

# Fraser Northwest Primary Care Network

## Highlights: Period 5 (P5)

### Total Provider Adds & Losses

	2019	2020	2021	2022
<b>Provider Adds</b>	12	18	18	13
<b>Provider Losses</b>	27	13	16	7
<b>Net loss/gain</b>	-15	+5	+2	-4

**- 12** Total # of Primary Care Provider losses since PCN inception

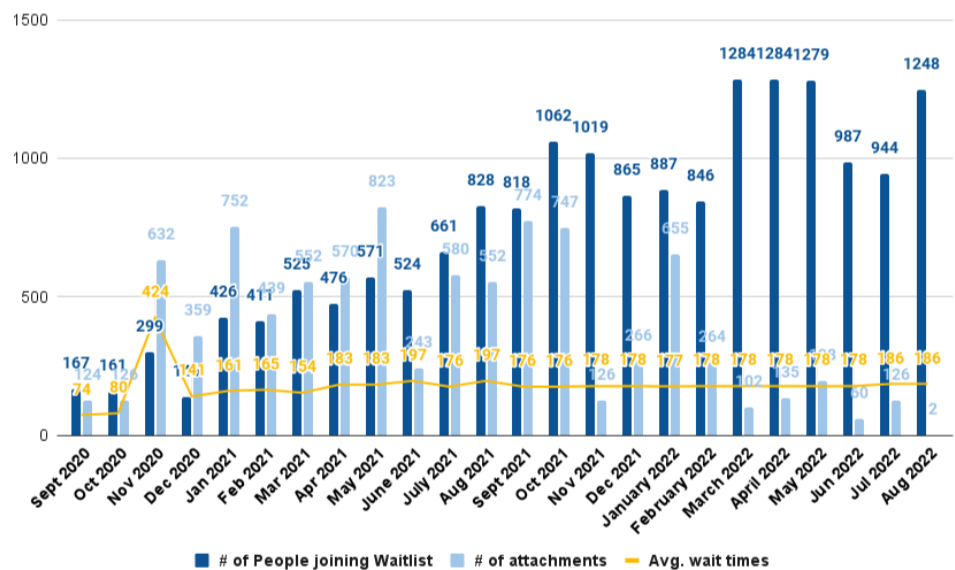

**12,311** Total # of people on the waitlist in P5

**Note:** The data on provider losses (see table above) has been adjusted to accurately reflect the leaves within the FNW communities

### Patient Attachment Waitlist & Average Wait Times

“it’s beginning to feel a bit hopeless being a youngish doc in this area and seeing/hearing all the docs retiring or planning too soon. It’s causing me some panic too about the state of things moving forward. Although I already feel overwhelmed and overworked, I feel like I need to find a way to be part of the solution to this. If you could let me know who I could speak with about finding a way to be involved, I’d appreciate it.”

- Provider

### FP And NP Contracts

	Running Total of Referrals since PCN Launch	# of signed contracts
<b>FP</b>	110	0 Current PCN FP's on contract: 15
<b>NP</b>	54	2 Current PCN NP's on contract: 14

### The Impacts of Unattachment

“A patient and their family are experiencing difficulty finding a family doctor to oversee their health concerns. Due to the delay in accessing care, this family has been accessing walk-in clinics, while being placed on the waitlist.”

- Patient

An unattached patient and their family is seeking a female primary care provider. This reflects the importance of having a primary care provider that patients feel comfortable accessing care from.
