Patient Attachment & Average Wait Times Per Community

The Impact of Unattachment on Patients

Patients receiving letters from their existing providers that note that the provider is no longer practicing (i.e. retiring, moving, closing the clinic) can result in distress as patients and their families begin the search for a new provider.

A patient who was attached to a provider, but also wasn't contacted by the attaching provider noted the importance of the immediate contact given ongoing health related testing that this patient requires.

Family Physician and Nurse Practitioner Contracts

	Running Total of Referrals since PCN Launch	# of contracts signed
Family Physician	103	0
		Current PCN contracts: 12
Nurse Practitioner	46	0
		Current PCN contracts: 12

This table shows that **149 total** providers have expressed interest in NTP contracts since the inception of PCN. However, there are limited contracts in place to meet this high need.
