is not a benefit of MSP.
- MSP authorization is required for all scar repair procedures.

D. 9. 2. 2. Keloids and Hypertrophic Scars

a. **Head or Neck**

- The repair of all significant and unsightly scars, such as keloids, is a benefit of MSP.
- Repair procedures may include excision and/or injection.

b. **Excision of keloids in other areas**

- Not a benefit of MSP unless significantly symptomatic or there is functional impairment.

D. 9. 2. 3. Tattoos

a. **Face and Neck**

- Excision or destruction of all significant and unsightly tattoos is a benefit of MSP.
- Authorization is not required, but adjudication of repair procedures will be identical to that for scars in these areas.

b. **Other Anatomical Areas**

- Normally not a benefit of MSP

D. 9. 2. 4. <u>Benign Skin Lesions</u>

Surgical, physical or chemical removal of benign lesions of the skin, including that done by dermabrasion or chemical peel, unless the diagnosis is specifically defined as an approved indication, in article D. 9. 2. 4. a. is not a benefit of MSP.

Examples of benign lesions that are not insured include but are not limited to the following: benign naevi, seborrhoeic keratosis, common warts (verrucae), lipomata, uncomplicated benign dermal and/or epidermal cysts, telangiectasias and angiomata of the skin, skin tags, acrochordons, fibroepithelial polyps, papillomata, neurofibromata, dermatofibromata.

a. **Exceptions**

Destructive therapies of benign skin lesions are insured services when the treatment is medically necessary. Examples of medical necessity include but are not limited to the following indications:

- genital warts (condylomata acuminate)
- plantar warts
- viral induced cutaneous tumours in the immune compromised patient
- inflamed dermal and epidermal cyst
- dysplastic naevi
- lentigo maligna
- congenital naevi
- actinic (solar) keratosis
- atypical pigmented naevi
- lesions which cause significant pathophysiologic dysfunction

b. When a patient presents with a surface pathology, the initial visit and or consultation and/or pathologic examination of a tissue specimen, when one is submitted, is regarded as medically necessary to establish the diagnosis, and therefore, is an insured service.

D. 9. 2. 5. <u>Hair Loss</u>

a. **Scalp or Neck**

(i) Post-traumatic:

- Repair to the area of traumatic hair loss is a benefit of MSP only if carried out within a reasonable period of convalescence.
- MSP authorization is required.

(ii) Other Etiology:

- Not a benefit of MSP

(iii) Usual repair procedures may include skin shifts or flaps, skin grafts, or hair plugs.

b. **Other Anatomical Areas**

- Not a benefit of MSP

D. 9. 2. 6. Epilation of Hair

a. **Face**

- This procedure, when done for alteration of appearance, is a benefit of MSP when rendered by medical practitioners and only for those patients with documented endocrine abnormality, drug-induced hirsutism or from hair-bearing facial graft.
- MSP authorization is required.

b. **Other Anatomical Areas**

- Not a benefit of MSP

D. 9. 2. 7. Redundant Skin

a. Excision of redundant skin for elimination of wrinkles, etc. is not a benefit of MSP.

b. Blepharoplasty is not a benefit of MSP unless there is documented evidence of medical necessity such as a visual field defect caused by the redundant eyelid skin and which meets the Doctors of BC/MSC guidelines for significant defect.

c. MSP authorization is required.

D. 9. 3. Sub-Surface Pathology

D. 9. 3. 1. Congenital deformities

a. **Face or Neck**

Repair is a benefit of MSP except for:

- surgery to revise or remove features which are familial in nature;
- surgery to correct ear abnormalities in patients who are sixteen years of age or over.

- MSP authorization is required, other than recognized craniofacial disorders and cleft lip.

b. **Other Anatomical Areas**

- Normally not a benefit of MSP if surgery is for alteration of appearance only.

D. 9. 3. 2. **Post-Traumatic Deformities**

- Reconstructive procedures are a benefit at the acute stage; within a reasonable period of convalescence; or if part of a pre-planned staged process of repair.
- Repair procedures may include bone revision, tissue shifts and grafts, prosthesis implantation, etc.
- MSP authorization is required for repairs beyond the acute stage.

D. 9. 3. 3. **Deformities resulting from local disease** (such as loss or distortion of bone, muscle, connective tissue, adipose tissue, etc.)

a. **Head or Neck**

- Reconstructive procedures for significant abnormalities are a benefit at the acute stage; during a chronic disease process; within a reasonable period of convalescence, or if part of a planned staged process of repair initiated during one of these periods.
- Repair procedures normally could include tissue grafts, flaps, shifts or cell-assisted lipotransfer, bone revision, prosthesis insertion, etc.
- Face lifts, modified face lifts, brow lifts, etc. are not a benefit of MSP if skin, only, is involved in the procedure. However, a repair such as ptosis repair or face lift with underlying slings is a benefit of MSP if the procedure is to correct significant deformity following stroke, cancer, VIIth nerve palsy, etc.
- MSP authorization is required for repair of deformities resulting from local disease.

b. **Other Anatomical Areas**

- Not a benefit of MSP if the correction is for appearance, only.

D. 9. 3. 4. **Breast Surgery**

a. Augmentation Mammoplasty

- This procedure is a benefit of MSP unilaterally or bilaterally for a female patient with breast aplasia.
- It is a MSP benefit unilaterally for a female patient with a severely hypoplastic breast when the other breast is not also hypoplastic.

- A "balancing" augmentation mammoplasty may be allowed on an independent consideration basis for correction of unilateral hypoplasia when performed in association with approved contralateral reduction mammoplasty.
- MSP authorization is required.

b. **Post-Mastectomy Reconstruction**

- Unilateral or bilateral breast reconstruction, including cell-assisted Lipotransfer, is a benefit of MSP when the procedure is subsequent to total or partial mastectomy or prophylactic mastectomy.
- Authorization is not required but the reason for the reconstruction must accompany the claim.

c. **Reduction Mammoplasty**

- Reduction Mammoplasty is a benefit for female patients only, where there is significant associated symptomatology such as intertrigo, neck or back pain or shoulder grooving. Ptosis and/or size are not sufficient grounds for MSP coverage of reduction mammoplasty. Mastopexy is not normally covered by MSP.
- Unilateral reduction mammoplasty may be a benefit of MSP if there is gross disproportion present, or in association with approved unilateral augmentation mammoplasty or post mastectomy reconstruction of the contralateral breast.
- MSP authorization is required.

d. **Male Mastectomy**

- This procedure is a benefit of MSP for gynecomastia.
- MSP authorization is not required.

e. **Accessory breasts or accessory nipples**

- Excision of such accessory tissue is a benefit of MSP.
- The appropriate fee item normally would be from the skin tumour excision listings.
- Authorization is not required.

D. 9. 3. 5. <u>Excision of excess fatty tissue</u>

- This is a benefit of MSP only if there is significant associated symptomatology such as intertrigo, pain or excoriations.
- When performed for alteration of appearance, the removal of redundant skin and fat from the abdomen, extremities, etc. is not a benefit of MSP.

- There must be clinical evidence of substantial hyperplasia of adenomatous breast tissue.
- MSP authorization is required.

D. 9. 4. Gender Reassignment Surgery

Prior approval is required for gender reassignment surgical procedures before the surgery is considered to be a MSP benefit. Approval for surgery requires a medical assessment by qualified medical assessors who have recognized and demonstrable expertise in the treatment of gender dysphoria.

Treatment for gender dysphoria refers to the guidelines provided by the World Professional Association for Transgender Health, Standards of Care.

If MSP has not approved funding for the gender-reassignment surgery, any medical consultation(s), anesthesiology and surgical assistance services related to the surgery, will not be eligible for MSP funding.

D. 9. 5. Complications and Revisions

a. The treatment of acute medical or surgical complications resulting from surgery for alteration of appearance and/or function is a benefit of MSP whether or not the original surgery was covered by MSP. This includes complications resulting from trans-sexual surgery (such as breakdown of the artificial vaginal wall). No authorization is required.

b. Revision of surgery for alteration of appearance, because of undesirable results, is a benefit of MSP only if the original surgery was a benefit and if the revision either is part of a pre-planned staged process or occurs within a reasonable period of convalescence. Correction of the effects on appearance which are due to complications is a benefit of MSP if it is carried out within a reasonable period of convalescence. MSP authorization is required.

D. 10. Out-of-Office Premiums

The out-of-office premium is an additional fee that may be billed for services initiated and rendered within designated time limits. These premiums are applicable to eligible insured medical services provided to MSP beneficiaries and can be billed by both General Practitioners and Specialists.

For complete details, please refer to the Out-of-Office Hours Premiums section of the MSC Payment Schedule.

MEDICAL-LEGAL MATTERS

These fees cannot be correctly interpreted without reference to Preamble Section c, Clause 2.

Setting of Non-MSP Insured Fees - General Considerations

The Non-MSP Insured Fees have been set by the Doctors of BC Tariff Committee in conjunction with Section representatives and in accordance with general policy established by the Board of Directors. Under the arrangement with the MSC, MSP fees have been approved by the MSC.

The recommended values for services when not paid for by the MSP, WorkSafeBC or ICBC are listed under "Non-MSP Insured Fee". The charges for these uninsured services, including A-lettered items, are not to be construed as maximum or minimum charges but only as a general guide for services of average complexity, by which the individual physician dealing with the patient can set a proper and responsible value on the individual services provided:

a. You are in no way obligated, ethically or otherwise, to follow these Non-MSP Insured Fees and you may charge either a higher or lower fee according to your own judgement.
b. No special sanction of any kind is employed nor will be employed by the Association to enforce these Non-MSP Insured Fees, and you are free to exercise your discretion and judgement with respect to any charge made for any service rendered that is not payable by the MSP, WorkSafeBC or ICBC or otherwise specified in the Preamble.
c. If the patient's financial circumstances are unusual, and other doctors have been called in attendance, it is the responsibility of the attending physician to acquaint his/her colleagues of such circumstances. Each doctor concerned in the care of the patient shall give or send to the patient or his/her agent a statement showing his/her own professional services.
d. The fees listed under "MSP and WorkSafeBC Fee" have been accepted by the Medical Services Plan and WorkSafeBC through negotiated agreements as the basis for their Guide to Fees. WorkSafeBC supplies its own reporting and billing forms upon which one is asked to insert the MSP payment number to facilitate payments. MSP is currently processing claims on behalf of WorkSafeBC as an agent. Currently it is not mandatory for physicians to submit WorkSafeBC claims through MSP.

Letter prefix 'A' designates services not paid by the Medical Services Plan.

Physicians are often called upon to prepare reports, opinions and to testify in civil, criminal and administrative matters.

- Civil matters are generally compensated privately by whoever requests the physician's services. Examples of civil cases are those involving motor vehicle accidents, medical malpractice, family disputes, and disability or life insurance claims.

- Criminal prosecution and government administrative matters where evidence is given on behalf of the Crown are compensated by the Attorney General's office, while other government agencies may pay the physician directly.
- The Legal Services Society invariably pays the representative counsel for services provided to qualified persons in civil, criminal and administrative matters, who then pays the physician.

It is important that physicians clarify important issues in writing prior to agreeing to do any medical-legal work, including but not limited to:

- who is responsible for payment;
- the rate;
- payment in the event of short term cancellation;
- payment for waiting time prior to testifying; and
- when payment will be due.

1. EXAMINATIONS, LETTERS, REPORTS AND OPINIONS

a) Reports and opinions fall into two basic divisions:

i) Those given by an attending physician or consultant who has already seen the patient in the course of his/her ordinary professional duties.
ii) Those given by a non-attending physician or consultant who has examined the patient at the request of a lay person and who would not have seen the patient but for this request.

b) In settling on fees in these matters, doctors should consider the time actually spent in:

i) Examination of the patient.
ii) Examination of hospital records, x-rays, etc.
iii) Preparation, dictation and revision of report or opinion.

c) In many cases payments for letters, reports or opinions must be made by the patient himself/herself and not by any third party such as an insurer. If payment is to be received through or from a lawyer, the doctor should obtain a prior undertaking that the lawyer or law firm will be directly responsible for the physician's fee.

2. EVIDENCE IN COURT/HEARINGS FOR CIVIL, CRIMINAL AND ADMINISTRATIVE MATTERS

a) Any expert witness in the Province of BC can be called to testify at an administrative hearing or in court. The witness may receive a subpoena from the requesting party accompanied by a witness fee set by law. Transportation costs may also be reimbursed. Failure of the expert to appear when subpoenaed can result in a contempt charge.

Civil Cases

b) Civil cases are non-criminal cases, for example cases involving motor vehicle accidents, medical malpractice, family disputes, and disability or life insurance claims.

c) Generally when parties request a physician to give evidence in a civil case, they will offer to pay an additional fee for time spent preparing to give evidence and for court attendance. If payment is to be received through or from a lawyer, the physician should obtain a prior confirmation that the lawyer or law firm will personally be responsible for the physician's fee. It would be prudent to also arrange a fee at the same time for a potential court appearance in relation to the report or opinion.

d) Successful parties to a lawsuit are generally entitled to recover from the losing side reasonable costs they incurred in retaining expert witnesses. This is never more than what has actually been paid. The fee may need to be defended before the Court Registrar who will disallow any portion of the expert's fee considered unreasonable in relation to work done or time spent and leave the retaining party to bear the cost of this portion.

Criminal and Government Administrative Cases

e) Physicians may be asked to testify as an expert for the criminal prosecution in a criminal trial or for a government agency or board in an administrative hearing (for example a Provincial Disability Plan claim). In such cases physicians can make a claim for both court attendance and preparation. Scale "B" below reflects the fees and billing guidelines recommended by the Doctors of BC for these services.

f) Legal Services pre-approves the retainer and specifics, such as the fees, number of hours being funded etc for physicians who are testifying on behalf of the defence for an accused in a criminal matter which is being funded by LSS. Physicians may wish to refer to Scale "B" as a reference. Physicians should obtain a copy of the LSS approval and have agreement on the specifics with the accused's counsel prior to accepting the case.

g) Physicians who are testifying on behalf of the defence for an accused in a criminal case which is not being funded by LSS, or for an individual in a government administrative hearing, may choose to charge either the rates at Scale "A" or "B" or whatever rates they can agree to with the accused or his/her counsel.

3. GENERAL

There is a joint committee of doctors and lawyers that reviews periodic problems arising over the responsibility for payment of medical-legal accounts. Please direct any such concerns in writing to the Doctors of BC Physician and External Affairs.

CIVIL MATTERS *(NOT CRIMINAL PROSECUTION OR CRIMINAL DEFENCE)*

Code	Description	Non-MSP Insured Fee ($)
A00070	For filling out an ordinary printed form reporting on a patient's condition or submitting like information in letter-form. This item should not be used for time loss benefit or insurance forms normally covered under A00059, A00060 and A00069	164.00
A00071	A Medico-Legal letter or form is defined as a short factual written communication given to any lay person (e.g., lawyer, insurance representative) in relation to a patient for some purpose primarily unconnected with treatment	345.00
A00072	A Medico-Legal Report is one, which will recite symptoms, history and records and give diagnosis, treatment, results and present condition. This is a factual summary of all the information available on the case. It could also contain prognostic information about when the patient will be able to return to work and might mention whether there will be a permanent disability	1032.00
A00073	A Medico-Legal Opinion will usually include the information contained in the medico-legal report and will differ from it primarily in the field of expert opinion. This may be opinion as to the course of events when these cannot be known for sure. It can include opinion as to long-term consequences and possible complications in the further development of the condition. All the known facts will probably be mentioned, but in addition there will be the extensive exercise of expert knowledge and judgement with respect to those facts with a detailed prognosis	1726.00
A00093	Transfer of patient records	34.55

Notes:

i) This fee is recommended for a simple transfer of records **from a physician to another physician**. Photocopying may be charged in addition.

ii) Other direct costs, such as courier services, may be charged in addition based on the actual cost.

iii) A fee for review of records may be charged in addition if the physician reviews the records for the purpose of selecting current and necessary medical information to be transferred.

iv) Original records must be retained by the transferring physician as required by Law.

CROWN COUNSEL

SCALE "B"
MEDICAL EXPERT WITNESS FEES
CRIMINAL AND OTHER GOVERNMENT MATTERS

The following fees and billing guidelines are recommended when a physician provides expert evidence in a criminal or Government of British Columbia ministry, board or agency matter.

Code	Service	Non-MSP Insured Fee ($)
	Preparation and Court Time (Per Hour):	
A94525	– General Practitioner	233.00
A94526	– Specialist	273.00
	Travel Time (Per Hour):	
A94527	– General Practitioner	133.00
A94528	– Specialist	154.00

NOTES:

i) "General Practitioner", means a Physician who is not a specialist.

ii) "Specialist" means a Physician who is a certificant or fellow of the Royal College of Physicians and Surgeons of Canada.

BILLING GUIDELINES FOR MEDICAL EXPERT WITNESS RETAINED BY THE GOVERNMENT, A GOVERNMENT BOARD OR GOVERNMENT AGENCY

1. **Travel to Court**

   a) Time starts when the Physician leaves home, office or hospital to go to Court.

   b) Time ends when the Physician arrives at the Court or Crown Counsel office or otherwise begins direct work on the case.

   c) If work on the case does not start until the day after travel, then travel time ends upon arrival at the hotel or at 1800 hours, whichever is later.

2. **Return Travel**

   a) Time starts at the end of Court proceedings or when no other services (e.g., discussions) are required from the physician.

   b) Time ends when the Physician arrives at home, office, hospital, etc.

c) If the Physician is unable to return home the same day, then travel time ends at 1800 hours on the day that work on the case is finished and restarts the next morning at 0900 hours or upon leaving the hotel, whichever is earlier.

d) If the Court schedule and travel arrangements are such that a physician is required to stay away from home over a weekend, then travel time up to 8 hours per day is billed for the weekend days, to the extent that the physician’s time is not occupied with the case work over the weekend.

3. **Court Time**

a) Court time includes all relevant professional activities, including preparation, interviews, discussions, testimony, listening to other testimony and associated waiting time.

b) Court time starts when the physician arrives at the Court or Crown Counsel office or at 0900 hours if he/she had already traveled away from home on a prior day.

c) Court time ends when Court ends or no other services are required, but continues to 1800 hours if further services are required next day, if the Physician has traveled out of town.

d) Time for preparation work prior to arrival or during evenings or weekends is billed in addition to the above and for the actual time spent.

e) If lunch is primarily social, then a one-hour lunch break is not billable, but time for a working lunch is billable.

f) In the event that out of town travel is necessary, in respect of single day trips only, and where the combination of Court/preparation and travel are less than 8 billing hours, the balance up to 8 hours shall be billed as Court/preparation time.

g) Where physicians are testifying in their home community, Court time shall be compensated at a minimum of 4 hours for the morning session and 4 hours for the afternoon session. Any Court time spent in excess of 4 hours in either the morning or afternoon session shall be paid at the appropriate fee.

4. **Cancellations**

a) A cancellation is defined as a situation where the physician is informed that a previously arranged Court appearance is no longer required or is to be rescheduled for any reason including testimony not needed, Court scheduling changes and adjournments.

b) Where the physician is given more than 6 working days notice of cancellation of a Court appearance, no compensation is payable.

c) Where the cancellation notice is received 6 full working days or less prior to scheduled commencement of travel (as defined in 1.a, the physician will be paid the lesser of:

i) if cancellation occurs with 2 full working days or less notice, 100% of fees otherwise payable if the physician had attended court, for each day or half day scheduled,
ii) if cancellation occurs with more than 2 but with 4 or less full working days notice, 75% of fees otherwise payable if the physician had attended Court, for each day or half day scheduled;
iii) if cancellation occurs with more than 4 but with 6 or less full working days notice, 50% of fees otherwise payable if the physician had attended Court, for each day or half day scheduled.

Fees otherwise payable includes travel time and court time and is in addition to preparation time already incurred. ***Working days*** does not include Saturday, Sunday or Statutory holidays.

5. **Expenses**

Expenses related to expert witness billing shall be in accordance with the rates established for “Group 2” (public service) employees. Such expenses may be claimed where the physician is required to attend court at a location more than 32 km from his/her residence or where unusual road conditions exist which, for example, requires travel by ferry.

6. **General**

a) In cases of uncertainty as to interpretation of the above guidelines, or where unusual circumstances or large amounts of time are expected to be required (especially regarding preparation activities), the Physician and Crown Counsel should clarify their expectations as early as possible.

b) In the case of accused persons who are assessed by the Forensic Psychiatric Services Commission, activities conducted by the psychiatrist as part of their employment by the Commission are not billable to Crown Counsel. Specifically, preparation of an initial report to Court is provided by the Commission, but subsequent review of such reports, related discussion and other preparatory activities are billable to Crown Counsel.

GENERAL SERVICES

These fees cannot be correctly interpreted without reference to the Preamble unless otherwise specified. No additional charge for the visit should be made unless an extra examination of a distinct problem is rendered.

Letter prefix 'A' designates services not payable by MSP or WSBC.
Letter prefix 'B' designates services that are included in visit fee. For an isolated service, see Preamble Clause D. 8.
Letter prefix 'Y' designates office or hospital visit on same day extra to procedure fee.

ROADSAFETYBC FORM FEES

The RoadSafetyBC requires that patients with certain medical conditions be examined periodically in order to facilitate renewal of their driver's license. These services are not insured by MSP and physicians are entitled to set their own fee for these services and charge patients privately.

The RoadSafetyBC will pay a set fee for the completion of certain driver's medical examination reports. Forms will specify if the RoadSafetyBC will reimburse or if the patient or their employer are to be billed the entire fee. Forms reimbursed by the RoadSafetyBC are paid through MSP Teleplan. While MSP Teleplan is acting as the processor for the RoadSafetyBC, it is the RoadSafetyBC who is paying for the service.

For those forms reimbursed by the RoadSafetyBC, physicians have three billing options:

i) Bill RoadSafetyBC through MSP Teleplan the RoadSafetyBC Fee Amount.
ii) Bill RoadSafetyBC through MSP Teleplan and balance bill the patient the difference between the RoadSafetyBC Fee Amount and the total fee as determined by the physician. The Non-MSP Insured Fee Amount is only a guideline and physicians may charge either a higher or lower fee according to their own judgment.
iii) Bill the entire amount to the patient privately.

Patients will not be reimbursed by RoadSafetyBC for any charges they incur.

EMERGENCY CARE

1. 00081 is to be used for the evaluation, diagnosis and treatment of a critically ill patient who requires constant bedside care by the physician.
2. A critically ill patient may be defined as a patient with an immediately life threatening illness/injury associated with any of the following conditions (which are given as examples):
   a) Cardiac Arrest,
   b) Multiple Trauma,
   c) Acute Respiratory Failure,
   d) Coma,
   e) Shock,
   f) Cardiac Arrhythmia with hemodynamic compromise,
   g) Hypothermia, and
   h) Other immediate life threatening situations.
3. 00081 includes the following procedure items where required: defibrillation, cardioversion, peripheral intravenous lines, arterial blood gases, neogastric tubes with or without lavage and urinary catheters, intubation (as part of a cardiac arrest).
4. 00081 includes the time required for the use and monitoring by the physicians of pharmacologic agents such as inotropic or thrombolytic drugs.

	5. All other procedural fee items not specifically listed in #3 above are not included in 00081. Below are listed some of the procedures that are not included and which, therefore, may be billed in addition when rendered. (NOTE: The time required for these procedures should be noted with the claim and deducted from the 00081 time): a) Endotracheal Intubation – as a separate entity, i.e., not part of a cardiac arrest or followed by an anesthetic, b) Cricothyroidotomy, c) Venous Cutdown, d) Arterial Catheter, e) Diagnostic Peritoneal Lavage, f) Chest Tube Insertion, and g) Pacemaker Insertion.			
	6. 00081 is not intended for standby time such as waiting for laboratory results, or simple monitoring of the patient.			
	7. When a consultation fee is charged in addition to 00081, for billing purposes the consultation fee shall constitute the first half hour of the time spent with the patient.			
	8. When surgery is performed by the same doctor after prolonged emergency care, the surgical fee may be charged in addition to the appropriate emergency care fee.			
	9. When a second or third physician becomes involved in the emergency care of an acutely ill patient requiring continuous bedside care, item 00081 is applicable just as it is to the attending physician who is first on the scene.

OUT-OF-OFFICE HOURS PREMIUMS
(Applicable to General Practitioners and Specialists)

EXPLANATORY NOTES

a) The out-of-office hour premium listings apply only to those services initiated and rendered within the designated time limits. They apply to visits to a physician's office only if the office is officially closed during the designated time period.

b) Call-out charges apply only when the physician is specially called to render emergency or non-elective services and only when the physician must travel from one location to another to attend the patient(s).

c) The call-out charge applies only to the first patient examined or treated on any one special visit. A call-out charge is applicable to each special call-out whether or not a previous call-out charge has been billed for the same patient on the same day.

