GET SCREENED

NO FAMILY DOCTOR OR NURSE PRACTITIONER NEEDED.

There are several ways to access cancer screening when you do not have a family doctor or nurse practitioner.

For cervical cancer screening, request a cervix self-screening kit from BC Cancer directly.

For Breast, Colon and Lung Cancer Screening:

- Avee Health (Register & Book Online)
- Rocket Doctor (Call 1.867.670.2273 or Book Online)
- Telus Health My Care (Download the App to Book)
- WL Urgent Primary Care Centre (47 Cameron St, WL, in person)
- *100 Mile House Mall Walk in Clinic* (Call 250.395.4010 or Book Online)

Listed for information only; service availability may vary.

All of these screening options are:

- Free under MSP for eligible BC residents
- Available based on individual screening eligibility criteria (generally ranges between ages 25-74 depending on the screening type)

What to Expect

- Book an appointment and ask what cancer screening you may be eligible for. The provider will assess your eligibility, connect you with appropriate screening services, and guide any next steps.

More Resources:

- See additional Primary Care Resources for the Cariboo Chilcotin and register for a doctor or nurse practitioner.
- Look for resources on Community Pathways.
