Net loss/gain	-15	+5	+2	-10

-18 

Total # of Primary Care
Provider losses since
PCN inception

-4 

Primary Care
Provider losses in P3.

**The data on provider losses (see table to the left) has been adjusted to accurately reflect leaves within the FNW communities*

The Impact of Providers Leaving Community

"it's beginning to feel a bit hopeless being a youngish doc in this area and seeing/hearing all the docs retiring or planning too soon. It's causing me some panic too about the state of things moving forward. Although I already feel overwhelmed and overworked, I feel like I need to find a way to be part of the solution to this. If you could let me know who I could speak with about finding a way to be involved, I'd appreciate it."

Patient Attachment, Waitlist & Average Wait Times

10,469

Total # of people on
the waitlist in P3.

FP and NP Contracts

	Running Total of Referrals since PCN Launch	# of signed contracts
FP	109	1 Current PCN contracts: 14
NP	49	0 Current PCN contracts: 12

The Impact of Unattachment on Patients

A patient is seeking an alternative primary care provider to access medication for their health condition. This reflects the importance of having a primary care provider that is readily available and easily accessible to monitor ongoing health needs.