   For example, a physician may provide a consultation during out-of-office hours for which a call-out charge is applicable. The physician may then perform an operation on the same patient at a different time during out-of-office hours. If the physician was specially called, on separate occasions, to render both services and was required to travel from one location to another for both services, it would be appropriate to bill a call-out charge for the consultation and a call-out charge for the operation in addition to the regular fees for the services and any applicable continuing care operative and non-operative surcharges.

d) Within the foregoing guidelines, the call-out charges also are applicable to the attending surgeon post-operatively even though the visit itself may not be chargeable as described in Preamble D. 5. 1.

e) The operative continuing care surcharge applies also to surgical assistant fees.

f) The "home visit" (00103) and "emergency visit when specially called" listings (00111, 00112, 00115, 00205, 02005, 02505, 00305, 00405, 03005, 04005, 00505, 00605, 01705, 06005, 07005, 07805, 08005, 30005, 31005, 32005, 33005, 33205, 33305, 33405, 33505, 33605, 33705, 77005, 79005 and 94005) are not payable in addition to the out-of-office hours premium. Neither are emergency visits payable to the attending surgeon (or his/her substitute) within 10 post-operative days from a surgical procedure (except "operation only" procedures).

g) The non-operative continuing care surcharge applies to delivery only (not standby time or first stage of labour). State in the note field the continuous time spent with the patient during second or third stage of labour only.

h) These items are not applicable to full- or part-time emergency physicians, or physicians designated by a hospital emergency room as the on duty/on site physician. Those physicians are referred to the Emergency Medicine section of this Guide.

i) Call-out charges and continuing care surcharges are also applicable when called from home to provide labour epidural insertions, or to provide subsequent resuscitative care under fee code 01088.

j) The non-operative continuing care surcharge is payable to general practitioners, medical specialists and surgical specialists when non-operative services are provided. Continuing care surcharges are payable to radiologists and nuclear medicine physicians only when the primary service to which the continuing care surcharges apply are payable by the Medical Services Plan on a fee-for-service basis.

k) The following applies in the event that a consultation or visit is followed by surgery: 1) the non-operative continuing care surcharge applies to the consultation or visit, and 2) the operative continuing care surcharge applies to the surgery.

l) Physicians providing anesthetic services may be eligible for continuing care surcharges even if the service is initiated before 1800 hours. That portion of anesthetic services rendered within the designated times are eligible for continuing care surcharges if they fulfil the requirements described in the Anesthetic Continuing Care Surcharges section.

	CONTINUING CARE SURCHARGES		
a)	**NON-OPERATIVE**		
	Applicable when an out-of-office hours call-out charge is applicable or when specially called for an emergency. Timing begins after the first 30 minutes for consultations, visits or anesthetic evaluations. Payment is based on one half hour of care or major portion thereof. Therefore, the first surcharge is billable after 45 minutes of continuous care.		
	Applicable also, without the 30 minute time lapse and with timing continuing, to immediately subsequent patients seen on the same call-out as an emergency;		
	Surcharges do not apply to time spent standing by and are based on the amount of time providing care, regardless of the number of patients attended or services provided.		
01205	Evening (service rendered between 1800 hours and 2300 hours) - per half hour or major part thereof	94.50	55.09
01206	Night (service rendered between 2300 hours and 0800 hours) - per half hour or major part thereof	144.00	75.32
01207	Saturday, Sunday or Statutory Holiday (Service rendered between 0800 hours and 2300 hours) - per half hour or major part thereof	103.00	55.09

NOTES:

i) Claim must state start and end times.

ii) Where timing is continuous, submit an account for each patient, indicating **"CCFPP"** (continuing care from previous patient).

iii) Not applicable to full- or part-time emergency physicians or to on-site practitioners providing coverage in drop-in emergency clinics or hospital emergency rooms.

		Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)
b)	**OPERATIVE**		
	Applicable only to emergency surgery or to elective surgery which, because of intervening emergency surgery, commences within the designated times. Applicable only to surgical procedure(s) requiring general, spinal or epidural anesthesia and/or requiring at least 45 minutes of surgical time.		
01210	Evening (1800 hours to 2300 hours) – 37.78% of surgical (or assistant) fee		
	– minimum charge	102.00	53.89
	– maximum charge	783.00	371.78

Code	Description	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)
01211	Night (2300 hours to 0800 hours) – 60.57% of surgical (or assistant) fee		
	– minimum charge	142.00	75.69
	– maximum charge	1097.00	522.08
01212	Saturday, Sunday or Statutory Holiday (Service rendered between 0800 hours and 2300 hours) – 37.78% of surgical (or assistant) fee		
	– minimum charge	102.00	53.89
	– maximum charge	783.00	371.78

NOTES:

i) When emergency surgery commences within evening time period (1800–2300 hours) and continues into nighttime period (2300–0800 hours), the appropriate item for billing is determined by the period in which the major portion of the surgical time is spent.

ii) When emergency surgery commences prior to 1800 hours, even if the major portion of the surgical time is after 1800 hours, surgical surcharges are not applicable.

iii) If emergency surgery commences prior to 0800 hours and continues after 0800 hours, surcharges are applicable to the entire surgical time.

iv) State time surgery commenced.

c) These items are not applicable to full or part time emergency practitioners, designated by a hospital emergency room as the on duty/on site physician and billing under the Emergency Medicine Section of the Payment Schedule.

ANESTHESIOLOGY

Anesthesiology services are eligible for continuing care surcharges when an out-of-office hours call-out charge is applicable or when specially called for an emergency. Timing begins after the first 30 minutes for consultations, visits or anesthesiology evaluations. Payment is based on one half hour of care or major portion thereof. Therefore, the first surcharge is payable after 45 minutes of continuous care when a call-out charge is applicable. If a call-out charge is not applicable then the first continuing care surcharge is payable after 15 minutes of continuous care as long as the anesthetic service is rendered within the designated times.

ii) Where timing is continuous submit an account for each patient, indicating "CCFPP" (continuing care from previous patient).
iii) Not applicable to full- or part-time emergency physicians or to on-site practitioners providing coverage in drop-in emergency clinics or hospital emergency rooms.
iv) When emergency services commence prior to 1800 hours (weekday) and extend beyond 1800 hours, anesthetic surcharges are applicable to the time after 1800 hours. Timing begins at 1800 hours and surcharge payments are based on one half hour of care or major portion thereof. Therefore, the 01215 surcharges in these cases is payable after 15 minutes of continuous care (i.e. 1815 hours).

(notes continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

v) When emergency anesthetic services commence prior to 0800 hours and continue after 0800 hours, anesthetic surcharges are only applicable to the time prior to 0800 hours.

vi) Anesthetic surcharges are applicable to services associated with elective surgery which, because of intervening emergency surgery, extends into or commences within the designated times.

DIAGNOSTIC AND SELECTED THERAPEUTIC PROCEDURES

These fees cannot be correctly interpreted without reference to the Preamble.
Letter prefix **'Y'** indicates office or hospital visits on same day are additional to the procedure fee.

NOTE: The word "extra" implies that the second procedure at the same sitting is charged at 100% of listed fee. The third and subsequent different procedure at the same sitting is charged at 50% of listed fee.

P10905	Cerebral intra-arterial thrombolysis	3037.00	5	1273.79

(see notes on next page)

Code	Description	Non-MSP Insured Fee ($)	Anes. Lev.	MSP & WSBC Fee ($)
	Notes: Payable only once, regardless of number of arterial territories treated Includes all diagnostic and superselective angiograms performed during procedure and immediate post procedure CT scans An interventional radiology consultation is not payable unless the procedure is cancelled.			
10906	Image-guided percutaneous vertebroplasty – first level	886.00	4	354.35
10907	– each additional level (to a maximum of 3)	208.00	4	81.78
	NOTES: i) Payable only when rendered on in-patient or day-care basis in acute care facility. ii) Payable for osteoporotic fractures only if conservative therapy shows no or minimal improvement after 4-6 weeks and pain remains incapacitating. iii) Includes all associated diagnostic imaging, including post procedural CT scan necessary to complete the procedure iv) Interventional Radiology consultation not payable unless the procedure is cancelled.			
10908	Percutaneous image-guided tumor ablation – first lesion	1332.00	3	514.69
	NOTES: i) Payable only for non-resectable liver, kidney, lung tumors; colorectal metastases and osteoid osteoma. ii) Payable to a maximum of 3 lesions treated at the same session – 100% for first lesion, 75% for second lesion and 25% for third lesion. iii) Includes all CT and ultrasound guidance necessary to complete the procedure. iv) Paid at 50% if repeated within 30 days. v) Interventional Radiology consultation is payable			
P10909	Percutaneous intravascular/intracorporeal medical device/foreign body removal	886.00	3	381.62
	(see notes on next page)			

Code	Description	Non-MSP Insured Fee ($)	Anes. Lev.	MSP & WSBC Fee ($)
	NOTES: i) All angiography, angioplasty and/or intravascular stenting included. ii) If a second or third foreign body/medical device is removed, payable at 50% each to a total maximum of three. iii) An interventional radiology consultation is not payable unless the procedure is cancelled.			
P10911	Selective salpingography/fallopian tube recanalization (FTR)	886.00	2	381.62
	NOTES: i) Hysterosalpingogram not payable in conjunction with the procedure. ii) Paid at 2/3 of the fee if unilateral. iii) FTR is not an insured benefit when it is used to correct scarring of the fallopian tubes after reversal of tubal ligation. iv) Any imaging related to the procedure is inclusive. v) An interventional radiology consultation is not payable unless the procedure is cancelled.			
P10912	Transjugular liver/renal biopsy	886.00	2	381.62
	NOTES: i) Ultrasound guidance, venous puncture, central access catheter are included in the fee. ii) Payable only for uncorrectable coagulopathy. iii) The first biopsy is payable at 100%, the second and third at 50% up to a maximum of three per patient per day. iv) If repeated within 6 months, payable at 50%. v) An interventional radiology consultation is not payable unless the procedure is cancelled.			

DIAGNOSTIC PROCEDURES UTILIZING RADIOLOGICAL EQUIPMENT

The following fees are separate from the fees for the radiological part of this examination and should be charged by the attending physician or by the radiologist who performs the procedure, e.g., instrumentation or injection on contrast material.

iii) T00995, ST00997 and T00998 are payable once per day, regardless of the number of embolizations or catheterizations performed, or balloons inserted.

iv) T00995 and T00998 include:

a) Diagnostic angiograms done during the procedure.

b) Angiograms performed as a separate procedure before or after the embolization are billable.

c) Physicians may bill under miscellaneous fee code 00999 for each angiogram when done as part of an aborted embolization procedure. Each separate vessel injected will be considered a separate angiogram. Payment will be made at 100% for the first angiogram and 50% for subsequent angiograms, to a maximum of $1,700. Claims must be accompanied by written details of vessels injected.

d) Repeat procedures performed by the same physician and done within 30 days of the original procedure will be paid at 75% of the original fee.

v) Includes 10913 if performed on same day as T00995, ST00997 or T00998.

GENERAL PRACTICE

These fees cannot be correctly interpreted without reference to the Preamble.

NOTE: COSMETIC SURGERY - Physicians should be familiar with Guidelines for Cosmetic Surgery in the Preamble prior to referring patients for surgery for alteration of appearance. Where it is clear at the time of referral that the proposed surgery for alteration of appearance would not qualify for coverage under MSP, the consultation also would not be covered.

NOTE: DAILY VOLUME PAYMENT RULES APPLYING TO DESIGNATED OFFICE CODES

i) The codes to which these rules apply are as follows:

Office Visits:	12100, 00100, 15300, 16100, 17100, 18100
Office Counseling:	12120, 00120, 15320, 16120, 17120, 18120
Office Complete Examinations:	12101, 00101, 15301, 16101, 17101, 18101

ii) The total of all billings under the codes listed in i), that are accepted for payment by MSP will be calculated for each practitioner for each calendar day. When such a daily total exceeds 50 the practitioner's payment on these codes for that day will be discounted. Moreover, when a daily total exceeds 65, a further payment discount will be made.

Daily Ranges (for an individual practitioner for any single calendar day)	Discount Rate	Payment Rate
0 to 50	0%	100%
51 to 65	50%	50%
66 and greater	100%	0%

iii) Payment discounts will not be applied to services rendered in communities that are/were receiving NIA premiums as of December 15, 2002.

iv) Payment discounts will not be applied to services designated by the physician as being the responsibility of ICBC (designate by checking the MVA indicator on the claim), or services that are the responsibility of WorkSafe BC.

v) Services will be assessed and payment/discounts will be applied to services in the order in which they are received and accepted for payment by MSP.

BILLING FOR IN-OFFICE AND OUT-OF-OFFICE VISITS

The following definitions must be adhered to when preparing MSP billings for consultation, complete examination, office visit and individual counseling services (both in and out of office listing).

IN-OFFICE FEE ITEMS: 12110, 00110**,** 15310, 16110, 17110, 18110, 12100, 00100, 15300, 16100, 17100, 18100, 12101, 00101, 15301, 16101, 17101, 18101, 12120, 00120, 15320, 16120, 17120, and 18120 apply to consultation, visit, complete examination and counseling services provided in offices, clinics, outpatient areas of hospitals, diagnostic treatment centers and similar locations.

OUT-OF-OFFICE FEE ITEMS: 12210, 13210, 15210, 16210, 17210, 18210, 12200, 13200, 15200, 16200, 17200, 18200, 12201, 13201, 15201, 16201, 17201, 18201, 12220, 13220, 15220, 16220, 17220, and 18220 apply to consultation, visit, complete examination and counseling services provided in either a patient's home, at the scene of an illness or accident, in a hospital in-patient area, palliative care facility, long term care institution or in a hospital emergency department, unless the circumstance of the service is specifically covered by the definition of either fee item 00103, 00108, 13008, 00109, 00127, 00128, 13028, 00111, 00112, 00114, 00115, 00113, 00105, 00123, 13228, or one of the 01800 series.

In the latter case, the relevant item from that list applies instead of the out-of-office item.

WorkSafeBC and ICBC Services: In cases where a visit or procedure was occasioned by more than one condition, the dominant purpose must be related to an MVA or WorkSafeBC issue to code it as such. If medically necessary, an assessment of an unrelated condition can also be billed to MSP by General Practitioners.

CONSULTATIONS

GP Consultations apply when a medical practitioner (GP or Specialist), or a health care practitioner (midwife, for obstetrical or neonatal related consultations; nurse practitioner; oral/dental surgeon, for diseases of mastication), in the light of his/her professional knowledge of the patient and because of the complexity, obscurity or seriousness of the case, requests the opinion of a general practitioner competent to give advice in this field. A consultation must not be claimed unless it was specifically requested by the attending practitioner. The service consists of the initial services of GP consultant, including a history and physical examination, review of x-rays and laboratory findings, necessary to enable him/her to prepare and render a written report, including his/her findings, opinions and recommendations, to the referring practitioner. Consultations will not apply if the referred patient has been attended by the consulting general practitioner or another general practitioner in the same group during the preceding six months.

NOTES:

i) This Item applies to consultations on in-hospital patients of an acute or extended care *(or when the patient is in the ER with a complex problem as described below and a decision has been made to admit),* who are referred to a general practitioner by a certified specialist for advice about and/or the continuing care of complex problems for which the management is complicated and requires extra consideration. Examples of such problems include *(but are not restricted to)* the assessment of terminal illness, the planning of activation/rehabilitation programs and the management of patients with AIDS.

ii) Item 00116 is not applicable to the transfer of care in uncomplicated cases. It also will not apply if the referred patient has been attended by the consulting general practitioner or another general practitioner in the same group during the preceding six months.

COMPLETE EXAMINATIONS

For any condition seen requiring a complete physical examination and detailed history (to include tonometry and biomicroscopy when performed).

(see notes on next page)

NOTES:

i) A complete physical examination shall include a complete detailed history and physical examination of all parts and systems with special attention to local examination where clinically indicated, adequate recording of findings and, if necessary, discussion with the patient. The above should include complaints, history of present and past illness, family history, personal history, functional inquiry, physical examination, differential diagnosis and provisional diagnosis.

ii) Routine or periodic physical examination (check-up) is not a benefit under MSP. This includes any associated diagnostic or laboratory procedures unless significant pathology is found. Advise the diagnostic or approved laboratory facility of patient's responsibility for payment.

iii) Complete examination fee codes are not to be charged for in-hospital admission examinations. Fee code 00109 or 13109 may apply in this circumstance. See Preamble and listing restrictions.

GENERAL PRACTICE GROUP MEDICAL VISIT

A Group Medical Visit provides 1:1 patient care in a group setting. Group Medical Visits are an effective way of leveraging existing resources; simultaneously improving quality of care and health outcomes, increasing patient access to care and reducing costs. Group Medical Visits can offer patients an additional health care choice, provide them support from other patients and improve the patient-physician interaction. Physicians can also benefit by reducing the need to repeat the same information many times and free up time for other patients. Appropriate patient privacy is always maintained and typically these benefits result in improved satisfaction for both patients and physicians. The Group Medical Visit is not appropriate for advice relating to a single patient. It applies only when all members of the group are receiving medically required treatment (i.e. each member of the group is a patient). The GP Group Medical Visits are not intended for activities related to attempting to persuade a patient to alter diet or other lifestyle behavioural patterns other than in the context of the individual medical condition.

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

NOTES:

i) This fee may be claimed for advice by telephone, fax or in written form about a patient in community care in response to an enquiry initiated by an allied health care worker specifically assigned to the care of the patient.

ii) Community Care comprises Residential, Intermediate and Extended care and includes patients receiving Home Nursing care, Home support or Palliative care at home.

iii) Allied health care workers are defined as: home care coordinators, nurses, (registered, licensed practical, public health, and psychiatric), psychologists, mental health workers, physiotherapists, occupational therapists, respiratory therapists, social workers, ambulance paramedics, and pharmacists (including completion of faxed medication review with orders, up to twice per calendar year, but not for simple prescription renewal).

iv) Claims should be submitted under the personal health number of the patient and should indicate the time of day the request for advice was received.

v) Dates of services under this item should be documented in the patient's record together with the name and position of the enquiring allied health care worker and a brief notation of the advice given. Alternatively the original of a fax or a copy of written advice will suffice to document these services.

vi) This fee may not be claimed in addition to visits or other services provided on the same day by the same physician for the same patient.

vii) This fee may be billed to a maximum of one per patient per physician per day.

viii) This fee may not be claimed for advice in response to enquiries from a patient or their family.

GPSC INITIATED LISTINGS

Introduction:

The following incentive payments are available to B.C.'s eligible family physicians. The purpose of the incentive payments is to improve patient care. GPSC retains the right to modify or change fees.

Unless otherwise identified in the individual fee description, physicians are eligible to participate in the incentive program if they are:

1. A general practitioner who has a valid B.C. MSP practitioner number;
2. Currently in general practice in BC as a full service family physician;
3. The most responsible general practitioner for the majority of the patient's longitudinal general practice care; and
4. Practitioners who have billed any specialty consultation fee in the previous 12 months are not eligible.

Additional detailed eligibility requirements are identified in each section.

GPSC defines a "Full Service Family Physician" (FSFP) as the FP who provides continuous comprehensive care to his/her patients and takes responsibility for the coordination of care needs for these patients. It is not about any specific set of services being provided by a specific individual; however, if the FP does not provide a particular service needed at any given time (e.g. Obstetrics) the FSFP will coordinate the referral to a colleague who is able to provide that service in a shared care arrangement with the FSFP until such time as that particular service is no longer required.

(continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

For the purposes of its incentives, GPSC defines Physicians working on Alternative Payment Program (APP) as those working under Health Authority paid APP contracts. Agreements to pool FFS billings and pay out physicians in a mutually acceptable way (e.g. per day, per shift, per hour, etc.) are not considered APP by GPSC. If services supported and paid through GPSC incentives are already included in a sessional, salary or service contract then they are not billable in addition.

For the purpose of its incentives, GPSC defines a General Practitioner (GP) with specialty training as: "A GP who has specialty training and who provides services in that specialty area through a health authority supported or approved program".

For the purposes of its incentives, when referring to Allied Care Providers, GPSC includes trained professionals with a scope of practice that allows the provision of medical and medically related services to patients. Examples include but are not limited to: Specialist Physicians; GPs with Specialty Training; Nurses; Nurse Practitioners; Mental Health Workers; Psychologists; Clinical Counsellors; School Counsellors; Social Workers; Registered Dieticians; Physiotherapists; Occupational Therapists; and Pharmacists, etc.

Expanded Full Service Family Practice Condition-based Payments

The GPSC Condition-based Payments compensate for the additional work, beyond the office visit, of providing guideline-informed care for the eligible condition(s) to the patient over a full year. The goal is to improve provision of clinically appropriate care that considers both the patient's values and the impact of comorbidities. To confirm an ongoing doctor-patient relationship, there must be at least 2 visit fees (office; prenatal; home; long-term care; only one of which can be a GPSC Telephone Visit (G14076, G14079) or Group Medical Visit (13763 – 13781) billed on each qualifying patient in the 12 months prior to billing the CDM incentive. **Visits provided by a locum for the MRP GP are included; however, an electronic note indicating this must be submitted with the claim.**

Patients in long-term care facilities are eligible. Clinical judgment must be used to determine the appropriateness of following clinical practice guidelines in all patients, particularly those with dementia or very limited life expectancy. Documentation of the provision of guideline-informed care for the specific condition is required in the medical record. Although use of the GPAC Chronic Care flow sheets is not mandatory, they are a useful tool for tracking care provided to patients over time. **Condition-based payments are no longer payable once G14063, the Palliative Planning Incentive has been billed and paid as patient has been changed from active management of chronic disease to palliative management.**

Patient self-management can be defined as the decisions and behaviors that patients with chronic illness engage in that affect their health. Self-management support is the help given to patients with chronic conditions that enables them to manage their health on a day to day basis. An important part of this support is the provision of tools by the family physician that can enable patients to make appropriate choices and sustain healthy behaviors. There are a variety of tools publically available (e.g. health diaries/passports, etc.) to help build the skills and confidence patients need to improve management of their chronic conditions and potentially improve outcomes. Documentation in the patient chart of the provision of patient self-management supports as part of the patient's chronic disease management is expected.

When a new GP assumes the practice of another GP who has been providing guideline-informed care to patients with eligible chronic conditions, the CDM fee is billable on its anniversary date provided the new GP has continued to provide guideline-informed care for these patient(s). To demonstrate continuity, if some of the required visits have been provided by the previous GP, an electronic note indicating continuity of care over the full 12 months is required at the time of the initial submission of the CDM fee by the new GP.

		Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)
	This fee is billable when the patient's condition justifies urgent conference with a specialist or GP with specialty training, for the development and implementation of a care plan within the next 24 hours to keep the patient stable in their current environment.		
	This fee is not restricted by diagnosis or location of the patient, but by the urgency of the need for care.		
G14018	GP Urgent Telephone Conference with a Specialist Fee: Conferencing on an urgent basis (within 2 hours of request for a telephone conference) with a specialist or GP with specialty training by telephone followed by the creation, documentation, and implementation of a clinical action plan for the care of patients with acute needs, i.e. requiring attention within the next 24 hours and communication of that plan to the patient or patient's representative...	88.00	40.00

NOTES:

i) Payable to the GP who initiates a two-way telephone communication (including other forms of electronic verbal communication) with a specialist or GP with specialty training regarding the urgent assessment and management of a patient but without the responding physician seeing the patient.

ii) A GP with specialty training is defined as a GP who:
   a) Provides specialist services in a Health Authority setting and is acknowledged by the Health Authority as acting in a specialist capacity and providing specialist services;
   b) Has not billed another GPSC fee item on the patient in the previous 18 months; Telephone advice must be related to the field in which the GP has received specialty training.

iii) Conversation must take place within two hours of the GP's request and must be physician to physician. Not payable for written communication (i.e. fax, letter, e-mail).

GP Telephone/E-mail follow-up Management Fee
In order to encourage non-face-to-face communication with patients covered by some of the GPSC incentives, patients covered by one or more of the planning related incentives are eligible for five telephone/e-mail services per calendar year following the successful billing of G14033, G14043, G14053, G14063 or G14075 within the previous 18 months.

Code	Description	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)
G14079	GP Telephone/Email Management Fee......................	33.00	15.00

This fee is payable for two-way communication with eligible patients, or the patient's medical representative, via telephone or email by the GP who has billed and been paid for at least one of the following GPSC incentives:
- Complex Care Planning Fee (G14033)
- Mental Health Planning Fee (G14043)
- Annual Chronic Care Bonus for COPD (G14053)
- Palliative Care Planning Fee (G14063)
- Attachment Complex Care Management Fee (G14075)

This fee is billable for medical management of the conditions covered under the initial planning/Chronic Care fee. This fee is not to be billed for simple appointment reminders or referral notification.
NOTES:
i) Payable to a maximum of 5 times per patient per calendar year following the successful billing of G14033, G14043, G14053, G14063 or G14075 within the previous 18 months.

(notes continued on next page)

		Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

ii) Telephone/Email Management requires two-way communication between the patient or the patient's medical representative and physician or medical office staff for the purpose of medical management of the relevant chronic condition(s); it is not payable for simple notification of office or laboratory appointments or of referrals.
iii) Payable only to the physician paid for the G14033, G14043, G14053, G14063 or G14075 unless that physician has agreed to share care with another delegated physician. To facilitate payment, a note record should be submitted by the delegated physician.
iv) G14077 or G14016 payable on same day for same patient if all criteria met. Time spent on telephone with patient under this fee does not count toward the time requirement for G14077 or G14016.
v) Not payable on the same calendar day as a visit or service fee by same physician for same patient with the exception of G14077 or G14016.
vi) Not payable on same day for same patient as G14076 GP Attachment patient Telephone Management Fee.

