Child & Youth Mental Health / Substance Use  
**PATHWAYS TO CARE**  
Trail, BC

Find support for your child with mental health and/or substance use needs

## START HERE: FIRST STEPS

Are you concerned about your child's mental wellness and/or substance use?

## ONGOING CONCERN

Do you need support in your role as a parent with a child with mental health needs and/or substance use?

## INCREASING UNRESOLVED CONCERN

Has your concern turned into an unmanageable or unresolving situation?

## SERIOUS CONCERNS

Has the situation intensified to you being worried about safety and the need for specialized treatment?

### Consult with your family practitioner.

If you **do not** have a family doctor or nurse practitioner, you can access local primary care at: [kbaccess.ca](http://kbaccess.ca) or the Castlegar UPPC - [interiorhealth.ca/locations/castlegar-urgent-primary-care-centre](http://interiorhealth.ca/locations/castlegar-urgent-primary-care-centre) (250-304-1289)

### Consult with your child's teacher.

**For Elementary**, contact teacher.  
**For High School**, contact teacher or the Vice Principal.

### Consult with community helpers.

### Inquire about possible referrals with your family practitioner:

- Pediatrician
- Child & Youth Mental Health
- Other Community Helpers
- Physical / Occupational Therapy

### For ongoing concerns:

Talk to your child's teacher or a person you trust at the school about arranging a school-based team meeting to discuss your child's strengths, and ideas about how to best help your child.

**Community helpers** might be a CYMH clinician, counsellor, or parenting education supports. CYMH can help direct you to the right helpers and resources.

### At this stage, there are many pathways to consider:

It's important to pull together a care team that could include: family practitioner CYMH, school staff, and other community helpers. Also, be sure to identify any spiritual or cultural practices you'd like to include in team meetings.

By including your personal circle of family members, friends, elders, religious/ spiritual supports, etc. you increase your support system and expand your team with important people in your life. This can be overwhelming to organize so identify a main player to help you coordinate the team and plan meetings with everyone present. Remember, you are the expert in your child's life and the team is there to wraparound you and your child and help figure out the next best steps.

It can be helpful to know that each government, medical, and community service is guided by mandated procedures and this may cause stress and confusion. Ask for all team members to sign an information sharing form so you don't have to keep repeating your story. All helpers need your consent before they can speak with one another.

As a youth/parent/guardian, make sure to ask about all the resources and information available to you - *every door is the right door.*

### Possible challenges and tips for success:

- \* Wait lists, long assessment times and the number of hoops to jump through:
  - ✓ Always follow-up with team members to get up-to-date information regarding wait list times, referral updates, etc.
- \* Changing programs:
  - ✓ Ask for a new referral to a similar resource.
- \* Limited access to services, i.e. Child/Youth psychiatrist in a rural area:
  - ✓ Consult with your local CYMH office.
- \* Conflicting schedules:
  - ✓ Use easy online tools to schedule meetings.
- \* Lack of information shared:
  - ✓ Ask a team member to take meeting notes with all actions and timelines related to your concerns, ensure these notes are shared with the team.

At this level, if **immediate safety is a concern**, you can access the Emergency Department at your local hospital or contact **911**.

If it is not an emergency, but your concerns have become serious, then your family practitioner or CYMH may make referrals to services like:

- BC Children's Hospital
- Child & Youth Psychiatrist
- Adolescent Psychiatric Unit or Detox
- Hospital Based Services

If you do visit the Emergency Department, specific protocols are in place to help you get the help you need from many of the services listed here.

*Remember you are not alone!*
