

FEBRUARY 2019

Welcome Dr. Nevkeet Toor

Dr. Toor recently started his practice at Lark Medical in Tsawwassen. Nevkeet grew up in Surrey and completed a BSc in Biochemistry at UBC, his MD at Saba University in the Dutch Caribbean and his residency at UCSF in Fresno, California. He will provide much needed full-scope family practice.

Medical Imaging – Delta Hospital

Imaging staff would like to remind physicians to use the correct requisition forms when ordering tests. If applicable to your patient, you may write “All imaging done at DH” to enable Imaging staff to view all tests. In this case, it is not necessary to date the requisition, however, if tests were performed outside of Delta Hospital, the date needs to be included on the form.

Changes to Delta Laboratory Outpatient Hours

Effective Thursday, February 15, hours will be Monday-Friday 07:30am to 3:30pm Saturday, Sunday and STAT Holidays – Closed. This will allow the lab staff to support the increased workload at Delta hospital and staff the Outpatient area appropriately to provide better service to our patients.

Maternity Care Workshop - Hot Topics in the First Year of Life

For Family Physicians Who Don't Do Deliveries

CME Accreditation: Up to 6 Mainpro+ from CFPC of Canada

Pathways Reminder

The Pathways Community Services platform is a great tool to find and print resources for your patients. To watch a short video and get an overview of this Pathway feature and how to access it, go to

Patient Wait List

The Division is connecting with registrants to confirm whether they still require a family physician and to update contact information. This will help streamline the process for clinic staff when they take a list of names for attachment as well as give an indicator of the number of people looking for a FP. Thanks to physicians and MOAs who have assisted in attaching 4,700+ South Delta residents. If physicians are able to attach, please email Judith for a list of names: delta@divisionsbc.ca.