Chart entry must record the name of the person who communicated with the patient or patient's medical representative, as well as capture the elements of care discussed.

GP – Advice to Nurse Practitioner Fee

The intent of this fee is to support collaboration between nurse practitioners and community family physicians. This fee is billable when providing advice by telephone or in person to a Nurse Practitioner who is an independent practitioner providing care to patients under his/her MRP care. This fee is not billable when the patient is attached to a GP.

xiii) Not payable to physicians who are employed by or who are under contract to a facility or health authority, or who are working under salary, service contract or sessional arrangements and who would otherwise have provided the advice as a requirement of their employment.

Complex Care Fees

The Complex Care Management Fee was developed to compensate GPs for the management of complex patients residing in the community who have documented confirmed diagnoses of 2 chronic conditions from at least 2 of the 8 categories listed below. Community patients are those residing in their home or in assisted living. Patients in acute or long-term care facilities are not eligible.

Having co-morbidities does not necessarily make a patient complex and so to be eligible for the Complex Care Management Fee, the individual patient co-morbidities should be of sufficient severity and complexity to cause interference in activities of daily living and warrant the development of a management plan.

These items are payable only to the family physician who commits to providing the majority of the patient's longitudinal comprehensive general practice care for the ensuing calendar year.

Eligible Complex Care Condition Categories:

1) Diabetes mellitus (type 1 and 2)
2) Chronic Kidney Disease
3) Heart failure
4) Chronic respiratory condition (asthma, emphysema, chronic bronchitis, bronchiectasis, Pulmonary Fibrosis, Fibrosing Alveolitis, Cystic Fibrosis, etc.)
5) Cerebrovascular disease, excluding acute transient cerebrovascular conditions (e.g. TIA, Migraine)
6) Ischemic heart disease, excluding the acute phase of myocardial infarct

	7) Chronic Neurodegenerative Diseases (Multiple Sclerosis, Amyotrophic Lateral Sclerosis, Parkinson's disease, Alzheimer's disease, brain injury with a permanent neurological deficit, paraplegia or quadriplegia, etc.) 8) Chronic Liver Disease with evidence of hepatic dysfunction. If a patient has more than 2 of the qualifying conditions, the submitted diagnostic code from Table 1 should represent the two conditions creating the most complexity. Successful billing of the Complex Care management Fee (G14033) allows access to 5 Telephone/E-mail follow-up fees (G14079) per calendar year over the following 18 months.		
G14033	GP Annual Complex Care Management Fee..............	693.00	315.00

The Complex Care Management Fee is advance payment for the complex work of caring for patients with two of the eligible conditions. It is payable upon the completion and documentation of a Complex Care Plan which includes Advance Care Planning when appropriate, as described below.

A Complex care plan requires documentation of the following elements in the patient's chart that:

1) There has been a detailed review of the case/chart and of current therapies;
2) There has been a face-to-face visit with the patient, or the patient's medical representative if appropriate, on the same calendar day that the Complex Care Management Fee is billed;
3) Specifies a clinical plan for the care of that patient's chronic diseases covered by the complex care fee;
4) Incorporates the patient's values and personal health goals in the care plan with respect to the chronic diseases covered by the complex care fee;
5) Outlines expected outcomes as a result of this plan, including end-of-life issues (advance care planning) when clinically appropriate;
6) Outlines linkages with other allied care professionals who would be involved in the care, and their expected roles;

(continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

7) Identifies an appropriate time frame for re-evaluation of the plan;
8) Provides confirmation that the care plan has been created jointly and shared with the patient and/or the patient's medical representative and has been communicated verbally or in writing to other involved allied care professionals as appropriate.

The development of the care plan is done jointly with the patient and/or the patient representative as appropriate. The patient and/or their representative/ family should leave the planning process knowing there is a plan for their care and what that plan is.

NOTES:

i) Payable only for patients with documentation of a confirmed diagnosis of two eligible conditions.
ii) Refer to Table 1 for eligible diagnostic categories.
iii) Payable once per calendar year per patient on the date of the complex care planning visit.
iv) Documentation of the Complex Care Plan is required in patient's chart.
v) Minimum required time 30 minutes to review chart and create the care plan jointly with the patient and/or their medical representative. The majority of the time must be face-to-face. Documentation in the patient chart of total time spent in planning (face to face; review) and medical visit is required.
vi) Visit (in office or home) or CPx fee to indicate face-to-face interaction with patient same day must be billed for same date of service. Visit time does not count toward required planning time.
vii) G14016 or G14077 payable on same day for same patient, if all criteria met. Time spent on conferencing does not apply to time requirement for 14033.
viii) G14050, G14051, G14052, G14053 payable on same day for same patient, if all other criteria met.
ix) Not payable once G14063 has been billed and paid as patient has been changed from active management of complex chronic conditions to palliative management.

(notes continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

x) G14015, G14017, G14076 and G14079 not payable on the same day for the same patient.
xi) Maximum daily total of 5 of any combination of G14033 complex care, G14075 Attachment Complex Care or G14074 GP unattached complex/high needs patient attachment fees per physician.
xii) G14075 is not payable in the same calendar year for same patient as G14033.
xiii) Eligible patients must be living at home or in assisted living. Patients in Acute or Long-term Care facilities are not eligible.
xiv) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
xv) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

Diagnostic codes submitted with 14033 billing must be from Table 1. If the patient has multiple co-morbidities, the submitted diagnostic code should represent the two conditions creating the most complexity of care.

Prevention Fees

Code	Description	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)
G14066	Personal Health Risk Assessment	110.00	50.00

This fee is payable to the general practitioner who undertakes a Personal Health Risk Assessment with a patient in one of the designated target populations (obese, smoker, physically inactive, unhealthy eating). The GP is expected to develop a plan that recommends age and sex specific targeted clinical preventative actions of proven benefit, consistent with the Lifetime Prevention Schedule and GPAC Obesity and Cardiovascular Disease – Primary Prevention Guidelines. The Personal Health Risk Assessment requires a face to face visit with the patient or patient's medical representative and the G14066 must be billed in addition to the age appropriate visit fee.

Patient Eligibility:

Eligible patients must be living at home or in assisted living. Patients in acute and long-term care facilities are not eligible.

NOTES:

i) Payable only for patients with one or more of the following risk factors: smoking, unhealthy eating, physical inactivity, medical obesity.

ii) Diagnostic code submitted with 14066 must be one of the following: Smoking (786), Unhealthy Eating (783), physical inactivity (785), Medical Obesity (783).

iii) The discussion with the patient and the resulting preventive plan of action must be documented in the patient's chart.

	Maternity Network Initiative		
G14010	GP Maternity Care Network Initiative Payment		2100.00

Eligibility:

To be eligible to be a member of the network, you must, for the 3-month period up to the payment date:

- Be a general practitioner in active practice in B.C.;
- Have hospital privileges to provide obstetrical care;
- Be associated and registered with a minimum of three other network members (special consideration will be given in those hospital communities with fewer than four doctors providing maternity care). Refer to the Maternity Network Registration Form;
- Cooperate with other members of the network so that one member is always available for deliveries;
- Make patients aware of the members of the network and the support specialists available for complicated cases;
- Accept a reasonable number of referrals of pregnant patients from doctors who do not have hospital privileges to deliver babies (preferred first visit to the doctor planning to deliver the baby is no later than 12 weeks of pregnancy; the referring doctor may, with the agreement of the delivering doctor, provide a portion of the prenatal care);
- Share prenatal records (real or virtual) with other members of the network as practical, with the expectation to work toward utilizing an electronic prenatal record; and
- Each doctor must schedule at least four deliveries in each 6-month period of time (April to September, October to March); and
- The maternity care network is payable for participation in the network activity for the majority of the preceding calendar quarter (50% plus 1 day).

General Practitioner Obstetrical Incentive
Eligibility:
The incentive payments are available to all general practitioners in BC who, in addition to being paid the delivery fee items 14104, 14108 and 14109 for the patient, provide the maternity care and are also responsible, or share responsibility, for providing the patient's general practice medical care.

Locum coverage is considered part of the usual care provided by the host general practitioner.

Practice groups providing on-call patient coverage or access to patient records are considered to be sharing the responsibility of that patient's care and are eligible to bill one bonus for the patient.

General practitioners specializing in general practice or obstetrics who receive referrals from other general practitioners for maternity care are considered to share in the general practice medical care of the patient.

General practitioners who are paid by service contract, sessional, or salary payments are eligible to receive the obstetrical premium payments.

NOTE: Practitioners who have billed any specialty consultation fee in the previous 12 months are not eligible. Emergency room physicians who happen to be on duty and deliver a baby have not shared the general practice maternity care and are not eligible.

Mental Health Planning and Management Fees

G14043 GP Mental Health Planning Fee 220.00 100.00

This fee is payable upon the completion and documentation of a Mental Health Plan for patients resident in the community (home or assisted living). Patients in acute or long-term care facilities are not eligible. Patients must have a confirmed Axis I diagnosis of sufficient severity and acuity to cause interference in activities of daily living and warrant the development of a management plan. This is not intended for patients with self-limited or short lived mental health symptoms (e.g.: situational adjustment reaction, normal grief, life transitions). The Mental Health Planning Fee requires a face-to-face visit with the patient and/or the patient's medical representative.

A Mental Health Plan requires documentation of the following elements in the patient's chart:

1. That there has been a detailed review of the patient's chart/history and current therapies.

The patient's confirmed diagnosis (DSM Axis 1), psychiatric history and current mental state.

(notes continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

2. The use of and results of validated assessment tools. Examples of validated assessment tools include:
   a) PHQ9, Beck Depression Inventory, Ham-D depression scale;
   b) MMSE;
   c) MDQ;
   d) GAD-7;
   e) Suicide Risk Assessment;
   f) Audit (Alcohol Use Disorders Identification Test CAGE; T-ACE).
3. Specifies a clinical plan for the care of that patient's psychiatric illness. Outlines linkages with other allied care professionals and community resources who will be involved in the patient's care, and their expected roles.
4. Identifies an appropriate time frame for follow up and re-evaluation of the patient's progress and Mental Health Plan.
5. Provides confirmation that the Mental Health plan has been communicated verbally or in writing to the patient and/or the patient's Medical Representative, and to other involved allied care professionals as appropriate. The patient and/or their representative/family should leave the planning process knowing there is a plan for their care and what that plan is.

Following the successful billing of the Mental Health Planning Fee, the GP will have access to 4 additional counselling equivalent mental health management fees per calendar year once the 4 MSP counselling fees have been billed.

Successful billing of the Mental Health Planning fee G14043 allows access to 4 mental health management fees in that same calendar year which may be billed once the 4 MSP counselling fees (00120) have been utilised. Successful billing of the Mental Health Planning fee G14043 allows access to 5 Telephone/e-mail follow-up fees (G14079) per calendar year in the subsequent 18 months.

Patient Eligibility:

- Eligible patients must be living at home or in assisted living.
- Patients in Acute and Long-Term Care Facilities are not eligible.

NOTES:

i) Payable only for patients with documentation of a confirmed diagnosis of a DSM Axis 1 condition causing significant interference with activities of daily living. Not intended for patients with self-limited or short lived mental health symptoms.

ii) Payable once per calendar year per patient. Not intended as a routine annual fee unless the severity of the illness requires a comprehensive Mental Health Plan review and revision.

iii) Minimum required face-to-face time 30 minutes.

iv) Visit fee on same day only payable in addition if total time exceeds 39 minutes; counselling fee on same day only payable in addition if total time exceeds 49 minutes.

v) G14043 claim must state start and end times of the total service (planning plus any additional visit/counselling). Start and end times must also be documented in the patient chart.

vi) G14016 or G14077 payable on same day for same patient if all criteria met. Time spent on conferencing does not apply to the 30 minutes time requirement for 14043.

vii) G14015, G14044, G14045, G14046, G14047, G14048, G14033, F14063, G14074, G14075, G14076 and G14079 not payable on the same day for the same patient.

Palliative Care Planning Fee

G14063 Palliative Care Planning fee.. 220.00 100.00

This fee is payable upon the development and documentation of a Palliative Care Plan for patients who in your clinical judgement have reached the palliative stage of a life-limiting disease or illness, with life expectancy of up to 6 months, and who consent to the focus of care being palliative. Examples include end-stage cardiac, respiratory, renal and liver disease, end-stage dementia, degenerative neuromuscular disease, HIV/AIDS or malignancy.

Eligible patients must be living at home or in assisted living. Patients in Acute and Facilities are not eligible.

(continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

The Palliative Care Plan requires documentation of the following in the patient's chart:

1. There has been a detailed review of the case/chart and of current therapies.
2. There has been a face-to-face visit with the patient, or the patient's medical representative if appropriate, on the same calendar day that the Palliative Care Planning Fee is billed.
3. Specifies a clinical plan for the patient's palliative care.
4. Incorporates the patient's values and beliefs in creation of the plan. Name and contact information for substitute decision maker.
5. Completion of a NO CPR FORM.
6. Outlines linkages with other allied care professionals who would be involved in the patient's care, and their expected roles.
7. Provides confirmation that the care plan has been communicated verbally or in writing to the patient and/or the patient's medical representative, and to other involved allied care professionals as appropriate.

It requires a face-to-face visit and assessment of the patient. If the patient is incapable of participating in the assessment to confirm and agree to their being palliative, then the patient's alternate substitute decision maker or legal health representative must be consulted and asked to provide informed consent. The patient and/or their representative/family should leave the planning process knowing there is a plan for their care and what that plan is.

NOTES:

i) Requires documentation of the patient's medical diagnosis, determination that the patient has become palliative, and patient's agreement to no longer seek treatment aimed at cure.

ii) Patient must be eligible for BC Palliative Care Benefits Program (not necessary to have applied for palliative care benefits program).

(notes continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

iii) Payable once per patient once patient deemed to be palliative. Under circumstances when the patient moves communities after the initial palliative care planning fee has been billed, it may be billed by the new GP who is assuming the ongoing palliative care for the patient.
iv) Payable in addition to a visit fee (home or office) billed on the same day.
v) Minimum required time 30 minutes face-to-face in addition to visit time same day.
vi) Claim must state start and end times of the service. Start and end times must also be documented in the patient chart.
vii) G14016 or G14077 payable on same day for same patient if all criteria met.
viii) Not payable if G14033 or G14075 has been paid within 6 months.
ix) Not payable on same day as G14015, G14017, G14043, G14074, G14076 or G14079 GP Telephone/e-mail Management fee.
x) G14050, G14051, G14052, G14053, G14033, G14066, G14075 not payable once Palliative Care Planning fee is billed and paid as patient has been changed from active management of chronic disease and/or complex condition(s) to palliative management.
xi) G14043, G14044, G14045, G14046, G14047, G14048, the GPSC Mental Health Initiative Fees are still payable once G14063 has been billed provided all requirements are met, but are not payable on same day.
xii) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
xiii) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

Successful billing of the Palliative care planning fee (G14063) allows access to 5 Telephone/e-mail follow-up fees (G14079) per calendar year over the following 18 months.

GPSC Incentives for a GP for Me/Attachment Initiative

Overview:

The fee codes for the A GP for Me, (Attachment) Initiative, are billable by family doctors who submit the fee G14070 ‘GP Attachment Participation Code’, to MSP at the beginning of each calendar year. Once successfully submitted, the Attachment Initiative suite of fees may be billed. Submitting G14070 signifies that:

- You are providing full-service family practice services to your patients, and will continue to do so for the duration of that calendar year.

(continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

- You are confirming your doctor-patient relationship with your existing patients through a standardized conversation or 'compact'. Refer to A GP for Me – Frequently Asked Questions (FAQs) for details.

You have contacted your local division of family practice to share your contact information and to indicate your desire to participate in the community-level Attachment Initiative as you are able. Division contacts are available online at www.divisionsbc.ca.

- Refer to A GP for Me – FAQs for more information.

The standardized wording of the Family Physician-Patient 'Compact' states:
As your family doctor, I along with my practice team, agree to:

- Provide you with the best care that I can
- Coordinate any specialty care you may need
- Offer you timely access to care, to the best of my ability
- Maintain an ongoing record of your health
- Keep you updated on any changes to services offered at my clinic
- Communicate with you honestly and openly so we can best address your health care needs

As my patient I ask that you:

- Seek your health care from me and my team whenever possible and, in my absence, through my colleague(s), xxxxxx
- Name me as your family doctor if you have to visit an emergency facility or another provider
- Communicate with me honestly and openly so we can best address your health care needs

Locums working in an "Attachment Participating" family practice are able to bill the fee codes for the "A GP for Me" initiative once they have successfully submitted fee G14071 'GP Locum Attachment Participation Code' once at the beginning of each calendar year.

(continued on next page)

		Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

The Locum and Attachment participating host FP should discuss and mutually agree on which of the GPSC Services, including the Attachment Initiative fees, may be provided and billed by the locum.

However, locums have their own annual allotment of G14076 Attachment Telephone Management Fee. Submitting G14071 signifies that:

- You are providing full-service family practice services to the patients of the host physicians, and will continue to do so for the duration of any locum coverage for a family physician participating in the attachment incentive.
- You have contacted the Divisions of Family Practice central office to share your contact information (AGPforME@doctorsofbc.ca) and to indicate your desire to participate as a locum in the community-level Attachment Initiative as you are able. Refer to A GP for Me – FAQs for more information.

General Notes:
The Attachment incentives are billable for BC residents with valid MSP coverage only; Reciprocal claims for patients with out of province health insurance are excluded. Rural retention premiums do not apply.

G14074	GP Unattached Complex/High Needs Patient Attachment Fee	440.00	200.00

The Unattached Complex/High Needs Patient Attachment fee compensates for the time, intensity and complexity of integrating a new patient with high needs into a family physician's practice: the longer initial meetings, organization of the medical record, and initiation of appropriate Clinical Action Plan(s) as discussed with the patient.

By billing this incentive, the FP commits to providing ongoing longitudinal care for the patient accepted into the FSFP practice.

The fee is paid in addition to the visit fee.
Billing this incentive requires the accepting family physician to collate and review the relevant patient record to date and to meet with the patient to discuss this information and determine what supports will be needed to provide for the patient's ongoing medical needs, taking into account his/her personal goals of care. The patient populations eligible for this intake fee are:

- Frail in Care (CSHA Clinical Frailty Scale score of six or more in residential care – new admissions only with exceptions for extenuating circumstances such as sudden departure from practice of existing MRP FP)
- Frail in the Community (CSHA Clinical Frailty Scale score of six or more)
- Significant Cancer
- Moderate to High Needs Complex Chronic Conditions
- Severe Disability in the community
- Mental Health and/or Substance Use

(continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

- New Mother and Infant(s) (intake can occur at any time during pregnancy up to 18 months of age. Each mother/child(ren) dyad counts as one unit for the purpose of billing this fee code).

When submitting G14074 for a new mother/baby dyad use the mother's PHN and diagnostic code 01N. For all other qualifying patients, use the diagnostic code for the most appropriate medical condition causing the complexity/high needs status.

NOTES:
i) Payable only to Family Physicians who have successfully submitted the GP Attachment Participation Code G14070 or on behalf of Locum Family Physicians who have successfully submitted the GP Locum Attachment Participation Code G14071 on the same or a prior date in the same calendar year.
ii) Payable only for unattached new patients who do not already have a family physician. Requests for attachment may come from: Acute Care: (ER and Admitted); Mental Health-Substance Use workers/Clinics, Home and Community Care; BC Cancer Agency or Regional Centres, Public Health; Colleagues, Local Division. Only payable on patients who are changing family physician if: the patient moves to a different community; the patient moves into a residential care/Long-term care facility where the current family physician will no longer be responsible for the care; or, the patient's family physician leaves practice and another GP takes on one or some of the more complex patients but not the entire practice.
iii) Source of request to attach the patient must be documented in the new patient chart.
iv) Visit fee to indicate face-to-face interaction with patient same day must accompany billing.
v) Payable in addition to office visit, home visit or residential care visit same day.
vi) G14077 payable on same day for same patient if all criteria met.
vii) G14033, G14075, G14063 and G14043 not payable on same day for same patient.

G14075	GP Attachment Complex Care Management Fee........	693.00	315.00

The GP Attachment Complex Care Management Fee is advance payment for the complex work of caring for patients with eligible conditions. It is payable upon the completion and documentation of the Complex Care Plan/Advance Care Plan (ACP) as described below.

This Complex Care fee encompasses those patients with a qualifying diagnosis of Frailty as defined by a Canadian Study of Health and Aging (CSHA) Clinical Frailty Scale score of six or more, indicating the patient is Moderately or Severely Frail.

A Complex care plan requires documentation of the following elements in the patient's chart:

1. There has been a detailed review of the case/chart and of current therapies.
2. There has been a face-to-face visit with the patient, or the patient's medical representative if appropriate, on the same calendar day that the GP Attachment Complex Care Management Fee is billed.
3. Specifies a clinical plan for the care of that patient's chronic condition(s).

(continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

4. Incorporates the patient's values and personal health goals in the care plan with respect to the chronic condition(s).
5. Outlines expected outcomes as a result of this plan, including any advance care planning for end-of-life issues when clinically appropriate.
6. Outlines linkages with other allied care professionals that would be involved in the care, their expected roles.
7. Identifies an appropriate time frame for re-evaluation of the plan.
8. Provides confirmation that the care plan has been created jointly and shared with the patient and/or the patient's medical representative, and has been communicated verbally or in writing to other involved allied care professionals as indicated.

The development of the care plan is done jointly with the patient and/or the patient representative as appropriate. The patient and/or their representative/family should leave the planning process knowing there is a plan for their care and what that plan is.

NOTES:

i) Payable only to Family Physicians who have successfully submitted the GP Attachment Participation Code G14070 or on behalf of Locum Family Physicians who have successfully submitted the GP Locum Attachment Participation Code 14071 on the same or a prior date in the same calendar year.
ii) Payable only for patients with documentation of confirmed CHSA frailty level 6 (moderate) or 7 (severe).
iii) Claim must include the diagnostic code V15.
iv) Payable once per calendar year per patient on the date of the complex care planning visit.
v) Documentation of the Complex Care Plan is required in patient's chart.

(notes continued on next page)

		Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

vi) Minimum required time 30 minutes to review chart and create the care plan jointly with the patient and/or their medical representative. The majority of the time must be face-to-face. Documentation in the patient chart of total time spent in planning (face-to-face; review) and medical visit is required.

vii) Visit (in office or home) or CPx fee to indicate face-to-face interaction with patient same day must be billed for same date of service. Visit time does not count toward required planning time.

viii) G14077 payable on the same day for the same patient, for patients located in the community only as long-term care facility patients are not eligible for 14075.

ix) Maximum daily total of 5 of any combination of G14033 complex care, G14075 Attachment Complex Care or G14074 GP unattached complex/high needs patient attachment fees per physician.

x) G14075 not payable once G14063 has been billed and paid as patient has been changed from active management of chronic disease to palliative management.

xi) G14033 is not payable in the same calendar year for same patient as G14075.

xii) G14043, G14063, G14076, G14079 not payable on the same day for the same patient.

xiii) G14015, G14016 and G14017 not payable in addition, as these fees have been replaced by G14077 for FPs who have submitted the GP Attachment Participation Code.

xiv) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.

xv) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

x) Not payable for communications which occur as a part of the performance of routine rounds on the patient if located in a facility.
xi) Not payable for simple advice to a non-physician allied care professional about a patient in a facility.
xii) Not payable in addition to G14015, G14016 or G14017 as these fees are replaced by G14077 for those Family Physicians who have submitted the GP Attachment Participation code.
xiii) Not payable to physicians who are employed by or who are under contract to a facility or health authority who would otherwise have participated in the conference as a requirement of their employment.
xiv) Not payable to physicians who are working under salary, service contract or sessional arrangements who would otherwise have participated in the conference as a requirement of their employment.

GPSC Incentives for In-patient Care

The GPSC In-patient Initiative was developed to recognize and better support the continuous relationship with a family physician (FP) that can improve patient health outcomes and ease the burden on hospitals by reducing repeat hospitalizations and emergency room visits. An important aspect of such continuous care is the coordination of care through the in-patient journey as well as in transitions between hospital and community FP offices. There are two separate levels of incentives aimed at better supporting and compensating FPs who provide this important aspect of care. This initiative will support family physicians who:

- Provide Most Responsible Provider (MRP) care to their own patients when they are admitted to the identified acute care hospital in their community (Assigned In-patients); and may also
- As part of a network, provide care for patients admitted to hospital without an FP, whose FP does not have hospital privileges, or who are from out-of-town (Unassigned In-patients).

(continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

To participate in the GPSC In-patient Initiative, it is expected that these FPs agree to the following expectations:

A. They are members of the **active or equivalent medical staff** category and have hospital privileges in the identified acute care hospital.
B. That their on-call colleagues (Network) are also members of the active or equivalent medical staff category and have hospital privileges.
C. That they will:
   - Coordinate and manage the care of hospitalized patients (assigned &/or unassigned), admitted under them as the MRP.
   - Provide supportive care when their hospitalized patient is admitted under a specialist as MRP.
   - See all acute patients under their MRP care on a daily basis and document a progress note in the medical record.
   - Work with the interdisciplinary team, as appropriate, to develop a care plan and a plan for discharge.
   - When care is transferred to another physician, ensure that this is documented in the medical record and ensure there is a verbal or written handover plan provided to the accepting physician.
   - Ensure availability through their network to expedite discharges of patients daily during the normal working day which includes early morning, daytime, and early evening.
   - On weekends ensure the covering physician is made aware of those discharges that could occur over the weekend.
   - Provide a discharge note to an unassigned in-patient for their FP or communicate directly with the FP on discharge.
   - Respond to requests from members of the interdisciplinary in-patient care team by phone as per hospital bylaws.

(notes continued on next page)

- The Network Call Group will accept responsibility for their newly admitted in-patients on a 24/7/365 basis. The MRP shall assess and examine the patient, document findings and issue applicable orders as soon as warranted by the patient's needs, but in any case no longer than 24 hours after accepting the transfer. Utilization needs within the facility may dictate that the patient must be seen sooner.

D. The non-clinical services include the already existing expectations of FPs as outlined in the Health Authority Medical Staff bylaws, rules and regulations, and policies. The health authority, the Department of Family Practice, the Division of Family Practice (where it exists) and the In-patient Care Networks could reasonably expect that all parties would participate in discussions which could include:
   - The orderly transitions of MRP status between specialists and generalists.
   - Participating in the orderly discharge planning of generally more complicated patients.
   - Patient safety concerns that come up in local hospitals.
   - Identifying and providing input into "local hassle factors" that would need to be examined and resolved at a local level between the local division of family practice and health authorities.
   - Participate in utilization management within the hospital.
   - Patient care improvement discussions that would reasonably be covered under the improved FP hospital care incentives.

Eligibility

To be eligible to be a member of a GP Assigned Inpatient Care Network, you must meet the following criteria:

- o Be a Family Physician in active practice in B.C.
- o Have active hospital privileges.

(continued on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

- o Be associated and registered with a minimum of three other network members (special consideration will be given in those hospital communities with fewer than four doctors providing inpatient care – see below).
- o Submit a completed Assigned Inpatient Care Network Registration Form.
- o Co-operate with other members of the network so that one member is always available to care for patients of the assigned inpatient network.
- o Each doctor must provide MRP care to at least 24 admitted patients over the course of a year; networks may average out this number across the number of members.

This network incentive is payable in addition to visit fees, but is inclusive of time spent in associated Quality Improvement activities necessary to maintain privileges such as M and M rounds as well as time spent on network administration, etc.

Exemptions for communities where it may be difficult to achieve the minimum volume of MRP inpatient cases will be considered by the GPSC Inpatient Care Working Group.

The GP Assigned In-Patient Care Network Incentive is payable for participation in the network activities for the majority of the following calendar quarter (50% plus 1 day). Once your registration in the network has been confirmed, submit fee item G14086 GP Assigned in-patient care network fee using the following billing specifics:

Billing Schedule: First day of the month, per calendar quarter (January 1, April 1, July 1, October 1) and is paid for the subsequent quarter

G14088	GP Unassigned Inpatient Care Fee	330.00	150.00

The term "Unassigned Inpatient" is used in this context to denote those patients whose Family Physician does not have admitting privileges in the acute care facility in which the patient has been admitted.

The GP Unassigned Inpatient Care Fee is designed to provide an incentive for Family Physicians to accept Most Responsible Physician status for an unassigned patient's hospital stay. It is intended to compensate the Family Physician for the extra time and intensity required to evaluate an unfamiliar patient's clinical status and care needs when the patient is admitted and is only billable once per hospital admission.

This fee is restricted to Family Physicians actively participating in the GP Unassigned Inpatient Care or the GP Maternity Networks. This fee is billable through the MSP Teleplan system and is payable in addition to the hospital visit (00109, 13008, 00127) or delivery fee.

(see notes on next page)

	Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)

NOTES:

i) Payable only to Family Physicians who have submitted a completed GP Unassigned Inpatient Care Network Registration Form and/or a GP Maternity Network Registration Form.

ii) Payable only to the Family Physician who is the Most Responsible Physician (MRP) for the patient during the in-hospital admission.

iii) Payable once per unassigned patient per in-hospital admission in addition to hospital visit (00109, 13008, 00127) or delivery fee.

iv) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.

v) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

ANESTHESIOLOGY

PREAMBLE

The tariff is for all types of anesthetic service. This includes general and regional anesthesia, resuscitation, monitored anesthesia care, and any other procedure carried out with the assistance of an anesthesiologist at the request of the attending physician. The fees are payable to all anesthesiologists, with the exception of consultations and continuing care by consultants which are payable only to certified specialists in anesthesia.

10	01180	166.00	46.50
11	01181	174.00	48.26

THE TOTAL ANESTHETIC FEE is determined by selecting the appropriate item or items:

1. Pre-anesthetic evaluation fee.
2. Consultation and continuing care fees.
3. Anesthetic intensity/complexity levels.
4. Anesthetic procedural fee modifiers.
5. Resuscitation and critical care fees.
6. Diagnostic and therapeutic anesthetic fees.
7. Acute pain management fees.
8. Obstetrical analgesia fees.

1. PRE-ANESTHETIC EVALUATION FEES

01151 and **13052** apply when a pre-anesthetic evaluation is performed for:

a) In-patients where a separate visit prior to anesthesia is required. The assessment when performed immediately prior to anesthesia will be paid using the anesthetic intensity/complexity level of the anesthetic procedure itself and **01151** or **13052** will not be paid in addition.

b) Out-patients where a separate visit for anesthetic assessment is required such as in a pre-anesthetic clinic.

2. CONSULTATIONS

a) **01015** applies when a certified specialist anesthesiologist is requested to assess a patient because of the complexity, obscurity and/or seriousness of the case. It may or may not be associated with a subsequent anesthetic. If this consultation is followed by an anesthetic within 24 hours by the same consultant, a pre-anesthetic assessment will not be paid in addition. If the anesthetic is given by the same consultant after an interval of more than 24 hours, or a different anesthesiologist within 24 hours, then the appropriate pre-anesthetic evaluation will apply.

b) **01115** applies to two situations:

i) When a repeat consultation is done for the same condition within six months by the same consultant. If it is done by the same consultant for a different condition, or a different consultant for the same condition within six months, then 01015 will be paid if the problem is appropriately complex, obscure and/or serious.

ii) **01115** also applies for a limited consultation when in the opinion of the consultant the problem does not warrant **01015**. If a repeat or limited consultation is followed by an anesthetic within 24 hours by the same consultant, a pre-anesthetic assessment will not be paid in addition. If the anesthetic is given by the same consultant after an interval of more than 24 hours, or a different anesthesiologist within 24 hours then the appropriate pre-anesthetic evaluation (see preamble for fee item number **01151**) will apply.

c) **01016** applies to consultations for complex diagnostic and/or therapeutic chronic pain management problems which require a comprehensive history and physical examination.

d) **01116** applies to two situations:

i) When in the opinion of the consultant the diagnostic and/or therapeutic chronic pain management problem is of a more limited nature.

ii) When the same consultant sees a patient in consultation within six months of billing **01016** for the same problem. When the same consultant sees the patient for a different problem within six months, or a different consultant sees the patient for the same problem within six months, then **01016** may be billed if the problem is appropriately complex.

e) **01107** specifically applies to patient visits in a private office setting where the physical is an increased overhead factor.

f) Continuing care items, **01107** and **01108,** cannot be billed with any other listings.

3. ANESTHETIC PROCEDURAL FEES
   a) **The anesthetic procedural fee** is calculated by multiplying the anesthetic intensity/complexity level by the anesthetic time calculated in 15 minute increments.
   b) **The anesthetic intensity/complexity** level is listed opposite the specific surgical, diagnostic and/or therapeutic procedure in the schedule. The anesthetic intensity/complexity level time units are indicated in the listings. These levels represent different degrees of complexity and/or intensity, and each procedure is allocated according to the complexity and/or intensity of the anesthetic service required.
   c) **The anesthetic time** commences when the anesthesiologist is first present for the purpose of providing the anesthetic, and ends when the anesthesiologist is no longer in attendance and the patient may be safely left in the care of the appropriate nursing staff. Time should be calculated in 15 minute periods or parts thereof, i.e., the final period of an anesthetic counts as a full 15 minute period, even if it lasts less than 15 minutes.
      The anesthetic procedural fee covers all services rendered by an anesthesiologist during the procedure except those listed in the "anesthesia procedural fee modifier" and “acute pain management” sections of the fee guide.
   d) **P.A.R. (Post-Anesthetic Recovery)**
      There are three different ways to bill care in **P.A.R**. according to the situation:
      i) **Routine P.A.R. care:** Time spent with the patient subsequent to the end of the anesthetic in the **P.A.R**. for routine problems is to be billed at the same rate as the anesthetic and included in the anesthetic procedural fee. For example, in a patient with post-operative hypertension after a cholecystectomy, the **P.A.R**. time is added to the anesthetic time and billed at the cholecystectomy procedural hourly rate.
      ii) **Critical care in P.A.R.** can be billed as **01088** where time spent with the patient begins when the anesthetic finishes, e.g., post-operative abdominal aortic aneurysm on a ventilator.
      iii) **Resuscitation in life threatening emergencies in the P.A.R.** should be billed as **01088**, e.g., respiratory arrest in the recovery room requiring intubation.
   e) **Multiple Procedures:** When more than one surgical, diagnostic and/or therapeutic procedure is performed during the same anesthetic service, the procedural rate for the total anesthetic time will be the rate for whichever of those procedures has the highest procedural rate (e.g., emergency craniotomy with compound fractured femur will be paid at the procedural rate for craniotomy).

4. ANESTHETIC PROCEDURAL FEE MODIFIERS
   a) These fee items are to be paid in addition to the anesthetic procedural fee. They apply to all general, regional and monitored anesthesia care for all surgical, therapeutic and/or diagnostic procedures. These fees are payable to all anesthesiologists. They do not apply to diagnostic and therapeutic anesthesia fees.
   b) **01059, 01065, 01070, 01071, 01072, 01077, 01082, 01084, 01093, 01164, 01166, 01168 and 01192** are fixed fees which are paid in addition to the anesthetic procedural fee. They are not included in the anesthetic procedural fee for the application of 01080.
   c) **01080** is a multiplier and applies only to the anesthetic procedural fee. When **01080** is applicable, multiply the total anesthetic procedural fee (including routine **P.A.R**. care as in 3.d) i) by 10%.

d) **01080** can only be used once per case, even if it qualifies more than once (e.g., ASA 5E cardiac surgical case with an I.A.B.P. lasting 12 hours will be paid at 10%).

e) Emergency cardiac surgery is defined for this purpose as surgery, which is so urgent that it has to be done outside normal elective operating time, or necessitates "bumping" cases previously booked on the elective slate.

5. RESUSCITATION FEES

These fees refer to resuscitation by anesthesiologists.

a) **Resuscitation: 01088** refers to treatment of acute life threatening emergencies that require constant bedside attendance. It includes all services provided by the anesthesiologist such as: endotracheal intubation, crico-thyroidotomy, invasive monitoring, chest tube drainage and/or temporary pacemaker insertion. Consultations will not be paid. Written explanation is normally not required.
Timing begins when the anesthesiologist is first in attendance with the patient and ends when constant bedside attendance is no longer necessary. If resuscitation precedes a surgical procedure (e.g., a patient with a ruptured thoracic aneurysm), resuscitation timing will finish when surgery is commenced as noted on the OR record and the anesthetic time will then start.

b) **Neonatal Resuscitation: 01090** refers to resuscitation of a severely depressed neonate when the Apgar score at one minute is 5 or less as noted on the delivery record. It includes all services performed by the anesthesiologist including endotracheal intubation and/or umbilical catheterization. Consultations will not be paid. Written explanation is normally not required.

c) **01088, 01090, 01091, 01094, 00017** and **01095** are eligible for out-of-office hours premium charges and/or continuing care surcharges.

6. DIAGNOSTIC AND THERAPEUTIC ANESTHETIC FEES

a) These fees apply to nerve blocks and intravenous procedures done for diagnostic and/or therapeutic chronic pain management problems.

b) Consultations will be paid where appropriate.

c) Anesthetic procedural fee modifiers will not be paid with these fee items.

d) Diagnostic and/or therapeutic anesthetic fees are not eligible for out-of-office hours premium charges and continuing care surcharges.

e) DTAF's and/or FIs 00424 and/or 00811 paid to a maximum of three fees.

f) When multiple DTAFs and/or FIs 00424 and/or 00811 are billed, the fee with the largest value may be claimed in full and the remaining two procedures at 50 percent of the listed fee(s).

g) Trigger point injections within 60 cms of a peripheral nerve block(s) are considered included in the peripheral nerve block fee.

h) FI 01125 is the only peripheral nerve block fee regardless of the anatomic location of each nerve (e.g.: sciatic and occipital nerve blocks are paid as FI 01125).

7. ACUTE PAIN MANAGEMENT

a) Acute pain management listings are applicable to the management of "acute" pain in: post-operative surgical patients, surgical patients who may not undergo surgery but have "acute" pain problems and medical patients who have "acute" pain problems. These listings are not applicable to pain management during labour.

b) When catheters are inserted in the OR, prior to or immediately following surgical, therapeutic and/or diagnostic procedures for the purpose of acute pain management in

the post-operative period, the procedural fees for insertion of catheters are paid as anesthesia procedural modifiers (**01071, 01072, 01082, 01084**). Catheters placed subsequently in the **P.A.R.** and/or ICU will be paid according to the acute pain management listings (**01025, 01026, 01074, 01007**). Catheter supervision visits (**01076, 01021, 01073**) in the **P.A.R.** should be billed as routine **P.A.R.** care as per 3. d) i).

c) All acute pain management fee items are eligible for out-of-office hours premium charges and continuing care surcharges in accordance with the Schedule and Preamble for out-of-office hours premiums.
d) Repeat injections of previously inserted catheters will be paid to a maximum of four in 24 hours without written explanation. Written explanation will be required by the payment agency for payment of repeat injections in excess of this.
e) Visits for continuous infusions and patient controlled analgesia will be paid to a maximum of two in 24 hours without written explanation. Payment of visits in excess of this will require written explanation to the payment agency.
f) Anesthetic procedural fee modifiers will not be paid with acute pain management fee items.
g) Consultations for assessment of the patient for acute pain management:
   i) **01013** is not applicable to referrals from another certified specialist in anesthesia.
   ii) **01013** applies to consultations requested for post-operative acute pain management prior to surgery (but after admission) or within 24 hours following the end of surgery. When a certified specialist in anesthesia is requested to consult on a patient for acute pain management not associated with surgery or more than 24 hours following the end of surgery, then either **01016** or **01116** will be applicable.
   iii) The peri-operative assessment of the routine patient for PCA post-operatively is included in the anesthesia fee. In exceptional circumstances, item **01013** may be applicable. Such claims will require an explanatory note in the claim note record. Fee item **01013** may also be applicable for cases requiring epidural, axillary plexus or intrapleural infusions and/or PCA for control of unanticipated, prolonged or severe or other exceptionally painful conditions unrelated to the surgery.
   NOTE: Consultation (**01015**) or pain consultation (**01013**) may not be billed for routine PCA post-operative pain management.
h) Referred consultations for acute pain management assessment post-operatively will be paid as **01013**. In more complex situations, (e.g., acute pain management of terminal cancer patients), **01016** will be appropriate and paid as such. Pre-anesthetic evaluations will not be paid.
i) Hospital visits for supervision of epidural, axillary plexus and/or intrapleural catheters and/or PCA are to be billed only when the physician is in attendance for the purpose of assessing the patient's response to, and/or adjustment of the infusion/PCA and/or treating adverse reactions.
j) Acute pain management listings are not applicable in addition to critical care fee items (**01088, 01412, 01413, 01422, 01423, 01432, 01433, 01442** and **01443**) when claimed by an anesthesiologist capable of acute pain management.

8. <u>OBSTETRIC ANALGESIA FEES</u> (Epidural Analgesia in Labour)
   a) Consultation will be appropriate when referred because of complex, obscure and/or serious problems. For example, patients with pregnancy-induced hypertension,

thrombocytopenia, or any other medical or obstetrical complications would be appropriate for an anesthetic consultation.

9. MONITORED ANESTHETIC CARE
An anesthesiologist's continuous attendance by request of the attending physician at any procedure for monitored anesthetic care is payable at the same anesthetic intensity/complexity level as for administration of anesthesia for the procedure.

10. PAYMENT OF TWO ANESTHESIOLOGISTS
a) Where two anesthesiologists are medically required in the interest of the patient, both may charge a full fee. When billing MSP, support the need for charges with a written statement.
b) When one anesthesiologist takes over from another part way through a procedure, the total fee billed by both anesthesiologists should not exceed the fee that one anesthesiologist would have billed had the replacement not occurred.

11. PAYMENT OF ANESTHESIA WHEN PERFORMED BY THE SURGEONS
When a surgeon is required to administer an anesthetic in addition to performing a surgical procedure it is recommended that a charge NOT be made for the anesthesia in addition to the procedure performed. In emergency situations it may be necessary for the surgeon to act as an anesthesiologist; a charge for such service should be accompanied with a written explanation of the circumstances by the surgeon concerned when billing payment agencies.

12. ANESTHETIC FEES NOT INCLUDED IN THE SCHEDULE
a) Such fees shall be computed in equity with procedures of similar anesthetic responsibility, difficulty and skill. When submitting an account to MSP, use fee item **01999** and state reason for charge.
b) The foregoing also applies to anesthetic procedural fees for surgical or diagnostic procedures charged under a miscellaneous **999** number (see Clause C. 4. Preamble).
c) Anesthesiologists will not normally perform simultaneous services. In the rare event where a life-threatening emergency presents to an anesthesiologist already in attendance at one service, AND a second anesthesiologist is not immediately available AND a delay to await the arrival of the second anesthesiologist would pose an unacceptable risk of adverse outcome to the second patient SO THAT, in the judgement of the attending physicians, the attending anesthesiologist has no option other than performing two services simultaneously, THEN the attending anesthesiologist may perform two services simultaneously and may bill the full fee for both services until the second anesthesiologist arrives. Written explanation to the payment agency is required. This does not apply to simultaneous services of a less than life-threatening nature or where one of the two services is conducted or supervised by a resident or intern or student.

   For example, a patient with respiratory arrest in a **P.A.R.** requires intubation. The patient undergoing a procedure in the OR has to be left with appropriate alternate care for a brief period while the **P.A.R.** patient is intubated and stabilized.

   Another example would be setting up a second operating room for a “STAT” caesarean section for life threatening fetal distress and supervising two anesthetics

with appropriate help until a second anesthesiologist can arrive to take over.

Similarly, when there is a **life-threatening** Neonatal Resuscitation required and the "baby doctor" is not available to perform the resuscitation, it is acceptable that the initial patient be supervised under appropriate alternate care until either the "baby doctor" arrives or the baby is stabilized.

d) Where unusual detention with the patient before, and/or after anesthesia is necessary, this time will be compensated at the same intensity/complexity level as the anesthetic except when it is appropriate to bill for resuscitation, or when requested to attend at delivery to resuscitate the neonate if necessary. Examples where unusual detention may be required include (but not limited to) are:
   i) Patients with: prolonged neuromuscular paralysis, hemodynamic instability, post-extubation laryngeal stridor, bronchospasm and bleeding diathesis.
   ii) **T01112** is applicable where the attendance of the anesthesiologist is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care and where the anesthesiologist is in constant attendance. For example, this applies to the situation where an anesthesiologist is requested to be present at delivery for the purpose of neonatal resuscitation. If resuscitation is necessary, then **T01112** stops at the time of delivery and **01090** commences.

13. Dental Anesthesia Policy

This policy is restricted to non-cosmetic non-insured dental procedures where it is impossible for the dentist or oral and maxillofacial surgeon to properly manage the patient by any other means except with general anesthesia. The exceptions will apply to dental services regardless of the location in which they are performed.

Dental-related anesthesia services are only a benefit when the dental procedure is an insured service under MSP unless one of the following exceptions exists:

i) Children requiring extensive dental rehabilitation and could not be otherwise managed/treated due to the length of time for the treatment and the dental treatment is scheduled to last more than one hour; or
ii) The patient has a severe mental or physical disability that precludes the performance of the dental procedure(s) under local anesthesia; or
iii) There is a demonstrated medical contra-indication (e.g., allergy) to local anesthesia precluding the performance of the dental procedure(s) under local anesthesia; or
iv) There is difficulty with access to the airway precluding the performance of the dental procedure(s); or
v) The presence of dental disease adds a significant risk of complication(s) to a planned major surgical procedure, medical treatment, or post-operative care such as for cancer treatment and/or the patient's presenting medical condition is severe enough to preclude the performance of the dental procedure(s) under local anesthesia; or
vi) The emergent nature of the dental condition requires immediate attention under general anesthesia.

(See notes on following page)

NOTES:

1. The term extensive dental rehabilitation will include surgery for trauma, fillings, and other traditional rehabilitation services.
2. Prior approval may be sought for those cases not fulfilling the exception criteria listed above when the dentist or oral and maxillofacial surgeon is of the opinion general anesthesia is essential for the safe and efficient performance of a medically required dental procedure. It is important to note that fear and/or anxiety does not warrant coverage of dental anesthesia by MSP. Requests for prior approval should be forwarded in writing (with appropriate documentation to make a decision) to the Director, Claims Branch, Medical Services Plan.
3. The Association of Dental Surgeons has agreed that in the case of an audit resulting in the recovery of inappropriately billed anesthesia claims, the dental or oral and maxillofacial surgeon requesting the anesthesia will be responsible for reimbursement. Recoveries will be applied to the Available Amount for physician services.

		Non-MSP Insured Fee ($)	Anes. Lev.	MSP & WSBC Fee ($)

NOTES:

i) 01016 and 01116 do not apply to evaluation of pain during confinement.

ii) Fee item 01116 plus a nerve block would be payable for the initial re-referral at the same sitting.

iii) In cases where the consultant sets down a treatment plan that requires the patient to return for follow-up nerve blocks for the same condition, only the nerve block is payable.

iv) In some cases, a single nerve block will be performed at the initial consultation and no further nerve blocks are planned at that time. The course of treatment is to monitor the effectiveness of the first block. If, however, the patient is re-referred for further blocks within 6 months, then a follow-up consultation (01116) plus the nerve block is payable.

33035	– professional fee	185.00		45.38
33036	– technical fee	126.00		31.11

NOTES:

i) This test involves controlled graduated exercise levels by the use of either a bicycle or treadmill ergometer or pharmaceutical agents with continuous electrocardiographic monitoring during and after exercise. At least two exercise work levels must be measured, exclusive of a warm-up period, and reproducible exercise and post-exercise records must be obtained.

ii) When a 12 lead cardiogram is done on the same day as the graded exercise test, it is included in fee item 33034.

iii) A graded exercise tolerance test may be repeated once within one year to assess the functional capacity of the patient after recovery from coronary bypass surgery and to assess the effect of therapy where exercise has produced a serious ventricular rhythm disturbance. In all other circumstances, where graded exercise tests are repeated within one year, a letter of explanation for the need will accompany the account to the payment agency, except in conjunction with thallium myocardial scans where a graded exercise test may be performed and charged with each scan.

iv) Where the exercise stress test (33034, 33035 or 33036) and exercise echocardiogram (08662) are performed by the same physician, the stress test will be paid at 50%.

CRITICAL CARE

Complete understanding of the following paragraphs is essential to appropriate billing of the critical care fees. Members of the team billing the Critical Care Guide cannot be receiving other payments (e.g., fees, alternative or sessional payments) for the clinical care of the patient.

PREAMBLE

ADULT AND PEDIATRIC CRITICAL CARE

These listings do not apply to non-ventilated stable patients admitted to a special care unit for routine post-op care, or for nursing care reasons, cardiac or other monitoring. The Critical Care Guide is intended to be used by physicians providing direct bedside care to critically ill and unstable patients who are in need of intensive treatment, such as ventilatory support, hemodynamic support including vasoactive medications, or prolonged resuscitation.

Day 1 billing is to be used only when more than 2 hours of bedside care is provided. (If 01411 - 01413 billed in isolation, a total of 2 hours care on the first day is required. If critical and ventilatory care is billed conjointly by the team, then each component must be a minimum of 1 hour of care). Day 1 is defined as starting at 0000 hours. If a patient is seen after 2200 hours, the physician may bill emergency care services, 00081/00082 or a major consultation fee with resuscitation services, 00081, or a major consultation fee with additional visits when appropriate. Day 2 billing would start at 0000 hours the next day. Standby time is not allowed.

It is recognized that a team of physicians often manages complicated problems in the Intensive Care Unit. The schedule is a team fee and individual members of the team who share a common call rotation may not bill separately. The original physician or physicians providing initial bedside care will be designated physician or physicians in charge (i.e., if it is a single physician then the comprehensive or critical care item may be billed when appropriate). If two physicians are involved, then the critical care item and ventilatory support item may be billed, if the other requirements are met. Critical care billing no longer applies when the services indicated in the listings are no longer required. If the patient has been discharged from the unit and is readmitted within 48 hours with the same or a similar problem, billing would continue from where it was stopped. After 48 hours, billing would usually start at Day 2 rates. If problem is totally different, Day 1 rates will apply regardless of time admitted both, within or after 48 hours (a note record is required).

