

THE OCEANSIDE PCN CHECK UP

November 2024

Issue 1 Volume 1

Welcome

Welcome to our community! We're thrilled to have new GPs and NPs joining our team. Your expertise is a valuable addition as we work together to deliver high-quality, patient-centered care. We look forward to supporting your practice and collaborating to enhance the health of our community. Here's to a successful journey ahead!

NP. M. Tait Dr. E. Aasman
Dr. N. Ingram Dr. K. Losch
Dr. R. Tremblay Dr. C. Desai
Dr. N. Badmus

Nurse in Practice Allocation

The Nurse in Practice role provides crucial support for our patients, especially in the areas of chronic disease management and preventative care.

With Dr. Ingram and Dr. Tremblay's application approved, they'll now be working towards ensuring a more comprehensive approach to patient care.

Island Health is currently seeking an RN to fill this role—if you or someone you know is interested, please have them reach out.

MOA Corner TIP of the Month

MYLE EMR Tip:

Automate Patient Reminders

Reduce no-shows and improve patient adherence with MYLE's automated reminder system. Set up recurring reminders for appointments, tests, or vaccinations—customizable via SMS or email. Schedule reminders 24-48 hours before the appointment for a smoother experience for both patients and staff.

Need help setting this up:

Go to your help or support section in your MYLE account or access the help pages for step-by-step instructions

MedAccess EMR Tip:

Streamline Appointment Reminders

Did you know MedAccess offers automatic appointment reminders to help reduce no-shows and keep patients engaged with their care? You can easily set up automated reminders via SMS or email, customizable with appointment details like time, location, and provider name. These reminders can be sent out in advance (e.g., 1-2 days before) and can be set up for recurring appointments or follow-ups. By utilizing this feature, your clinic can ensure better patient compliance and save valuable time on follow-up calls.

Check with MedAccess support to enable automatic reminders for your clinic today!