Since these listings are intended to cover all required services for critically ill patients, no other physician except the Primary Care Physician (who may bill for daily or supportive care) may bill for the care of the patient on the same day, except for:

- Consultation fee to a specialist outside the team when requested (service not within the competence or specialty of a team member). Follow-up visits may be billed only if the physician is involved in the active care of the patient.
- TPN when ordered by a physician not part of the critical care team.

- Medical management of extra Corporeal Membrane Oxygenation (ECMO) should be billed as a miscellaneous fee, and will be paid in equity with the Critical Care daily fees (1411/21/31/41), starting at Day 1.
- The Critical Care team member who performs ECMO cannot concurrently bill the daily fees on the same patient. Another physician on the team may concurrently bill the appropriate Adult and Pediatric Critical Care daily fees on that patient.
- Continuous Renal Replacement Therapy (CRRT, also referred to as dialysis) and MARS (Molecular Adsorbents Recirculating System) may be paid in addition to Critical Care daily fees to the same physician or to another member of the Critical Care Team. For the CCM Physician, these fees will be paid at 75% of fee item 33750, 33751, 33752 and 33758, and will follow the billing rules under these dialysis fees.
- Dialysis when supervised by a physician not part of the critical care team will be paid at 100%.
- In exceptional circumstances other physicians may be called in to perform specific procedures usually managed by the critical care team, i.e., anesthesiologist (not a member of the team) called to insert a difficult arterial line when no one else is capable of performing the procedure. That physician may bill the procedure fee but a consultation fee would not be applicable.

A note record is required explaining the need for services outside the critical care team.

Subsequent major surgical procedures rendered by a physician who is on the team billing under the critical care schedule are payable at 75% (operation only procedures payable at 100%) and should be billed accordingly.

Post-operative surgical care is included in the surgeon's fee. Critical care fees are not applicable for services rendered to routine, stable patients who are simply recovering from surgery. The following is applicable for members of the critical care team, in cases where the patient requires critical care following surgery:

a) Services rendered to unstable, critically ill non-elective post-surgical patients who meet normal Day 1 criteria should be billed at Day 1 rates.

b) Services rendered to high risk and unstable patients, (particularly after emergency surgery) who warrant ICU care but who do not meet the requirement of two hours of direct critical care management on their first day in ICU, should be billed using the appropriate consultation and procedural item(s). Subsequent day, Day 2 rates are applicable.

c) Where the patient requires critical care following uncomplicated elective surgery, the critical care fees may be billed by the critical care team utilizing Day 2 rates. The operating surgeon(s) may bill the critical care fee guide but the preceding major surgical procedure will be reduced to 75%.

d) The critically ill patient, who, following elective surgery, has an unusual and unexpected problem, can be billed as Day 1. A note record is required.

Critically ill patients are occasionally transferred from one hospital to another. Under such circumstances the original intensive care team may bill for the day of the patient's transfer, if appropriate. First day rates would apply to the receiving intensive care team if more than two hours of bedside care are provided. This does not apply to intra-hospital transfers. Please also provide in a "note record" the statement that "patient transferred from ____________Hospital".

Physicians required to be in attendance during the transporting of a patient from a critical care area to an outside institution may claim the appropriate fee (e.g., 00084).

These Critical Care listings only apply to physicians who are directly involved in the bedside care of patients as defined in the "Preamble to the Guide to Fees".

> "C. 18. Guidelines for payment for services by residents and/or interns.
>
> When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient at the earliest possible moment. No fees shall be charged in the name of the responsible staff physician for services rendered by an intern or resident prior to this identification taking place. Moreover, the responsible staff physician must be in the clinical teaching unit and/or immediately available to intervene (immediately available means on-site)."
>
> "For a medical practitioner who supervises two or more procedures or other services concurrently through the use of residents, interns or other members of the team, total billings must not exceed the amount that a medical practitioner could bill in the same time period in the absence of the other team members."

Out-of-office hours premiums and emergency visit fees are not payable in addition to this schedule, as historically, these fees are included in the critical care fees.

ADULT AND PEDIATRIC CRITICAL CARE

1. <u>CRITICAL CARE</u> - Includes provision in an Intensive Care Area of all aspects of care of a critically ill patient excluding ventilatory support and includes initial consultation and assessment, family counselling, emergency resuscitation, intravenous lines, bronchoscopy, chest tubes, lumbar puncture, cutdowns, pressure infusion set and pharmacological agents, insertion of arterial C.V.P., Swan-Ganz or urinary catheters and nasogastric tubes, defibrillation, cardio version and usual resuscitative measures, securing and interpretation of laboratory tests, oximetry, transcutaenous blood gases and intracranial pressure monitoring interpretation and assessment when indicated (excluding insertion of ICP measuring

device). There is an expectation of at least 1-hour of bedside care on Day 1. These fees are not chargeable for services rendered to stabilized patients in ICU's, for example, routine post-op monitoring, or patients admitted for ECG monitoring or observation alone.

Physician-in-charge is the physician(s) daily providing the above.

2. VENTILATORY SUPPORT - Includes provision of ventilatory care, initial consultation and assessment of the patient, family counselling, cutdown, pressure infusion, insertion arterial & CVP, Swan- Ganz, tracheal toilet, endotracheal intubation, intravenous lines, artificial ventilation and all necessary measures for its supervision, obtaining and interpretation of blood gases, oximetry, end tidal $C0_2$, transcutaneous blood gas application and assessment and maximum inspiratory pressure monitoring and non-invasive metabolic measurements. There is an expectation of at least 1-hour of bedside care on Day 1. This is the fee to use when one physician is providing the ventilatory care and another physician, the critical care. This service may also be billed by a physician other than the operating surgeon or associate, for critical care required in addition to post-operative care by the surgeon.

Physician-in-charge is the physician(s) daily providing the above.

If ventilatory support only is provided, claims should then be made under ventilatory support. Comprehensive care fees do not apply. Other physicians should then charge critical care fees, if applicable, or the appropriate consultation, visit or procedure fees.

NEONATAL INTENSIVE CARE

These listings may be used for patients receiving neonatal intensive care and are intended for use by the Neonatologist or Pediatrician (or Team) in charge of the patient. These listings may be used by physicians providing direct bedside care to critically ill and unstable patients who are in need of intensive treatment such as ventilatory support, hemodynamic support including vasoactive medications or prolonged resuscitation. They are to be billed only on sick or pre-term infants requiring intensive care. They are also for infants who are more than 28 days old, who have neonatal problems, related to prematurity, etc. These listings do not apply to non-ventilated stable patients admitted to a special care unit for routine post-operative care. These fees are not for the infant who is stable and only requiring a period of observation. Neither are they for the infant who needs a short course of prophylactic antibiotics. It would be unusual to bill these fees on an infant whose period of care in the NICU lasted less than 48 hours. Consultation and visit fees would be appropriate.

These neonatal intensive care fees only apply to physicians who are directly involved in the bedside care of patients in the Critical Care Areas. "Preamble to the Guide to Fees" applies.

> "C. 18. Guidelines for payment for services by residents and/or interns.
> When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient at the earliest possible moment. No fees shall be charged in the name of the responsible staff physician for services rendered by an intern or resident prior to this identification taking place. Moreover, the responsible staff physician must be in the clinical teaching unit and/or immediately available to intervene (immediately available means on-site)."
>
> "For a medical practitioner who supervises two or more procedures or other services concurrently through the use of residents, interns or other members of the team, total

billings must not exceed the amount that a medical practitioner could bill in the same time period in the absence of the other team members."

Included in these daily composite fees are the initial consultation or assessment, subsequent visits and examinations as required in any given day. Also included are: family counseling, emergency resuscitation, insertion of arterial, venous, Swan-Ganz, CVP or urinary catheters, intravenous lines, interpretation of blood gases, insertion of nasogastric tubes, infusion of pharmaceutical agents including TPN, endotracheal intubation and artificial ventilation and all other necessary respiratory support. Exchange transfusion is not included in these fees and not all infants requiring an exchange transfusion are critically ill.

Out-of-office hours premiums may still apply for special calls back to the hospital and may be billed in conjunction with a no charge visit. If a patient is discharged from the unit for more than 48 hours and is re-admitted, second day rates again apply. If the patient is re-admitted within 48 hours of discharge, billing continues under fee code billed at discharge, unless acuity level changes. If a patient changes acuity level up or down then the appropriate second day rate applies. A note record is required indicating the change in acuity level. Fee item 00505 (Emergency Visit) may not be billed by the person claiming these fees.

Call-out charges are billable with the neonatal critical care fee items. Historically, these have not been included in the neonatal fees and may be billed separately.

Members of the team billing the Neonatal Guide can not be receiving other payments (e.g., fees, alternative or sessional payments) for the clinical care of the patient.

NOTES:

i) 00225, 00226 and 00227 are billable only for complicated epithelial cancer and only by physicians specially qualified in this technique.

ii) 00226 and 00227 are billable only once whether or not excision of the lesion extends to subsequent day.

iii) 00227 is not billable if the surgery is performed in a hospital setting.

iv) Closure of the resulting defect by undermining and advancement flaps is included in the above fees. If more complicated closure is medically necessary, bill as an extra under appropriate listings for skin grafts.

SKIN GRAFTS

Additional procedures, other than skin grafts, are extra; e.g., bone or tendon grafts, inlay grafts, etc.

NOTES:

1. The medical necessity for a single or multiple flap occurs when a defect cannot be closed by elevating or undermining the edges and suturing subcutaneous tissue and skin. An advancement flap does not qualify for these listings unless the repair involves at least one level of deep sutures and each edge of the lesion is undermined a distance equal to or greater than:
   a. 1 cm – nose, ear, eyelid, lip
   b. 1.5 cm – other face and neck
   c. 3 cm – rest of body

   These listings are only to be used where the dissection meets the criteria above, whether the advancement involves one or both sides of the wound. If the wound can be closed in a straight line, five cm or less in length, a tissue advancement flap should not ordinarily be required.

2. When fee items 20222, 20223 or 20225 are done under local anesthesia, an operative note, and/or diagram or clinical record that describes the procedure may be required by MSP to justify claims.

3. The medical record of the patient must explain the medical necessity for the use of these listings.

4. Fee item 20222 should rarely be used for an excision of tumour of skin or subcutaneous tissue or scar up to five cm when excised under local anesthetic.

5. Fee items 20221 to 20228 are restricted to services provided by Dermatologists and/or MOHS surgeons.

EMERGENCY MEDICINE

PREAMBLE

1. The following listings apply only to examinations rendered by the emergency physician designated by the medical staff who is on hospital Emergency Department duty and on-site. Other physicians (e.g., on-call) who choose to attend their patients in the Emergency Department, but who are not the designated emergency physicians as defined above, shall not bill these listings, but shall refer to other sections of the Fee Guide for billing the appropriate examinations. The physicians working in hospital Emergency Departments that are covered on a call-in basis as opposed to an on-site basis shall not bill these listings but shall refer to the Section of General Practice. Physicians working in diagnostic treatment centres or free-standing emergency clinics should also refer to the listings in the Section of General Practice. Call-in fees (e.g., 00112) or call-out charges for patients seen in the Emergency Department are not applicable to emergency physicians while on duty and on-site in the hospital Emergency Department.

2. Separate day, evening, night and weekend/holiday listings are defined as follows:

Day Visit:	0800 to 1800, weekdays
Evening Visit:	1800 to 2300, weekdays
Night Visit:	2300 to 0800
Weekend/Holiday Visit:	0800 to 2300 on Saturday, Sunday and Statutory Holidays

3. Emergency Department visit listings are further categorized into three levels of complexity.

<u>LEVEL I</u> A level of service pertaining to the evaluation and treatment of a single condition requiring only an abbreviated history, examination and treatment. It shall include the review of appropriate laboratory tests and/or x-rays. This level of service shall also pertain to those patients who do not meet the criteria for Level II or III care.

<u>LEVEL II</u> Pertains to the evaluation of a new or existing medical condition that necessitates a detailed medical history, and necessary physical examination of three or more regions. It will also include a review of laboratory tests and x-rays where required, and the initiation of appropriate therapy. This level of service shall also pertain to those patients whose illness/injury require prolonged observation, continuous therapy and multiple reassessments.

LEVEL III a) Pertains to evaluation of patients with serious multiple and/or complex medical problem(s) which often can be obscure and where the emergency condition necessitates a detailed history and complete physical examination by the emergency room physician. This shall include the chief complaint(s), history of past and present illness, relevant personal and family history, functional enquiry and complete physical examination with special attention to local examination where indicated. It shall include the review and interpretation of appropriate laboratory, x-ray and ECG studies, full recording of the findings and discussion with the patient and/or family and/or personal physician as well as the initiation of appropriate therapy.

b) This level of care shall also pertain to the management of a life threatening illness/injury which requires immediate evaluation and emergent treatment by the emergency physician. It shall include the review and interpretation of appropriate laboratory, x-ray and ECG studies, full recording of the findings and discussion with the patient and/or family and/or personal physician.

4. Emergency Medical Consultations

a) A specialist emergency medicine consultation (fee item 01810) only applies to Royal College Certified emergency physicians. Other full-time emergency physicians may bill a general practice out-of-office consultation (fee item 12210, 13210, P15210, 16210, 17210 or 18210) where indicated.

b) An emergency medicine consultation (whether billed as 01810, 12210, 13210, P15210, 16210, 17210 or 18210) applies only when a patient is referred by another physician (other than an emergency physician at the same institution) who has seen and examined the patient and, because of the complexity, obscurity or seriousness of the problem, the referring physician has requested a consultation. Exception: If the consulting physician is an emergency physician who is designated on-call Trauma Team Leader they may bill emergency medicine consultations if called in by the on-site emergency physician at the same institution.

c) An emergency medicine consultation shall include a detailed history and physical examination, review of previous medical records, discussion with family, friends or witnesses, evaluation of appropriate laboratory, x-ray and ECG findings and report of opinions and recommendations in writing to the referring physician.

d) A copy of the Emergency Department chart does not constitute a consultation report.

e) A consultation cannot be charged for the routine transfer of care to the emergency physician or for the provision of treatment for a stable medical condition.

f) A consultation does not apply in cases of self-referral by patients who present themselves to the Emergency Department or are brought by persons acting on their behalf.

g) If a consultation is charged in addition to critical care (fee item 00081), the consultation fee shall be paid, but shall constitute the first half-hour of the critical care resuscitation fee.

h) No service charges may be billed in addition to the emergency medicine consultation fee, except for Trauma Team Leaders, with a note record.

5. The routine transfer of care between emergency physicians at the change of shift shall not generate a new visit fee. However, in the event of a significant deterioration in a patient's status that medically requires both a new examination and modification of the treatment plan, then the appropriate visit fee item may be claimed.

6. Medical conditions treated in addition to minor surgical procedures.

   Patients may present, for example, with a laceration requiring suture repair and also require treatment of an un-associated, unrelated illness or injury. Both a visit fee (Level I, II, or III) and the procedural fee (Repair of laceration - fee item 13611 or 13612) may be billed. In the event that a Level I, II or III visit fee is medically required and billed, the greater fee shall be paid in full and the lesser at 50%.

   Patients may also present with an emergency medical condition associated with a laceration (e.g. syncope with a scalp laceration or seizure disorder with a facial laceration). Again, both the appropriate visit fee (Level I, II or III) and a procedural fee (e.g., 13611 or 13612) may be billed. The greater fee shall be paid in full and this lesser fee at 50%.

These fees cannot be correctly interpreted without reference to the Preamble.

EMERGENCY CARE

1. 00081 is to be used for the evaluation, diagnosis and treatment of a critically ill patient who requires constant bedside care by the physician.
2. A critically ill patient may be defined as a patient with an immediately life threatening illness/injury associated with any of the following conditions (which are given as examples):
   a) Cardiac Arrest;
   b) Multiple Trauma;
   c) Acute Respiratory Failure;
   d) Coma;
   e) Shock;
   f) Cardiac Arrhythmia with Hemodynamic compromise;
   g) Hypothermia; and
   h) Other immediate life threatening situations.
3. 00081 includes the following procedural items where required: defibrillation, cardioversion, peripheral intravenous lines, arterial blood gases, neogastric tubes with or without lavage and urinary catheters, intubation (as part of a cardiac arrest).
4. 00081 includes the time required for the use and monitoring by the physicians of pharmacologic agents such as inotropic or thrombolytic drugs.
   (continued on next page)

		Non-MSP Insured Fee ($)	Anes. Lev.	MSP & WSBC Fee ($)
	5. All other procedural fee items not specifically listed in #3 above are not included in 00081. Below are listed some of the procedures that are not included and which, therefore, may be billed in addition when rendered: (NOTE: The time required for these procedures should be noted with the claim and deducted from the 00081 time). a) Endotracheal Intubation as a separate entity, i.e., not part of a cardiac arrest or followed by an anesthetic; b) Cricothyroidotomy; c) Venous Cutdown; d) Arterial Catheter; e) Diagnostic Peritoneal Lavage; f) Chest Tube Insertion; and g) Pacemaker Insertion.			
	6. 00081 is not intended for standby time such as waiting for laboratory results, or simple monitoring of the patient.			
	7. When a consultation fee is charged in addition to 00081, for billing purposes the consultation fee shall constitute the first half hour of the time spent with the patient.			
	8. When surgery is performed by the same doctor after prolonged emergency care, the surgical fee may be charged in addition to the appropriate emergency care fee.			
	9. When a second or third physician becomes involved in the emergency care of an acutely ill patient requiring continuous bedside care, item 00081 is applicable just as it is to the attending physician who is first on the scene.			
00081	Emergency care, per half hour or major portion thereof.	289.00		102.47
00082	Monitoring of critically ill patients (when modification of the care and active intervention is not necessary), per half hour or major portion thereof..................................	143.00		61.46

TRAUMA ASSESSMENT AND SUPPORT

Trauma – General Services:

These fees are intended for the Trauma Team Leader (TTL) within the facility (or facilities) that a trauma patient may arrive at, requiring treatment.

Trauma Team Leader Assessment and Support fees (P10087, P10088, and P10089) will be paid for services to patients demonstrating any one of the following criteria:

Trauma team Activation Criteria:

i) Shock – confirmed Blood Pressure ≤ 90 at any time in adults.
ii) Airway Compromise including intubations.
iii) Transfer patients from other Emergency Departments receiving blood to maintain vital signs.
iv) Unresponsiveness – Glasgow Coma Score ≤ 8 with a mechanism suggestive of injury.
v) Gunshot or other penetrating wounds to head, neck, chest, abdomen or proximal extremity (at or above knee or elbow).
vi) Autolaunched Trauma Patient.
vii) Pediatric Trauma Patient under 16 years of age.
viii) Special consideration will be given for patients with significant co-morbidities, pregnant patients, and patients < 5 years of age and > 65 years of age.

Trauma Team Consults:

i) Spinal cord injury (confirmed or suspected).
ii) Vascular compromise of an extremity with a traumatic mechanism.
iii) Amputation proximal to the wrist or the ankle.
iv) Crush to the chest or pelvis.
v) Two or more proximal long bone fractures (i.e.: humerus, femur)

(notes continued on next page)

vi) Burns
- Partial thickness (2º) burn ≥ 10% and full thickness (3º) burn
- Electrical or lightning burn
- Chemical burn or Inhalation injury
- Burn injury in patients with significant co-morbidities

vii) - Burn injury with concomitant trauma

viii) Obvious significant injury and – Falls > 20 feet.

ix) Obvious significant injury and – Pedestrian hit (thrown or run over).

x) Obvious significant injury and – Motorcycle crash with separation of the rider and bike.

xi) Obvious significant injury and – Motor vehicle crash with either
- Ejection
- Rollover
- Speed > 70 kph
- A death at the scene

xii) Patients with possible head injury and GCS less than 13.

<u>All Trauma Assessment and Support fees include:</u>

- Consultation and assessment
- subsequent examinations of the patient
- family counselling
- teleconference with higher level trauma facilities
- ongoing and active daily surgical management of trauma patients including but not limited to:
  - performing tertiary and quaternary survey physical exams
  - assessment and management of active and passive body core warming
  - care of traumatic wounds or burns (including suturing) not requiring a general anesthetic
  - obtaining appropriate surgical consultations and transfer to higher level facilities when needed
  - coordinating with the transplant organ retrieval team, family counselling (related to organ donation) and obtaining consent for organ procurement

GERIATRIC MEDICINE

These fees cannot be correctly interpreted without reference to the Preamble.

PREAMBLE

Criteria for Billing Fee Items 33401, 33402, 33421, 33422 and G33455:

1. Payable only to qualified geriatricians.

2. Applicable to the assessment of geriatric patients who have multiple medical, physical, mental and/or social problems; who often require a collateral history from physicians, other health care givers and family, and for whom community services may be required. Includes diagnostic interview and examination, including cognitive, functional and social assessment, review of X-ray, laboratory and other relevant records, treatment recommendations and a written report.

3. Applicable only when written report includes at least two aspects of complexity. Common clinical syndromes include, but are not limited to, the following:

   - Assessment and management of medical condition(s)/syndrome(s) in those 75 years and over (except 33401 and 33421 which applies to patients 65 years and over, and G33455, which applies to patients age 65-74).
   - assessment of dementia, using both some form of formal cognitive measurement, as well integrating reports from family/homemakers/Home health
   - assessment and management of delirium including behavioural issues
   - behavioural/affective issues in dementia management
   - failure to thrive, including detailed assessment of nutrition
   - Polypharmacy, review of medication tolerability/response and compliance issues
   - incontinence
   - management of common psychiatric syndrome in the elderly, including co-management with geriatric psychiatry, particularly where there is significant medical instability
   - Elder abuse/neglect, caregiver stress
   - Assessment/monitoring of functional status including issues of competency and “living at risk”

4. Cumulative time requirements for billing fee items 33401, 33402, 33421, 33422 and G33455 is based on clinical assessment time. It is understood that payment for these fee items includes time spent preparing reports, and, as necessary, the other aspects of assessment outlined in #2.

5. Note start and end times of service in patient’s chart when billing 33401, 33402, 33421, 33422 and G33455.

ADULT CRITICAL CARE

NOTE: Please refer to the Critical Care section of the Fee Guide for Preamble rules and billing guidelines applicable to appropriate billing of the critical care fees.

1. CRITICAL CARE - Includes provision in an Intensive Care area of all aspects of care of a critically ill patient excluding ventilatory support and includes initial consultation and assessment; family counseling; emergency resuscitation; intravenous lines; bronchoscopy; chest tubes; lumbar puncture; cutdowns; pressure infusion set and pharmacological agents; insertion of arterial CVP; Swan-Ganz or urinary catheters and nasogastric tubes; defibrillation; cardio version and usual resuscitative measures; securing and interpretation of laboratory tests; oximetry; transcutaenous blood gases; and intracranial pressure monitoring, interpretation and assessment when indicated (excluding insertion of ICP measuring device). There is an expectation of at least 1 hour of bedside care on Day 1. These fees are not chargeable for services rendered to stabilized patients in ICU's, for example, routine post-operative monitoring, or patients admitted for ECG monitoring or observation alone.

   Physician-in-charge is the physician(s) daily providing the above.

		Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)
01411	1st day	783.00	333.26
01421	2nd to 7th day (inclusive) per diem	387.00	169.97

01441	31st day onward	66.30	27.84

2. VENTILATORY SUPPORT - Includes provision of ventilatory care; initial consultation and assessment of the patient; family counseling; cutdown; pressure infusion; insertion arterial & CVP; Swan-Ganz; tracheal toilet; endotracheal intubation; intravenous lines; artificial ventilation and all necessary measures for its supervision; obtaining and interpretation of blood gases; oximetry; end tidal $C0_2$; transcutaneous blood gas application and assessment; and maximum inspiratory pressure monitoring and non-invasive metabolic measurements. There is an expectation of at least 1 hour of bedside care on Day 1. This is the fee to use when one physician is providing the ventilatory care and another physician, the critical care. This service may also be billed by a physician other than the operating surgeon or associate, for critical care required in addition to post-operative care by the surgeon.

   Physician-in-charge is the physician(s) daily providing the above.

		Non-MSP Insured Fee ($)	MSP & WSBC Fee ($)
01412	1st day	680.00	290.57

PREAMBLE

Acute Cerebral Vascular Syndrome (Stroke & TIA) Listings:
Acute cerebrovascular syndrome (ACVS) includes acute stroke and TIA. Both are indistinguishable clinically at onset and are acute emergencies. The ACVS fee items have been developed in conjunction with the BCSS and the Section of Neurology, and are intended for services provided by neurologists in the acute management of stroke/TIA. When submitting claims, the appropriate 3-digit ICD-9 stroke code (431, 433, 434 and 435) must be used, and the patient's initial NIHSS 2-digit code for the billed visit must be appended in the ICD-9 field (i.e., 43412 or 43405). The TIA code (435) may also have an appended score if the billed visit includes the symptomatic phase.

Face-to-Face Services:
These fee items are intended for services rendered at public facilities with adequate diagnostic capabilities (i.e., laboratory services, diagnostic imaging ability including CT scan, ultrasound) to ensure timely patient care.

Telestroke Services:
"Telestroke Service" is defined as a Neurologist-delivered health service provided via videoconferencing for a patient referred by a physician at a different site for diagnosis related to acute cerebral vascular syndrome (ACVS).

- Referral sites must have capability to provide laboratory services, diagnostic imaging ability including CT scan, ultrasound, CT angiography and must be part of a Health Authority approved, publicly-funded Telestroke program.

Consulting sites are defined as a neurologist-delivered health service provided to a patient at a Heath Authority approved, publicly-funded Telestroke program.

- Telestroke service includes live interactive transmission of sound and full-motion picture information between the referring site (hospital) and an approved consulting site (the location of the Telestroke neurologist) using secure videoconferencing technology as defined in Preamble D. 1. in order for payment to be made, the patient must be in attendance at the referring site at the time of the video capture. Information regarding the start and stop times of service must accompany claims.

In those cases where a neurologist's service requires a general practitioner at the patient's site to assist with the essential physical assessment, without which the neurologist's service would be ineffective, the neurologist must indicate in the "Referred by" field that a request was made for a General Practice assisted assessment.

Where a receiving neurologist, after having provided a Telestroke consultation service to a patient, decides s/he must examine the patient in person, the neurologist should claim the subsequent visit as a limited consultation, unless more than 6 months has passed since the Telestroke consultation.

Telestroke services are payable only when provided as defined under the specific Preamble pertaining to the service rendered (e.g., Telestroke consultation - see Preamble D. 2.) to a patient with valid medical coverage. Patients or their representative must be informed and given opportunity to agree to services rendered using this modality, without prejudice.

Where a Telestroke service is interrupted for technical failure, and is not able to be resumed within a reasonable period of time, and therefore is unable to be completed, the receiving neurologist should submit a claim under the appropriate miscellaneous code for independent consideration with appropriate substantiating information.

In exceptional circumstances, for facilities targeted in the BCSS phased implementation in the process of implementing Telestroke services, a telephone consultation may be payable in an emergent (i.e., life or death) situation. Telemetry review of diagnostic images is required as an integral aspect of the consultation. A note record is required in these instances.

Compensation for travel, scheduling and other logistics is the responsibility of the Regional Health Authority. Rural Retention fee-for-service premiums are applicable to Telestroke services and are payable based on the location of the receiving medical practitioner in eligible RSA communities.

Ventriculoscopic Procedures:

When ventriculoscopy is performed as part of a craniotomy, the ventriculoscopic fee is not payable in addition to the craniotomy fee, unless the ventriculoscopic procedure is done via a separate cranial opening. When a craniotomy is performed as a result of complications arising from a ventriculoscopic procedure, or because of failure of the ventriculoscopic procedure, the ventriculoscopic fee may be billed according to the usual rules in the Fee Guide (i.e., 50%).

NOTES:

i) Uncomplicated pre-natal care usually includes a complete examination followed by monthly visits to 32 weeks, then visits every second week to 36 weeks, and weekly visits thereafter to delivery. In complicated pregnancies, charges for additional visits will be given independent consideration upon written explanation.

(notes continued on next page)

		Non-MSP Insured Fee ($)	Anes. Lev.	MSP & WSBC Fee ($)

ii) Where a patient transfers her total on-going uncomplicated pre-natal care to another physician, the second physician also may charge a complete examination (item 14090) and subsequent examinations, as rendered. To facilitate payment the reason for transfer should be stated with the claim. Temporary substitution of one physician for another during days off, annual vacation, etcetera, should not be considered as a patient transfer.

iii) Other than during pre-natal or post-natal visits, it is proper to charge separately for all visits, (including counseling) for conditions unrelated to the pregnancy under appropriate fee items listed elsewhere. The reason for the charges should be clearly spelled out when submitting claim.

iv) Other than procedures, services for the care of unrelated conditions, during a pre-natal or post-natal visit are included in the pre-natal (14091) or post-natal visit fee (14094), and are not to be billed under fee item 04007. Procedures rendered for unrelated conditions are chargeable as set out in Preamble D. 8. d.

OPHTHALMOLOGY

GUIDELINES FOR BILLING EYE EXAMINATIONS

Guide to Payments under the Medical Services Plan of BC (MSP) for insured services of consultations and eye examinations by ophthalmologists to insured patients as agreed to by the section of Ophthalmology of the Doctors of BC.

1. CONSULTATIONS

a) The definition of a consultation as outlined in D. 2. of the Preamble to the Fee Guide is applicable to ophthalmologists; an ophthalmologic referral is defined as a referral by a medical practitioner or optometrist to an ophthalmologist for a problem beyond refraction.

b) The account from the ophthalmologist to MSP must include the name of the referring medical practitioner, the appropriate diagnosis and/or symptoms.

c) A "no charge" referral will be acceptable to MSP to permit payment of the consultative fee where the referring medical practitioner did not carry out an examination of the patient but he/she indicated definite symptoms of which he/she was aware and which were beyond his/her scope.

d) A consultative fee may be paid to the consultant where a patient is "referred" on a "no charge" basis for an "eye examination" and the consultant in his/her examination finds significant eye pathology, so indicates and completes a written report to the referring medical practitioner. (NOTE: MSP reserves the right to request a copy of the written report to assist in its determination of any specific account.)

e) A consultative fee will not be paid where there is a "no charge" referral and the ophthalmologist does not find significant pathology in his/her examination or he/she does not provide satisfactory information regarding pathology he/she has found.

f) A consultation fee will not be paid if no reference is made to referral received by MSP from the referring medical practitioner, as it will be assumed that no referral was intended.

g) The deliberate seeking of referrals by an ophthalmologist is not condoned. Ophthalmologists who severely limit their practice to one area or areas of ophthalmology and who do not accept patients for routine eye examinations are to be considered as consulting ophthalmologists only. It is the responsibility of such physicians to ensure that referring physicians and patients are aware that they do not accept patients for routine eye examinations; patients would be advised to seek such services elsewhere.

h) It is the responsibility of the ophthalmologist and the referring medical practitioner to make the system work.

2. EYE EXAMINATIONS (ITEM 02015)

a) MSP, by law, includes as insured services, services rendered by a medical practitioner that are medically required by the patient.

b) A specific time frequency will not be used as a guide to evidence of medical requirement for an eye examination; if, in the opinion of the examining doctor, the service was medically required he will submit an account to MSP. MSP will accept the account from the examining doctor as evidence of medical requirement, but the Commission (or peer review committee) reserves the right, in a specific patient pattern of frequency of services, or physician pattern of practice to require additional information to clearly determine any question.

c) Where a patient demands or requests services that are beyond medical requirement in the opinion of the examining doctor, the patient is responsible for payment of such service.

d) Where in the judgement of the attending physician, the service rendered does not warrant the full 02015 fee, a lesser fee may be charged. It should be kept in mind that in non-referred cases, fee Item 02015 should not be used where it is more appropriate for the service rendered to be billed as a general practice office visit.

These fees cannot be correctly interpreted without reference to the Preamble.

ORTHOPAEDICS

PREAMBLE

The following preamble applies to the Orthopaedic fee guide and, if in conflict with, supersedes the general preamble.

1. *** Items - Operation Only**
   Items indicated with an * are operation only items and are exempt from the 14-day in hospital post-operative rule (Preamble D. 5. 2.).

2. **Under general anesthesia or procedural sedation**
   Procedures so indicated are performed in hospital, under general anesthesia or procedural (conscious) sedation.

   Note: The orthopaedic procedure and anesthesia or procedural sedation are not billable by the same physician.

3. **ADULT / PEDIATRIC**
   An adult is an individual over 12 years old.

4. **Harvest of Bone Autograft**
   Bone graft harvested through a separate incision is always charged in full in addition to any other procedural fee(s).

5. **Harvest of Skin Autograft**
   Harvest of skin graft is always paid in full in addition to any other procedural fee(s).

6. **Open (Compound) Fractures**
   Primary wound management fee(s) may be charged in addition to the fracture fee and will be paid at the same percent as applies to the fracture fee(s).

   The Secondary Wound Management fee(s) are exempt from the 14 day rule (Preamble D. 5. 2.).

   Primary and Secondary Wound Management fee(s) are paid for procedures under GA only.

   Primary:
   Management of the soft tissue component of an open fracture - includes wound excision, debridement, irrigation, and implantation of antibiotic beads. Occasionally primary closure/ immediate local tissue transfer/ skin grafting may be included.

   Secondary:
   Repeat primary (as above) at a second sitting or return to the operating room for delayed primary closure/closure with skin graft /local skin flap. Includes removal of beads. Does not include muscle flaps or free flaps. These are billed as such and billed in full.

7. **Fasciotomy Wound Management**
   Fasciotomy wound management fee(s) are for procedures done under general anesthetic and are payable within 14 days of initial procedure.

8. **Casts**
   All casts may be charged in full in addition to the procedure and visit fees except the cast applied at the time of initial procedure. In the minority of cases where application/change of cast is the sole purpose of the visit, a visit fee is not chargeable. Fees for application of casts are payable only when performed by the physician. Multiple casts (i.e., bilateral leg casts) are paid at 100%.

9. **Re-operation**
   The treatment of a fracture and/or dislocation or a reconstructive procedure where remanipulation or (re)operation is required is chargeable in full. It is chargeable by the physician providing the initial service only if it is carried out more than 5 days following the index procedure.

10. **Non-operative Management**
    Non-operative management of injuries not itemized are chargeable on a per visit basis.

These fees cannot be correctly interpreted without reference to the Preamble.

00545	Pediatric Case Conference - a formal, scheduled session/meeting to discuss/plan medical management of patients with serious and complex pediatric problems. Payable only when coordination of care and two-way collaborative conference with community agency representative and/or health care provider is required e.g.: psychologists, counsellors, long-term care case managers, home care or specialty care nurses, physiotherapists, occupational therapists, social workers, specialists in medicine or psychiatry - per 1/4 hour or major portion thereof..	100.00	59.40

NOTES:

i) Patient must be 18 years of age or younger.

ii) For services related to:
   a) psychiatric disorders
   b) developmental disorders
   c) major chronic disease
   d) pre-transplant (concerning donor/recipient assessment)
   e) end of life
   f) multiple medical handicaps

iii) Maximum of one hour may be claimed per patient per day.

iv) Not to exceed a maximum of four hours per patient per year.

v) The case conference must last at least 15 minutes to submit a claim.

vi) The results of the case conference must be recorded in the patient's chart along with the start and end times of the conference, as well as the names and job titles of the other participants at the meeting.

vii) This fee is not payable to physicians who are employed or who are under contract to a facility agency or program (i.e., Ministry of Children and Families' FAS, autism and child abuse or neglect assessments, HEAL, health authorities) who otherwise would have attended the conference as a requirement of their employment with the facility, agency or program.

viii) This fee is payable when the care conference occurs in person or by phone.

(notes continued on next page)

ix) A visit or consult may be payable for the same patient on the same day as a case conference, provided the two items are consecutive, not concurrent, and start and end times are provided for both. A note record must be submitted for consults and patient management conferences occurring on the same day.
x) It may not be claimed unless the pediatrician has a pre-existing relationship with the patient.
xi) If multiple patients are discussed, the billings shall be for consecutive, non-overlapping time periods and services are to be claimed under the PHN of each patient for the specific time period.
xii) Start and end times must be included in time fields.

CRITICAL CARE
Neonatal Intensive Care

Please refer to the Critical Care Section of the Payment Schedule/Guide to Fees for Preamble rules and billing guidelines applicable to appropriate billing of the critical care fees.

These listings may be used for patients receiving neonatal intensive care and are intended for use by the Neonatologist or Pediatrician (or Team) in charge of the patient. These listings may be used by physicians providing direct bedside care to critically ill and unstable patients who are in need of intensive treatment such as ventilatory support, hemodynamic support including vasoactive medications or prolonged resuscitation. They are to be billed only on sick or pre-term infants requiring intensive care. They are also for infants who are more than 28 days old, who have neonatal problems related to prematurity, etc. These listings do not apply to non-ventilated stable patients admitted to a special care unit for routine post-op care. These fees are not for the infant who is stable and only requiring a period of observation. Neither are they for the infant who needs a short course of prophylactic antibiotics. It would be unusual to bill

these fees on an infant whose period of care in the NICU lasted less than 48 hours. Consultation and visit fees would be appropriate.
These neonatal intensive care fees only apply to physicians who are directly involved in the bedside care of patients in the Critical Care Areas. "Preamble to the Payment Schedule/Guide to Fees" applies.

> "C. 18. Guidelines for payment for services by residents and/or interns.
> When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient at the earliest possible moment. No fees shall be charged in the name of the responsible staff physician for services rendered by an intern or resident prior to this identification taking place. Moreover, the responsible staff physician must be in the clinical teaching unit and/or immediately available to intervene (immediately available means on-site)."
>
> "For a medical practitioner who supervises two or more procedures or other services concurrently through the use of residents, interns or other members of the team, total billings must not exceed the amount that a medical practitioner could bill in the same time period in the absence of the other team members."

Included in these daily composite fees are the initial consultation or assessment, subsequent visits and examinations as required in any given day. Also included are: family counseling, emergency resuscitation, insertion of arterial, venous, Swan-Ganz, CVP or urinary catheters, intravenous lines, interpretation of blood gases, insertion of nasogastric tubes, infusion of pharmaceutical agents including TPN, endotracheal intubation and artificial ventilation and all other necessary respiratory support. Exchange transfusion is not included in these fees and not all infants requiring an exchange transfusion are critically ill.

Out-of-office hours call-out charges may still apply for special calls back to the hospital and may be billed in conjunction with a no charge visit. If a patient is discharged from the unit for more than 48 hours and is re-admitted, second day rates again apply. If the patient is re-admitted within 48 hours of discharge, billing continues under fee code billed at discharge, unless acuity level changes. If a patient changes acuity level up or down then the appropriate second day rate applies. A note record is required indicating the change in acuity level. Fee item 00505 (Emergency Visit) may not be billed by the person claiming these fees.

Call-out charges are billable with the neonatal critical care fee items. Historically, these have not been included in the neonatal fees and may be billed separately.

Members of the team billing the Neonatal Guide cannot be receiving other payments (e.g., fees, alternative or sessional payments) for the clinical care of the patient.

PLASTIC SURGERY

Complete understanding of the following paragraphs is essential to appropriate billing of the Plastic Surgery fees, but should be interpreted in the context of the General Preamble.

These listings cannot be correctly interpreted without reference to the Preamble.

Definitions

"Ablation" means destruction of a lesion without excision.

"Advancement flaps" are adjacent tissue transfers based on extensive undermining and layered closure. The medical necessity for a flap or graft occurs when Direct Closure alone would not suffice due to unacceptable wound tension or local distortion. The distances required to be undermined are:

a. 1 cm – nose, ear, eyelid, lip, eyebrow
b. 1.5 cm – other face and neck
c. 3 cm – rest of body

"Complicated blepharoplasty" means skin removal and transgression (and occasional partial excision) of orbicularis oculi muscle, as well as at least one of: manipulation of the orbital septum, removal or repositioning of orbital fat, supratarsal fixation of the pre-tarsal skin to the upper tarsal plate.

"Direct closure" means approximation of wound/skin edges with minimal undermining. Simple ligation of vessels in an open wound is considered included in any wound closure.

"Excision" means a procedure involving removal of skin and/or subcutaneous tissue.

"Functional area" means head, face, neck, shoulder, axilla, elbow, wrist, hand, groin, perineum, knee, ankle, foot and includes coverage of exposed vital structures (bone, tendon, major vessel, nerve).

"Incision" means a simple cut or puncture of skin and/or subcutaneous tissue for the purpose of aspiration, drainage, biopsy or extraction of a foreign body.

"Lesions"

Benign Lesions

Destructive therapies of benign skin lesions are insured services when the treatment is medically necessary. Examples of medical necessity include but are not limited to the following indications:

i) genital warts (condylomata acuminata)
ii) plantar warts
iii) viral induced cutaneous tumors in the immune compromised patient

iv) inflamed dermal and epidermal cyst
v) dysplastic nevi
vi) lentigo maligna
vii) congenital nevi
viii) actinic (solar) keratosis
ix) atypical pigmented nevi
x) painful neurofibromata

The following are not a benefit of MSP, unless there is medically significant pathophysiological dysfunction:

i) excisions for the listed benign skin lesions
ii) benign nevi
iii) seborrheic keratosis
iv) common warts (verrucae)
v) lipomata
vi) uncomplicated benign dermal and/or epidermal cysts
vii) telangiectasias and angiomata of the skin
viii) skin tags
ix) acrochordons
x) fibroepithelial polyps
xi) papillomata
xii) neurofibromata
xiii) dermatofibromata

Premalignant Lesions:

i) dysplastic nevus (nevus with dysplastic features, atypical melanocytic hyperplasia, atypical melanocytic proliferation, atypical lentinginous melanocytic proliferation or premalignant melanosis).
ii) actinic/solar keratosis
iii) chemical and other premalignant keratosis
iv) large cell acanthoma
v) erythroplasia of Queryrat
vi) leukoplakia and other in-situ lesions such as lentigo maligna, melanoma in-situ and Bowen's Disease and squamous cell carcinoma in-situ are considered malignant.
vii) locally invasive tumors are considered malignant lesions.

Cutaneous Malignant lesions:

i) basal cell carcinoma
ii) squamous cell carcinoma
iii) malignant melanoma
iv) lentigo maligna
v) dermatofibrosarcoma protuberans
vi) sebaceous carcinoma
vii) adnexal carcinoma
viii) atypical fibroxanthoma
ix) merkel cell carcinoma
x) eccrine carcinoma
xi) extramammary Paget's disease

“Local Flap closure” means skin and subcutaneous tissue is moved locally to close an adjacent defect

“Minimal undermining” means less than 1 cm on the nose, ear, eyelid, lip; less than 1.5 cm on the rest of the face; or less than 3 cm for the rest of the body.

“Non-functional area” means posterior trunk, anterior trunk, arm (above elbow), forearm (below elbow), thigh, leg (below knee).

“Operation Only,” means listings designated as “operation only,” the in hospital post-operative visits within 14 days post-op may be claimed in addition to the surgical procedure with the exception of the visit(s) made the day of the procedure.

“Rotations, Transpositions, Z-plasties” are the same as advancement flaps with the addition of extra incisions required to create the shape of the flap.

“Simple repair” of an excision means the wound is superficial (i.e. involving primary epidermis or dermis or subcutaneous tissue without significant involvement of deeper structures), and requires direct closure.

“Skin Flaps and Grafts” Unless otherwise noted, these include creation of the defect (debridement of tissue, excision of a lesion) and closure (creation and placement of flap or graft and the care of the donor site). When bone or tendon grafts or inlay grafts are required with skin flaps or grafts, they can be billed in addition.

“Simple blepharoplasty” means simple skin (and possible muscle) removal on the upper lid and involves only skin removal. “Significant blepharochalasia” is defined when the usual field is restricted within 20° of fixation above the horizontal meridian, due to excess upper eyelid skin or brow ptosis.

SUTURE OF LACERATIONS AND MINOR TRAUMATIC WOUNDS

Wounds – Simple, or involving minor debridement of traumatic wounds

These fees apply to closure using tissue glue (included), direct closure with sutures (included) but not flap/graft (bill in flap/graft section for composite fee). For primary excision and direct closure of benign (medically necessary) and pre-malignant or malignant lesions, bill P61310 to P61318. These fee items are intended for linear /stellate wounds. In the case of wider degloving/abrasion, it is appropriate to bill 70155 to 70169 if wound debrided but left open or treated with Vacuum Assisted Closure (VAC).

iii) Injuries involving tissue loss such that simple suture is precluded; or
iv) Wounds requiring tissue shifts for closure aside from minor undermining or advancement flaps; or
v) Skived, ragged or stellate wounds where excision of tissue margins is necessary to obtain 90 degree closure; or
vi) Contaminated wounds that require excision of foreign material, or
vii) Lacerations requiring layered closure <u>and</u> key alignment sutures involving critical margins of the eyelid, nose, lip, oral commissure or ear; or
viii) Lacerations into the subcutaneous tissue requiring alignment <u>and</u> repair of cartilage <u>and</u> layered closure.
ix) A note record indicating how the service meets the above criteria must accompany claims billed under these fee items.

* A layered closure is required when the defect would require too much tension for an acceptable primary closure. It involves at least two layers of deep dissolving sutures to close off dead space and take tension off the wound. A deep cartilage closure is also considered a layered closure.

LESIONS AND SCARS

For medically necessary excision and/or repair of benign, pre-malignant and malignant lesions and scars, by direct closure, and resulting in linear closure:

NOTES:

i) Restricted to Plastic Surgery, Orthopaedics and Otolaryngology.
ii) First paid at 100%, 2nd to 5th – 50%. The maximum payable for benign and pre-malignant lesions is 5 per sitting. If additional (>5) malignant lesions are removed at the same sitting payment will be made at 25% of the listed fee. If more than 10 malignant lesions are removed at the same sitting a copy of the operative and pathology reports is required.
iii) Not paid with excision fees P61320, P61321, P61322.

PS61252	– Volume greater than 60 ml	524.00	3	140.63

NOTES:

i) Lipoaspiration and lipo injection components are paid together at 100%. Subsequent lipo injection procedures to anatomically discrete sites, completed during the same session, are paid at 50%

ii) When performed with another procedure (e.g.: breast reduction, mastopexy) during the same date of service, the surgical preamble rules will apply.

iii) As with other medically necessary procedures for alteration of appearance, pre-approval is required.

iv) These fees are not intended to accompany any liposuction procedures. Lipoaspiration is only to be followed by lipo injection.

v) Restricted to Plastic Surgery.

vi) Aspirate from multiple sites is pooled for a total amount; only one aspirate fee is paid per session, for the aggregate amount.

vii) Volume harvested is the total usable fat cells after processing and does not include the oil or aqueous layers.

REGIONAL MANDIBULO - FACIAL

Guidelines for Compounded Facial Fractures:

1. (a) When fractures of the zygoma, the orbital floor and medial wall are compounded into the sinuses, no additional fee should be paid for these fractures.

   (b) When fractures of the maxilla and mandible involve the dento-alveolar tissues and are compounded, no additional fee should be paid. (This would include fractures into the tooth socket where a tooth is lost, or a fracture into a partially erupted wisdom tooth, or a diastasis to two teeth at the fracture site where the compounding component does not extend further than the dento-alveolar area).

2. Significant external compounding of facial fractures is recognized as a factor which compromises the treatment and possible outcome of patients with these injuries. Treatment of these fractures should be billed at 150% of the pertinent listed fee. Operative notes should accurately describe such an injury to support these billings when submitted to MSP.

3. Fractures of the maxilla and mandible with intraoral compounding beyond the dento-alveolar bone, therefore exposing basal bone, complicates treatment and possible outcome. These injuries should be billed at 150% of the listed fee (e.g., degloving of the maxilla or mandible).

SKIN GRAFTS

Additional procedures, other than skin grafts, are extra; e.g.: bone or tendon grafts, inlay grafts, etc.

NOTES:

1. The medical necessity for a single or multiple flap occurs when a defect cannot be closed by elevating or undermining the edges and suturing subcutaneous tissue and skin. An advancement flap does not qualify for these listings unless the repair involves at least one level of deep sutures and each edge of the lesion is undermined a distance equal to or greater than;
    a. 1 cm – nose, ear, eyelid, lip
    b. 1.5 cm – other face and neck
    c. 3 cm – rest of body

   These listings are only to be used when the dissection meets the criteria above, whether the advancement involves one or both sides of the wound. If the wound can be closed in a straight line, 5 cm or less in length, a tissue advancement flap should not ordinarily be required.
2. When fee items 06020, 06022 or 06024 are done under local anesthesiology, an operative note, and/or diagram or clinical record that describes the procedure may be required by MSP to justify claims.

3. The medical record of the patient must explain the medical necessity for the use of these listings.

4. Fee item 06020 should rarely be used for an excision of tumour of skin or subcutaneous tissue or scar up to five cm when excised under local anesthetic.

PSYCHIATRY

PREAMBLE

1. **Time Units**

Some psychiatry fee item descriptions specify nominal time units of 15/30/45/60 minutes. For these listings to be applicable, the psychiatrist must spend at least 12.5 out of each 15 minutes actually engaged in the designated activity for that fee (i.e., 25 out of 30 minutes, 37.5 out of 45 minutes, 50 out of 60 minutes). The designated activities are:

Psychiatric treatment, family therapy and group psychotherapy:

- actual patient/group contact time;
- billing for individual therapy is permitted for only one person within a specified time frame;
- psychiatric treatment or counselling by telephone is not an insured service; and
- psychoanalysis is not an insured benefit under the Plan.

Patient management conference:

- actual meeting time.

2. **Psychiatric Treatment**

Psychiatric treatment is defined as a series of medical interventions carried out by a psychiatrist trained to treat mental, emotional, and psychosomatic illness through a relationship with the patient in an individual, group, or family setting, utilizing verbal or non-verbal communication with the patient.

Psychiatric treatment always entails continuing medical diagnostic evaluation and responsibility and may be carried out in conjunction with drug and other physical treatments. Psychiatric treatment/group psychotherapy recognizes that the psychological and physical components of an illness are intertwined and that at any point in the disease process psychological symptoms may give rise to, substitute for, or run concurrently with physical symptoms and vice versa.

Family/conjoint therapy and group psychotherapy are defined as psychiatric treatment rendered to a family or other group.

Where a therapy session extends beyond one (1) hour in a day, a written explanation of need is required by the Plan. Typical situations are:

a) patient is from out-of-town;
b) emergency or like situation;
c) extended time required due to nature of clinical problem (explanation needed in each such case); and

d) a particular type of psychiatric therapy is being rendered requiring extended sessions.

Approval from the Plan will be necessary in each such case.

Psychiatric treatment/psychotherapy sessions in excess of two (2) hours in any one week require an explanation of need to the Plan and approval from the Plan in each such case. Typical situations are:

a) patient is from out of town;
b) emergency or like situation;
c) patient in an acute care facility.

3. **Prolonged Time-Intensive Psychiatric Treatment**

The BC Psychiatric Association has adopted the following principle:

Due to the unmet demand for psychiatric services, prolonged time-intensive psychiatric treatment must be provided only to the extent that it is justified and cost-effective in the context of limited psychiatric treatment resources and waiting lists.

4. **Referral For Prolonged Psychiatric Treatment**

1. Continuation of payment of specialist fees beyond six (6) months is dependent on re-referral by a physician. This procedure is required in all specialties and is, in fact, a requirement of the BC Medical Association rather than of the Medical Services Commission who, however, have agreed to accept this as an adequate procedure for ensuring the need for continuing medical care by the specialist.

2. While the judgment concerning the medical necessity of continuation of psychiatric treatment may, in effect, be that of the psychiatrist, the referring physician must concur to ensure continued payment at specialist rates. In practice, it would be advisable for the specialist who sees the need to continue treatment beyond six (6) months to ensure that the referring physician is contacted just prior to that time and to maintain contact with the referring physician's office until he/she is sure that a referral has been sent.

3. Re-referral at the six (6) month interval does not necessarily require a visit by the patient to the referring physician, who can, in effect, send in a "no charge" re-referral. It is obvious; however, that the referring physician must be aware of the need for continuing care by the specialist, and this would be best achieved by the specialist sending the referring physician a written report of his/her treatment, of the present status of the patient and of the prognosis.

4. In cases where confusion is likely to arise; for example, where the patient has changed his/her general physician from the time of the original referral, or when the specialist is unable to ensure that a re-referral is being made, it would be advisable for the specialist to cover the situation by writing directly to the Medical Advisor of MSP concerned, indicating the circumstances and supplying whatever information he/she thinks necessary to ensure continued payment at specialist rates.

5. Rural Retention Program Premium Adjustments

The Rural Retention Program applies a fee premium based on a community's isolation points. This fee premium is adjusted for Psychiatric fee codes by a factor of 1.782.

EMERGENCY CARE

1. 00081 is to be used for the evaluation, diagnosis and treatment of a critically ill patient who requires constant bedside care by the physician.
(continued on next page)

	Non-MSP Insured Fee ($)	Anes. Lev.	MSP & WSBC Fee ($)

2. A critically ill patient may be defined as a patient with an immediately life threatening illness/injury associated with any of the following conditions (which are given as examples):
   (a) Cardiac Arrest;
   (b) Multiple Trauma;
   (c) Acute Respiratory Failure;
   (d) Coma;
   (e) Shock ;
   (f) Cardiac Arrhythmia with hemodynamic compromise;
   (g) Hypothermia; and
   (h) Other immediate life threatening situations.
3. 00081 includes the following procedure items where required: defibrillation, cardioversion, peripheral intravenous lines, arterial blood gases, neogastric tubes with or without lavage and urinary catheters, intubation (as part of a cardiac arrest).
4. 00081 includes the time required for the use and monitoring by the physicians of pharmacologic agents such as inotropic or thrombolytic drugs.
5. All other procedural fee items not specifically listed in #3 above are not included in 00081. Below are listed some of the procedures that are not included and which, therefore, may be billed in addition when rendered. (NOTE: The time required for these procedures should be noted with the claim and deducted from the 00081 time):
   (a) Endotracheal intubation as a separate entity, i.e., not part of a cardiac arrest or followed by an anesthetic
   (b) Cricothyroidotomy
   (c) Venous cutdown
   (d) Arterial catheter
   (e) Diagnostic peritoneal lavage
   (f) Chest tube insertion
   (g) Pacemaker insertion
6. 00081 is not intended for standby time such as waiting for laboratory results, or simple monitoring of the patient.
7. When a consultation fee is charged in addition to 00081, for billing purposes the consultation fee shall constitute the first half hour of the time spent with the patient.

   (continued on next page)

		Non-MSP Insured Fee ($)	Anes. Lev.	MSP & WSBC Fee ($)
8.	When surgery is performed by the same doctor after prolonged emergency care, the surgical fee may be charged in addition to the appropriate emergency care fee.			
9.	When a second or third physician becomes involved in the emergency care of an acutely ill patient requiring continuous bedside care, item 00081 is applicable just as it is to the attending physician who is first on the scene.			
00081	Emergency care, per half hour or major portion thereof	289.00		102.47
00082	Monitoring of critically ill patients (when modification of the care and active intervention is not necessary), per half hour or major portion thereof	143.00		61.46

DIAGNOSTIC RADIOLOGY

These fees cannot be correctly interpreted without reference to the Preamble (Applicable in full for Certified Radiologists).

* Service is payable to Certified Radiologists only.

COLUMN A: This fee only for technical services that include the cost of materials, labour, equipment, general office expenses, etc.

COLUMN B: This fee only for professional services of a certified diagnostic radiologist for supervision, direction and participation in the radiological examination. This includes consultation with the referring physician and rendering of a radiological report.

COLUMN C: This fee for the radiological examination and includes both A and B above, but does not include procedural fees listed separately in the Guide.

NOTE: Payment agencies accept billings under Column C (Total Fee) only.

DIAGNOSTIC RADIOLOGY TELEMETRY

Definition: The electronic transmission of radiological images from one site to another for interpretation.

For diagnostic radiology telemetry services to be considered as benefits under the Medical Services Plan:

- the transmitting and receiving sites must be located within Medical Services Commission approved and Diagnostic Accreditation Program accredited diagnostic facilities;
- the services are rendered to out-patients
- the services are billed in accordance with the Telemetry Billing Guidelines

Telemetry Billing Guidelines:

a) Services must be billed by the facility where the image was taken using the practitioner number of the physician who did the interpretation.

b) Facility number field – the facility number of the diagnostic facility where the image was taken

c) Sub-Facility field – the facility number of the diagnostic facility where the image was interpreted
– zeros if interpreted at the same site where the image was taken

d) Service charges (fee items 01200 – 01202) are only billable when a physician is required to travel from home to hospital in order to perform a telemetry service for an outpatient and when the *MSC Payment Schedule* criteria are met.

e) The original site should ensure that only one interpretation is billed to MSP.

f) In those rare cases when a second radiological opinion is requested by the referring physician, a radiologist may bill for the service using fee item 08628, provided written radiological report is sent to the referring physician.

DIAGNOSTIC ULTRASOUND

Real-time Ultrasound Fees may only be claimed for studies performed when a physician is on site in the diagnostic facility for the purpose of diagnostic ultrasound supervision.

NOTES: Payment agencies accept billings under Column C (Total Fee) only.

DIAGNOSTIC ULTRASOUND TELEMETRY

Definition: The electronic transmission of diagnostic ultrasound images from one site to another for interpretation.

For diagnostic ultrasound telemetry services to be considered as benefits under the Medical Services Plan:

- the transmitting and receiving sites must be located within Medical Services Commission approved and Diagnostic Accreditation Program accredited diagnostic facilities;
- the services are rendered to out-patients
- the services are billed in accordance with the Telemetry Billing Guidelines

Real time ultrasound fees may only be claimed for studies performed by telemetry when

- The facility currently holds a remote site designation from the Medical Services Commission. (Facilities should recognize that once the volume of services justifies full-time radiologist's coverage remote site designation may be removed.); and,
- The use of telemetry will not negatively affect the existing on-site visit; schedules of the radiologists; and,
- The majority of scans will continue to be scheduled when the visiting radiologist is on-site for the purpose of ultrasound supervision.

Telemetry Billing Guidelines:

g) Services must be billed by the facility where the image was taken using the practitioner number of the physician who did the interpretation.

h) Facility number field – the facility number of the diagnostic facility where the image was taken

i) Sub-Facility field – the facility number of the diagnostic facility where the image was interpreted
– zeros if interpreted at the same site where the image was taken

j) Service charges (fee items 01200 – 01202) are only billable when a physician is required to travel from home to hospital in order to perform a telemetry service for an outpatient and when the *MSC Payment Schedule* criteria are met.

k) The original site should ensure that only one interpretation is billed to MSP.

l) In those rare cases when a second radiological opinion is requested by the referring physician, a radiologist may bill for the service using fee item 08628, provided written radiological report is sent to the referring physician.

LABORATORY MEDICINE

These listings cannot be correctly interpreted without reference to the Preamble.

These fee items may not be billed by Laboratory Medicine physicians who are being compensated under a service contract, sessional or salary agreement with a Health Authority for the same period of time in which the consultation/visit service is rendered. Further, no Laboratory Medicine physician who is being compensated under a service contract, sessional or salary agreement for a full time equivalent shall be entitled to bill these fee items. Special authority must be received from Doctors of British Columbia before Medical Services Plan will consider honouring accounts submitted for these fee items.

NON-INSURED ITEMS ONLY

PREAMBLE

The fee schedule addresses the direct service performed and the additional activities involved in the provision of each item. These additional activities include the time spent interacting with technologists and transcriptionists, telephoning other health professionals, attending rounds, conferences and continuing education. These activities do not include the administrative services provided by Anatomic Pathologists to the facilities they serve.

SURGICALS

Categorization Microscopically:
Except for Category I specimens which are submitted to the laboratory for identification and documentation of the type and source of the tissue or material, surgical specimens are ordinarily submitted for histological examination. Consequently, the categorization of specimens in Categories II to VI should be made after microscopic examination. The categorization depends on the final diagnosis and should be determined by the pathologist.

One Fee Per Consultation:
One fee per consultation is the general guide as the majority of consultations represent one specimen and one specimen container. It is traditional to accession all biopsied material from one patient for any day, under one laboratory accession number. When multiple specimens are submitted the following conventions apply:

1. **Multiple specimens from pathologically unrelated sites in one container**. Any number of biopsies that are submitted in one container, and not separately identified by the submitted physician, are interpreted as one specimen and one fee. This would apply to six endoscopic biopsies from the stomach in one specimen container. However, if two skin biopsies were submitted in one container and the history stated "larger lesion right cheek, query melanoma; smaller lesion left temple, query actinic keratosis", these lesions would be treated individually as two distinct specimens and would warrant two billings. (Submitting multiple specimens in this manner is bad practice and should be discouraged).

2. **Multiple specimens from pathologically unrelated sites in separate containers.** Multiple tissue samples submitted in separate containers from separate body sites are regarded as separate specimens and are billed separately. For example, a hysterectomy for fibroids received along with an anterior resection of colon for cancer in separate containers are separately billable items despite the convention of lumping them under one accession number and one report.

3. **Multiple specimens from pathologically identical or closely related sites in separate containers.** Based on the principle that these represent one consultation and in general one disease, these are billed as one fee. When four or more biopsies of Category IV are processed separately, they may be billed as one complex specimen of Category V. This would include multiple needle core biopsies of breast or prostate, multiple skin dysplastic nevi, multiple bronchopulmonary biopsies, multiple gastrointestinal biopsies and multiple

bladder biopsies. Similarly, if a hysterectomy for uterine cancer with one attached adnexa is submitted in one container and the second detached adnexa in a second container, the two specimens are billed as one Category VI item since both adnexae are regarded as components of the radical hysterectomy specimen.

4. **Special histochemical and immunohistochemical stains and immunofluorescence.** Simple histochemical or immunohistochemical stains performed to confirm a histologic diagnosis should not be reflected in the fee (e.g., PAS or Giemsa for skin or GI biopsies). Complex histochemical or immunohistochemical stains requiring extensive pathologic assessment are reflected in the classification of the specimen within the categories below (e.g., AFB and fungal stains for granulomatous lymphadenitis, multiple IHC stains for malignant lymphoma, immunofluorescence and electron microscopy for primary diagnosis of glomerulonephritis).

These listings cannot be interpreted correctly without reference to the Preamble.

* **Does not include technical component.**

CONSULTATIONS

Consultation fees are designed for a formal consultation from an outside laboratory on a case which requires evaluation of clinical information, reading of slides and submission of a formal written report. Procedures that may be required (e.g., special stains) are not included in this professional fee.

FORENSIC TOXICOLOGY

Forensic toxicological testing includes a number of distinct areas: postmortem toxicological testing, human performance drug testing and other forensic drug testing. In all instances, there is a requirement for attention to the legal ramifications such as chain of custody, expert testimony and acceptability of scientific evidence that exceeds that required for clinical practice.

Postmortem Toxicology:

Post mortem toxicological testing usually involves multiple specimens. Testing may involve multiple analytic procedures depending on the direction received from the coroner/pathologist. Consequently, billing is usually per procedure per case rather than per specimen. Legally acceptable criteria for identification usually require substance demonstration by two independent methods.

NUCLEAR MEDICINE PROCEDURES

PREAMBLE

1. A separate fee item for SPECT is not required, since SPECT is included in the scan fee when performed. Fee item 09877 (repeat of major scan) should not be billed for SPECT.

2. When medically necessary, the following items are billable with Nuclear Medicine Listings. A note record is required:
   i) Fee item 00016 (intrathecal medications by injection) is billable with fee item 09886 (cisternography).
   ii) Fee item 00015 (intra-articular medications by injection - tendons, bursae, and all other joints) is billable with fee item 09890 (therapeutic joint injection with isotope).

3. When required for patient care, and the results are not available, laboratory tests such as a pregnancy test or hematology profile may be requested by a Nuclear Medicine Physician, subject to the provisions of the Laboratory Services Payment Schedule.

4. When plain film radiographs are required and not available, these may be requested by a Nuclear Medicine Physician for correlation.

5. Fee item 09866 (Perfusion study [dynamic scan] regional or organ) - this fee item is only billable in addition to the following scans and only when not rendered immediately prior to a scan:
   i) 09824 - Testicular imaging - isolated procedure.
   ii) 09834 - Bone scan (only for indications listed under this fee item).
   iii) 95045 - RBC (Red Blood Cell) liver scan.

6. When it is medically necessary to perform an aspiration in addition to a Nuclear Medicine scan, it is appropriate to bill the applicable joint aspiration fee (e.g., 00757). A note record is required.

7. Fee item 09877 (Repeat of major scan - same day, no additional radionuclide) can only be billed with the following scans if additional (delayed) imaging is performed. Fee item 09877 may not be used for SPECT:
   i) 09806 Parathyroid imaging.
   ii) 09807 MIBG imaging (I131 - metaiodobenzyl-guanidine).
   iii) 09817 Receptor imaging.
   iv) 09826 Tumor imaging.
   v) 09829 Adrenal imaging.
   vi) 09844 Red cell survival study.
   vii) 09867 Brain scan, static.
   viii) 09869 Pancreas scan, static.
   ix) 09886 Cisternography.
   x) 95015 Iodine 131 - whole body scan.

- xi) 95055 Renal imaging with pharmaceuticals (isolated procedure).
- xii) 95060 Renal imaging without pharmaceuticals (isolated procedure).
- xiii) 95065 White blood cell labeled with radioisotope (if views are performed on separate days or 24 hours apart).
- xiv) 09834 Bone scan (only if 24 hour views are performed).
- xv) 09878 Liver clearance of HIDA (biliary scan) (if 24 hour views are performed).
- xvi) 95025 Liver clearance of HIDA with pharmaceutical (if 24 hour views are performed).
- xvii) 09854 Thallium myocardial scan
- xviii) 95053 Thallium Body Imaging

NUCLEAR MEDICINE TELEMETRY

Definition: The electronic transmission of nuclear medicine images from one site to another for interpretation.

For nuclear medicine telemetry services to be considered as benefits under the Medical Services Plan:

- the transmitting and receiving sites must be located within Medical Services Commission approved and Diagnostic Accreditation Program accredited diagnostic facilities;
- the services are rendered to out-patients
- the services are billed in accordance with the Telemetry Billing Guidelines

Telemetry Billing Guidelines:

a) Services must be billed by the facility where the image was taken using the practitioner number of the physician who did the interpretation.

b) Facility number field – the facility number of the diagnostic facility where the image was taken

c) Sub-Facility field – the facility number of the diagnostic facility where the image was interpreted
– zeros if interpreted at the same site where the image was taken

d) Service charges (fee items 01200 – 01202) are only billable when a physician is required to travel from home to hospital in order to perform a telemetry service for an outpatient and when the *MSC Payment Schedule* criteria are met.

e) The original site should ensure that only one interpretation is billed to MSP.

f) In those rare cases when a second radiological opinion is requested by the referring physician, a radiologist may bill for the service using fee item 08628, provided written radiological report is sent to the referring physician.

NOTE:
A session, for the purpose of this agreement, is 3.5 hours of a physician's professional clinical services. A session may be an accumulation of lesser time intervals adding up to 3.5 hours or other amounts of a full quarter of an hour will be recognized.

ON-CALL/AVAILABILITY/CALL-BACK

1. "Call-back" is where a Physician is not on-call but is called in by the Agency to provide a service.

2. Sessional Physicians shall be entitled to on-call/call-back payments in accordance with the Working Agreement.

3. In addition to the payments described above, a Physician will be paid for the services provided while on-call or call-back at the appropriate hourly rate, but for not less than one hour.

WORKSAFE BC

SCHEDULE A
DESCRIPTION OF SERVICES

1.0 INTRODUCTION

1.1 Almost all Workers in BC are covered under the Worker's Compensation Act. WorkSafeBC provides coverage for the treatment of injuries and diseases that it has accepted as work caused. As such, medical services provided to Injured Workers covered and accepted under the Act are not insured by the Medical Services Plan.

1.2 Working with Physicians and employers in the community, WorkSafeBC's goal is to facilitate a safe, timely, and durable return to work for Injured Workers. Prolonged absences from the workplace often result in de-conditioning, a reduced likelihood of recovery, increased pressure on family and personal relationships and a loss of self-esteem, as well as costly uses of health care and social services.

1.3 The issue of causation is important to WorkSafeBC as the Act refers to personal injury, disease or death "arising out of and in the course of employment". Employment factors need not be the sole cause, or even the predominant cause, in order for the injury or disease to be accepted. In order for the injury or occupational disease to be compensable, the employment has to be of 'causative significance', which means it has to be more than a trivial or insignificant cause of the injury or disease.

1.4 To be considered work-related, there must be a fifty-percent (50%) or greater probability that a condition arose out of work. It is not sufficient that it is "possible" that the condition arose out of work.

1.5 Doctors of BC recognizes the Physicians' role in rehabilitating Injured Workers and assisting WorkSafeBC in returning them to work. To this end, where reasonable, Physicians will advise Injured Workers that a safe and timely return to work may hasten their recovery. The concept of "hurt vs. harm" is important in occupational medicine.

1.6 It is not possible to provide a specific diagnosis in every case. It may, however, be possible to exclude serious or progressive conditions that may be worsened by work.

2.0 PHYSICIANS ROLE IN FACILITATING A RETURN TO WORK

2.1 Doctors of BC will encourage Physicians to assist Injured Workers in receiving benefits they are entitled to under the Act.

2.2 Physicians will provide care to Injured Workers under this Agreement and will support the principles of disability management with employers and Injured Workers to optimize recovery and facilitate a safe early return to work.

2.3 Physicians will provide appropriate support and encouragement to Injured Workers in order to facilitate their participation in appropriate rehabilitation programs, provided by employers or by WorkSafeBC, directed at early recovery and return to work.

2.4 Physicians will encourage Workers, with assistance of the Workers' employers, to recognize the evidence based principle that early return to their work or a modified version of their work (Therapeutic Return to Work) offers the most effective route to recovery from many injuries, in particular soft tissue injuries.

2.5 Physicians will endeavor to communicate effectively through established reporting mechanisms, and contact with WorkSafeBC staff and rehabilitation providers, to facilitate exchange of claim related information which is directed at achieving early return to work and providing necessary benefits to Injured Workers.

2.6 Physicians will, if making recommendations for job modification, take into account any detailed fitness assessment and job evaluation information made available to them and recognize that, in order of effectiveness:

1) return to original work with original employer,
2) return to modified work with original employer,
3) return to similar work with another employer,
4) return to modified work within the same industry,
5) are all options which should be beneficially explored before formal retraining to a new occupation is considered?

2.7 In most cases it is advisable for Physicians to limit recommendations they make with respect to suitability to return to other than the original employment, to factual statements about any physical limitations present or recommended restrictions of specific activities which may be necessary pending full recovery.

2.8 The return to work consultation (Fee Code 19950) is described in Schedule A, Article 8.0

3.0 OCCUPATIONAL HEALTH EDUCATION

3.1 WorkSafeBC undertakes to liaise with Doctors of BC regarding occupational health care issues.

3.2 Rehabilitation initiatives will be discussed with Doctors of BC during development, providing Doctors of BC with an opportunity to contribute its expertise.

3.3 Advances in occupational medicine and changes to WorkSafeBC policies and procedures with respect to occupational diseases will be communicated to Doctors of BC in a timely manner.

3.4 WorkSafeBC will raise the profile of occupational medicine and ensure that it is represented in Continuing Medical Education within the Province.

4.0 DOCUMENTATION REQUIRED TO INITIATE AND MANAGE A CLAIM

4.1 A Board Officer determines entitlement and acceptance of a claim. Entitlement decisions are reliant upon the prompt receipt of information in supporting documentation from:

Employer/Worker Information

Separate forms are completed by the employer and Worker.

- **Form 6** - Workers' Application for Compensation
- **Form 6** is completed and signed by the Injured Worker. If this report has not been sent to WorkSafeBC the claim may be suspended and may not be paid. WorkSafeBC provides Physicians with a supply of these forms upon request.
- **Form 7** - Employer Report

Physician Information

- **Form 8** – Physician Report (treating Physician) – first report of injury
- **Form 11** – Progress Report

5.0 ELECTRONIC SERVICE REQUIREMENTS

5.1 Only one (1) Form 8 will be paid on a claim with payment being made to the first received. Any subsequent Form 8 will be paid at a Form 11 rate.

5.2 Any submitted Forms 8 and 11 that are missing mandatory field(s) or are illegible will be rejected without any cost to WorkSafeBC.

5.3 Fees will be reimbursed based on electronic submission or fax transmission and timeliness of receipt from date of service as described in Schedule B.

6.0 MEDICAL TREATMENT - FORMS, REPORTS AND SERVICES

6.1 Current service and submission requirements for Forms 8 and 11 are described at Schedule A – Article 5.0:

Form 8 - First Report of Injury

6.1.1 The Physician of first contact or attending Physician must complete a Form 8 where the Physician suspects the Worker may be disabled beyond the day of injury or if the claim is for a hernia, back condition, shoulder or knee strain/sprain, occupational disease or mental disorder.

6.1.2 The Parties agree that if WorkSafeBC requests a First Report of Injury (Form 8), when a Form 8 was not initially required, and/or a copy of other medical records after a patient is seen, WorkSafeBC will pay Fee Code 19927. The time limit for

the submission of this form and/or medical records is ten (10) business days from the date the request is faxed or telephoned by WorkSafeBC.

6.1.3 WorkSafeBC will reimburse the Physician for a Form 8 and an office visit for the first visit where the Physician suspects the Worker may be disabled beyond the day of injury or if the claim is for a hernia, back condition, shoulder or knee strain/sprain, occupational disease, or mental disorder.

6.1.4 Only one Form 8 shall be paid on a claim, with status paid to the first received not date of service. Any subsequent Form 8 will be paid at a Form 11 rate.

6.1.5 Form 8 shall not be billed by a specialist submitting an expedited consultation.

6.1.6 There will be no payment for forms received after the time limits described in this Agreement in Schedule B.

Form 11 - Progress Report

6.1.7 Follow-up examination visits shall be conducted by the attending Physician as medically necessary, as a result of Worker requirement or at the request of a Board Officer.

6.1.8 Form 11 will only be supplied for a change of medical condition or as an accompaniment to fee codes 19509, 19510, 19511 and 19950. A Form 11 where there is no change in the Worker’s medical condition, treatment plan, or return to work status is not payable unless an interval of at least four (4) weeks has passed since the Physician last billed a Form 11.

6.1.9 Follow-up examination visits will be paid regardless of whether a Form 11 has been submitted.

6.1.10 There will be no payment for forms received after the time limits described in this Agreement as indicated in Schedule B.

7.0 EXPEDITED COMPREHENSIVE CONSULTATION REPORT

7.1 Referrals for Initial and Repeat Expedited Comprehensive Consultations can be made to a Specialist Physician by WorkSafeBC or a referring physician.

7.1.1 Physicians With Areas of Expertise will receive referrals for Initial and Repeat Expedited Comprehensive Consultations only from WorkSafeBC.

7.2 Specialist Physicians and Physicians With Areas of Expertise are entitled to the Expedited Comprehensive Consultation fee if the following criteria are met:

7.2.1 Reporting Timeliness:

7.2.1.1 The Initial Expedited Comprehensive Consultation (includes Trauma and Emergency cases) report must be received by WorkSafeBC within fifteen (15) business days from the referral.

7.2.1.2 Referrals other than the Initial Consultation: The report must be received within fifteen (15) business days of the referral.

7.2.1.3 For any other Consultations: The report must be received within five (5) business days of the consultations.

7.2.1.4 Where following a consultation the physician concludes the Worker is fit to return to work, this information must be received within three (3) days of the consultation.

7.3 Initial Expedited Comprehensive Consultation:

7.3.1 The Physician is entitled to the Initial Expedited Comprehensive Consultation fee for the first consultation on each claim and a new Initial Expedited Comprehensive Consultation when both of the following conditions occur:

7.3.1.1 more than six (6) months lapsed since the physician last saw the Worker; **and**

7.3.1.2 the consultation is as a result of a new referral.

7.3.2 Where the consultation occurs as a result of an emergency (e.g. trauma), the Specialist is entitled to receive the Initial Expedited Comprehensive Consultation fee.

7.4 Repeat Expedited Comprehensive Consultation: The Physician is entitled to the Repeat Expedited Comprehensive Consultation fee for one (1) repeat consultation when the repeat consultation occurs within twelve (12) weeks of the first Consultation following the referral. Any other repeat consultation is not entitled to expedited fees.

7.4.1 In the case of a post-operative consultation, that follow up visit and report are to be invoiced as the post-operative consultation service as described in Fee Schedule B, using fee code 19931. The post-operative consultation is not considered a Repeat Expedited Comprehensive Consultation.

7.5 For expedited consultative services, only Specialists providing services within WorkSafeBC designated Visiting Specialist Clinic (the “VSC”) site(s) are able to bill sessionally; all others must bill fee-for-service for expedited consultation services.

7.6 Expedited consultations requiring diagnostic investigations will be expedited using WorkSafeBC services as required.

7.7 The Fees include the physical examination and report. No other report fees may be billed in addition.

7.8 Standards for reporting for an expedited comprehensive consultation shall contain the following core information:

- Purpose of examination;
- Nature of injury;

- Present complaints;
- Objective findings;
- Diagnosis or differential diagnosis;
- It is not possible to provide a specific diagnosis in every case. It may, however be possible to exclude serious or progressive conditions that may be worsened by work.
- Information regarding causation including risk factors other than work; and
- Recommendations regarding work restrictions as related to the work injury/disease.

7.9 If the report is found to be deficient in one of the core areas of information, WorkSafeBC shall return the report to the Physician promptly (within five business days of receipt) identifying the area(s) of deficiency. The Physician shall supply the deficient information within five (5) business days of WorkSafeBC's request.

7.10 WorkSafeBC reserves the right to discontinue payment for reports that do not meet WorkSafeBC requirements and standards and shall inform the Physician in writing of any decision to discontinue such payments.

8.0 RETURN TO WORK CONSULTATION (FEE CODE 19950)

8.1 A return to work consultation, to facilitate a safe, early return to work, may be billed under Fee Code 19950 on Fee Schedule B. The services compensated for by this Fee Code are for the express purpose of facilitating an early return to work through identification of suitable modified, gradual or transitional return to work opportunities in conjunction with the employer, taking into account the functional limitations of the Injured Worker, the nature of the Injured Worker's regular work and available alternatives in his/her workplace.

8.2 The consultation may be initiated by a Board Officer or delegate, Board Physician, employer or treating Physician. The steps included in the return to work plan are as follows:

8.2.1 Contact with WorkSafeBC Officer (may include Nurse Advisor, Vocational Rehabilitation Consultant, Medical Advisor or Claims Officer) by treating physician to initiate process and to obtain the employer's contact information.

8.2.2 Discussion between treating Physician and employer, or employer representative including discussion of the return to work plan.

8.2.3 Follow up with Injured Worker to discuss return to work plan.

8.2.4 A WorkSafeBC Nurse Advisor may coordinate, facilitate and document a return to work consultation between the physician, a WorkSafeBC representative and the employer.

8.3 Consultation and return to work plan must be documented and submitted on a Form 11.

8.4 In the event of an unsuccessful return to a modified, gradual or transitional return to work after this, one further consultation cycle may be approved by a WorkSafeBC Officer. This further consultation will be invoiced as Fee Code 19950.

8.5 This Fee Code includes visit and phone calls related to the direct evaluation and reporting in order to complete the return to work plan. A Form 11 is billable in addition to fee code 19950.

9.0 DISALLOWED/ SUSPENDED CASES

9.1 Where a claim for medical treatment is disallowed or suspended by WorkSafeBC, WorkSafeBC shall notify all attending/consulting Physicians in writing or electronically within three (3) days of such decision.

9.2 WorkSafeBC will pay for all accepted reports in respect of disallowed or suspended claims submitted by Physicians, up until the time the Physician is informed that the claim has been disallowed or suspended.

9.3 To avoid a possible suspension of a claim, Physicians' offices will be supplied with Forms 6 on request.

9.4 Interest will be paid in accordance with Article 7.8 on outstanding accounts pertaining to disallowed or suspended claims up to the time that the Physician is notified.

10.0 ACCOUNTS INITIALLY REJECTED BUT FOUND TO BE WORKSAFEBC RESPONSIBILITY (FEE CODE 19952)

10.1 Fee Code 19952, on Fee Schedule B, will be billable as an additional charge, upon resubmission, for an account submitted and initially rejected for payment by WorkSafeBC for one of the following reasons:

10.1.1 WorkSafeBC entitlement decision was delayed beyond twenty-two (22) days from date of injury for reasons unrelated to the Physician services provided;

10.1.2 Due to data entry errors in the original submission that were determined to be the responsibility of WorkSafeBC;

10.1.3 Due to incorrect application of payment rules by WorkSafeBC;

10.1.4 Any other reasons that are the fault of WorkSafeBC; or,

10.1.5 When WorkSafeBC has failed to provide notice in writing (including fax transmission) within seventy-two (72) hours of a decision to close, disallow or suspend a claim. Note: WorkSafeBC cannot be responsible for notification to consultants for services under this provision when documentation provided to WorkSafeBC does not identify the specialist.

10.2 It is the responsibility of the Physician to identify this claim and the reasons for it. Once such a claim has been filed WorkSafeBC will manually adjudicate it and, if necessary, it will be referred to the fee payment dispute resolution procedures of the Agreement for final resolution.

SCHEDULE C SERVICES PROVIDED TO WORKSAFEBC ON A SESSIONAL AND EXPEDITED BASIS

1.0 SESSIONAL SERVICES

1.1 WorkSafeBC will seek appropriate solutions to address specific service needs under which WorkSafeBC will enter into agreements with individual Physicians to provide services to WorkSafeBC on a sessional basis.

1.2 WorkSafeBC has the sole responsibility to determine the programs, location, number and type of service arrangements according to caseload needs and to varying regional conditions affecting care.

1.3 The programs in number and scope shall be sufficient to meet the needs as determined by WorkSafeBC and notwithstanding Article 1.8 of Schedule C, Sessional Services agreed upon during negotiations for this Agreement with respect to Physicians, may include only non fee-for-service funding arrangements and individual contracts for services.

1.4 The specific terms and conditions for the provision of the services shall be described in the individual contract(s) between WorkSafeBC and the individual Physician or group of Physicians who are providing the service(s). Any Sessional Agreements entered into shall equal or exceed fee-for-service payment levels for comparable services delivered in similar settings.

1.5 Individual service contracts, while similar in detail, do not constitute identification of a group of Physicians.

1.6 The format, language, and content of individual agreements will be consistent with standard WorkSafeBC contracts.

1.7 Individual contracts must contain the following standard WorkSafeBC terms and conditions:

- A statement the individual contract is subject to the terms and conditions contained in this Agreement;
- Names and contact information for the Parties to the contract;
- The term of the contract, including any renewal option;
- Statement of services to be provided (by whom, where and when);
- Terms of payment and invoicing;
- A provision requiring WorkSafeBC, when it is defending against an action involving the contracted Physician, to take into consideration, and to take appropriate steps, to avoid any adverse impact on the professional status or reputation of the Physician(s) involved by its decision with respect to settlement;
- Language incorporating WorkSafeBC's policies and processes with respect to confidentiality and the *Freedom of Information and Protection of Privacy Act*, records and audit rights, technology and data requirements, criminal records check, conflict

of interest and harassment, right of set-off, occupational health and safety, threats and hazards, registration and assessment with WorkSafeBC, compliance with laws and regulations, insurance requirements, indemnification, force majeure, independence, assignment, scheduling, standards of conduct, dispute resolution, general notice, termination, laws, headings, singular/plural, survivability, severability, entire agreement, corporate ethics statement and a confidentiality agreement, privacy protection schedule;

1.8 WorkSafeBC shall pay the Physician a sessional rate based upon three and a half (3.5) hours per session, according to the WorkSafeBC-Doctors of BC Agreement in effect at the time the Physician provides Services. Each three and a half (3.5) hour session shall not include any breaks or meal periods.

1.9 For services provided that are greater or less than a 3.5 hour session, WorkSafeBC shall pay the Physician the prorated session rate to the nearest thirty (30) minutes for the actual period of time the Physician provides the services.

1.10 For services that are pre-arranged and agreed upon with a Physician prior to the scheduled sessions, WorkSafeBC shall pay the Physician the prorated session rate to the nearest thirty (30) minutes for the actual period of time the Physician provides the services.

1.11 Medical Advisors shall not deviate from the three and a half (3.5) hour session without prior approval from their direct report at WorkSafeBC. Upon approval, prorating detailed in Article 1.09 and 1.10 of Schedule C shall apply.

2.0 MEDICAL ADVISORS

2.1 WorkSafeBC will exercise its sole discretion in identification of the number and nature of Medical Advisor assignments.

2.2 Refer to Schedule E – Fee Schedule for Medical Advisors for the rate for Medical Advisors.

2.3 WorkSafeBC will determine the rate available for individual agreements with due consideration as to individual qualifications and the nature of the assignment of Medical Advisor services.

3.0 EXPEDITED SERVICES

3.1 <u>**Scope of Services**</u>

3.1.1 There are circumstances under which WorkSafeBC will enter into Sessional Agreements with individual Physicians that may include but not be limited to surgical, anaesthetic, diagnostic and medical services.

3.1.2 For those Physicians providing consultation and procedures to Injured Workers on an expedited basis (i.e. “visiting specialists”) rates may, with the

prior approval of WorkSafeBC, be “blended” in response to a combination of procedural and consulting services within one (1) sessional period.

3.1.3 Expedited surgical fees will be available to all interested community Physicians/surgeons. Non-VSC individuals will not be required to enter into an agreement with WorkSafeBC. They will however need to identify themselves and participate in the business processes so they can be educated in program parameters/requirements around documentation, billings and payment.

3.1.4 No additional surgical/consult fees will be levied to any WorkSafeBC Injured Workers during this Agreement.

3.1.5 For expedited consultation services, only Specialists providing services within WorkSafeBC designated VSC site(s) are able to bill sessionally; all others must bill fee-for-service for expedited consultation services.

3.2 Expedited Consultation Service Fees

3.2.1 Refer to Schedule D – Fee Schedule for Expedited Services, Article 1.0, for the expedited consultation sessional rate for VSC.

3.2.2 Refer to Schedule B – Fee Schedule for WorkSafeBC Unique Fees and Form Fees for the expedited consultation rate for non VSC Physicians.

3.2.3 Expedited consultation sessional payments for VSC Specialists shall be processed in the current WorkSafeBC format.

3.3 Expedited Surgical Service Requirements and Fees

3.3.1 Refer to Schedule D – Fee Schedule for Expedited Services, Article 2.0 for the expedited surgical procedural rate.

3.3.2 All expedited surgical procedures, with the exception of extensive spinal surgery, shall be compensated on a block billing basis and billed through Teleplan using a billing model consisting of two fee codes per surgery performed:

a) The appropriate MSP surgical fee code; and
b) A time based fee code as described in Fee Schedule D, Article 2.0 and listed by Fee Codes:
Level 1 (surgery time up to 1.5 hours)
Level 2 (surgery time 1.51 to 2.0 hours)
Level 3 (surgery time 2.01 to 2.5 hours)
Level 4 (surgery time 2.51 to 3.0 hours)
Level 5 (surgery time 3.01 to 3.5 hours)
Level 6 (surgery time 3.51 to 5.99 hours)
Level 7 (surgery time 6.00 hours plus)

3.3.2.1. **NEW MODEL FOR EXPEDITED SURGICAL PROCEDURES:** The Parties agree to transition to a new model for expedited surgical procedures as referenced in Appendix B – Memorandum of Agreement. The current model shall remain in effect from April 1, 2014, until an implementation date for the new model has been identified. This implementation date may be adjusted by mutual agreement of the Parties.

- The new model shall incorporate applicable fee schedule increases. Effective thirty (30) days from the date of the system changes required, the applicable MSP surgical procedure fees shall receive a one hundred and ninety-four percent (194%) increase;
- The one hundred and ninety-four percent (194%) premium shall be automatically applied to payments only for surgeries that meet the expedited surgical timelines.
- With this new model Physicians may bill for multiple procedures that are consistent with the current practice of MSP billing for surgical procedure fee codes in the public system;
- The Parties agree that fee codes 19500 through 19506 shall be deleted upon implementation of the new expedited surgical model.

3.3.3 All surgical procedures that are performed on WorkSafeBC clients will be billable at the expedited procedural rate provided that:

- The prescribed Authorization for Surgery Form (Form 83D6 – Authorization Request for Surgery) is submitted within five (5) business days following WorkSafeBC's receipt of the comprehensive consultation report recommending expedited surgery.
- Expedited surgery is performed within twenty (20) business days from the date of the last consultation. Where it is not possible to schedule a surgery within the twenty (20) business days, the surgeon may seek approval from Health Care Services to extend the time frame in order to ensure that the surgery will be performed on an expedited basis and will be billable as such, if approved.

3.3.4 Procedures performed outside the limitation period as specified in Article 3.3.3 of Schedule C will only be billed at the MSP surgical fee code rates, unless the Health Care Services Program Manager determines otherwise.

3.3.5 Any surgery delayed due to the lack of return of the claims Authorization for Surgery form by WorkSafeBC may be directed to the Health Care Services Program Manager for adjudication of the expedited fee.

3.3.6 Only the first three (3) elective surgeries per patient will be considered for expedited payment per each surgeon. This applies only to repeat surgeries performed on the same site. Any subsequent surgical consideration for additional surgery requires a second opinion by a Richmond VSC Specialist and further surgery will require authorization from the Health Care Services Program Manager.

3.3.7 Expedited payment may be extended beyond the first three elective procedures for multiple non-emergent reconstructive procedures (both surgical and anesthesia services) when the following process occurs:

- A letter is submitted providing early identification of the complexity by outlining the patient details, volume and proposed procedures, and timeline to completion;
- A Surgical Authorization form is directed to the Claims Officer for entitlement approval; and

- A letter is directed to the Health Care Services Program Manager for payment approval and system activation.

3.3.8 Referrals for surgery from Family Physicians and not WorkSafeBC, must first be approved by WorkSafeBC. In that case WorkSafeBC approval will initiate the start date for calculating the number of business days till surgery. Refer to Article 3.3.3 of Schedule C for service timeliness requirements.

3.3.9 Expedited consultations requiring diagnostic investigations will be expedited using WorkSafeBC services as required.

3.3.10 The operative report must be received within twenty (20) business days of the date of surgery, and is a requirement for WorkSafeBC to process payment.

3.3.11 All appropriate out-of-office hour service and surcharges (as per MSP Guide to Fees) will apply to expedited billing payments.

3.3.12 For surgery scheduled in public facilities the surgeon will not displace a booked non-WorkSafeBC patient in order to comply with the business day limit constraint for expedited rates. Any surgeon found violating this principle would be excluded from this Agreement.

3.4 **Anaesthesia Expedited Fees**

3.4.1 Refer to Schedule D – Fee Schedule for Expedited Services, Article 3.0 for the procedural anaesthesiology rate. These fees shall be billed through Teleplan, except for Extensive Spine Surgery anaesthesia.

3.4.2 All expedited anesthesiology procedural services, with the exception of Extensive Spine Surgery and expedited chronic pain management services nerve blocks provided by anaesthesiologists under a personal services agreement shall be billed through Teleplan using a billing model consisting of two fee codes per surgery performed:

a) The appropriate MSP anesthesiology surgical fee code; and
b) A time based fee code as described in Fee Schedule D, Article 3.0.

3.4.3 WorkSafeBC shall pay expedited rates when an Anesthesiologist provides anaesthetic for an Injured Worker undergoing expedited surgery and the surgical procedure meets the timeline requirements in Article 3.3.3 of Schedule C. Otherwise, the anesthesiology services must be billed at the MSP anesthesiology code rates only, unless the Health Care Services Program Manager determines otherwise.

3.4.4 Anaesthesia consultations must be billed fee-for-service (Fee Code 19934). The consultative report shall be comprehensive.

3.4.5 The anaesthetic time includes a pre-operative assessment, as well as the time from induction until the Anaesthesiologist is no longer in attendance and the Injured Worker can be safely discharged for the postanesthetic recovery (PAR). If the pre-operative and PAR times are significantly longer than fifteen (15) minutes, respectively, or a total of thirty (30) minutes then an explanatory note shall accompany the record of anesthesia.

3.4.6 The Anaesthesiologist will provide the Record of Anaesthesia, and is a requirement for WorkSafeBC to process payment.

3.4.7 Notwithstanding the above, WorkSafeBC will pay only once for each surgical procedure except when the Injured Worker's care warrants the attendance of more than one Anaesthesiologist. The Anaesthesiologist must support the

need with written statements to WorkSafeBC explaining why there was a medical requirement to have two (2) in attendance.

3.4.8 The Anaesthesiologist’s fee covers all services rendered by the Anaesthesiologist during the procedure.

3.4.9 Except for life or limb threatening circumstances, an Anaesthesiologist may not bill for two (2) patients during the same time period. The Anaesthesiologist must support the need with a written statement to WorkSafeBC providing explanation as to the medical requirement for the circumstance.

3.4.10 Anaesthesiologists operating under a personal services agreement with WorkSafeBC for the provision of Expedited Chronic Pain Management services, at the request of WorkSafeBC, shall be compensated at a rate which is at least equivalent to the Anesthesiology expedited procedural rate.

3.5 **Surgical Assist Fees**

3.5.1 Refer to Schedule D – Fee Schedule for Expedited Services, Article 4.0, for the expedited surgical assist rate. These fees shall be billed through Teleplan, except for Extensive Spine Surgery surgical assist.

3.5.2 A list of procedures which WorkSafeBC approves for a Surgical Assist shall be maintained and posted on the WorkSafeBC internet site. If a procedure is not listed, the Physician must contact the Health Care Services Department for prior approval.

3.5.3 Surgical Assists are to be billed electronically through Teleplan and at the rates outlined in Schedule D Article 4.0. The Surgical Assists will invoice the applicable MSP surgical assist (related to procedure) fee code plus the applicable time-based WorkSafeBC fee code for one of the following levels:
Level 1 (surgery time up to 1.5 hours)
Level 2 (surgery time 1.51 to 2.0 hours)
Level 3 (surgery time 2.01 to 2.5 hours)
Level 4 (surgery time 2.51 to 3.0 hours)
Level 5 (surgery time 3.01 to 3.5 hours)
Level 6 (surgery time 3.51 to 5.99 hours)
Level 7 (surgery time 6.00 hours plus)

3.6 **Expedited Extensive Spinal Surgery Fees**

3.6.1 These fees are designed for surgeons performing difficult and extensive spinal procedures requiring stabilization or multilevel procedures or revisions discectomy (one level index discectomy is not meant to be covered by these fees).

3.6.2 Pre-approval by WorkSafeBC is required.

3.6.3 The business day limitations at Article 3.3.3 of Schedule C are waived for these services.

3.6.4 Refer to Schedule D – Fee Schedule for Expedited Services, Article 2.0, for the extensive spine surgical rates.

SPECIALIST SERVICES COMMITTEE (SSC) INITIATED LISTINGS

The following Specialist Services Committee (SSC) fee items are available to BC specialist physicians who are a certificant or fellow of the Royal College of Physicians and Surgeons of Canada.

The objective of the SSC fees is to facilitate improved care for patients by avoiding unnecessary face to face encounters, being seen by the most appropriate physician, and receiving faster access to specialist advice and addressing care gaps.

1. G10001, G10002, G10003, G10004 please refer to section D-1 (Telehealth) of the General Preamble.

2. G10002, G10004, G10005 A non-exclusive list of allied health providers and coordinators of the patient's care are included below:

   Nurses, Nurse Practitioners, Mental Health Workers, Dieticians, Physiotherapists, Occupational Therapists, School counsellors, Pharmacist, Social worker, Substance use worker, Patient navigators, audiologist, Psychologist, Physiologist, Kinesiologist, Optometrist, Orthotist, Orthoptist, Perfusionist, Respiratory therapist, Speech-Language pathologist, Home Care Coordinator, Educators, Midwives, Long-term care coordinators/managers, Registered Counsellor, Prosthetist, Behavior interventionist, Behavior consultant, All other registered and regulated professionals.

3. Electronic communication as part of patient care must ensure that security and patient confidentiality are maintained and guarded in the same way that paper records are protected. The Canadian Medical Protective Association (CMPA) and the College of Physicians and Surgeons of British Columbia (CPSBC) recommendations regarding the use of electronic communications indicate:

   - Three major areas of potential liability:
     - Confidentiality/privacy/security
     - Timeliness of Response
     - Clarity of Communication
   - Physician should document consent, preferably written. Obtain express and informed consent before transmitting patient information electronically. Refer to the CMPA Template for consent to use electronic communications: https://www.cmpa-acpm.ca/
   - Physician should document discussion & advice for all manners of communication. The email record should be included in the patient record.
   - Consider sensitivity before emailing (e.g. Ca Dx). Develop clear, written policies around use of e-mail in your practice and ensure they are consistently followed.
   - Communication between providers should clearly identify the MRP (most responsible physician).
   - Confidential & sensitive information should be encrypted as an attachment or at a minimum, password protected. Send password or cryptographic key separately.

- Physicians are encouraged to use secure communication modalities (i.e. health authority email addresses) if possible.
- Email addresses need to be double checked.

4. SSC fees are not eligible for communication by text/short message service (SMS) modality.

5. SSC fees are not payable to physicians for services provided within time periods when working under salary, service contract or sessional arrangement.

6. G10001, G10002, G10005 may not be delegated to resident physicians.

7. No claim may be made where communication or service is with a proxy for the physician.

8. SSC fees are not payable for situations where the sole purpose of the communication is to:
   a) book an appointment
   b) arrange for transfer of care that occurs within 24 hours
   c) arrange for an expedited consultation or procedure within 24 hours
   d) arrange for laboratory or diagnostic investigations
   e) inform the referring physician of results of diagnostic investigations
   f) arrange a hospital bed for the patient
   g) renew prescriptions with a pharmacist

9. The SSC reserves the right to reduce, suspend or cancel these fee items.

10. Out-of-Office Hours Premiums may not be claimed in addition to SSC fees.

11. G10001, G10002, G10004 and G10005 are not payable to the same patient on the same date of service if adult and pediatric critical care team fees have been paid by any practitioner/same site.

Fees will be monitored to ensure that the overall expenditures do not exceed the funds available. Changes may be made to the fees to ensure financial accountability and effectiveness.

SPECIALIST GROUP MEDICAL VISITS

Referred Cases

A Group Medical Visit provides medical care in a group setting. A requirement of a GMV is a 1;1 interaction between each patient and the attending physician. Because this is a time based fee, concurrent billing for other services during the time of the GMV is not permitted. The physician must be physically present at the GMV for the majority of each time interval billed. While portions of the GMV may be delegated to a non-physician staff member the specialist must be present for a majority of the GMV and assumes clinical responsibility for the patients in attendance.

Group Medical Visits are an effective way of leveraging existing resources; simultaneously improving quality of care and health outcomes, increasing patient access to care and reducing costs. Group Medical Visits can offer patients an additional health care choice, provide them support from other patients and improve the patient-physician interaction. Physicians can also benefit by reducing the need to repeat the same information many times and free up time for other patients. Appropriate patient privacy is always maintained and typically these benefits result in improved satisfaction for both patients and physicians.

(continued on next page)

		Non-MSP Insured Fee ($)	MSP Fee ($)
	The Group Medical Visit is not appropriate for advice relating to a single patient. It applies only when all members of the group are receiving medically required treatment (i.e. each member of the group is a patient). The Group Medical Visits are not intended for activities related to attempting to persuade a patient to alter diet or other lifestyle behavioural patterns other than in the context of the individual medical condition.

ADVANCE CARE PLANNING

Advance Care Planning is when a capable adult thinks about and discusses their beliefs, values and wishes for future health care, in the event the adult becomes incapable of making such decisions in the future. The adult may have advance care planning discussions with close family or trusted friends and health care providers. When an adult’s wishes or instructions for advance care planning are written down, they become an Advance Care Plan.
