**Subject:** New resources for family physicians, 2020 Family Medicine Conference

Good afternoon,

We would like to share a couple of our exciting developments with you and would very much appreciate if you could support us in getting the word out to family physicians.

## **Family Medicine Conference – Friday, October 9**

We are excited to announce our lineup for the **2020 Family Medicine Conference**. Online registration is now open. This year's conference explores how we can work **Together Towards a Better Future** and will provide attendees with a new sense of how to care for themselves as well as for their patients.

Our keynote speaker is [Dr. Mamta Gautam](#), a psychiatrist, executive coach, author, consultant and speaker who specializes in keeping well professionals well.

Online registration: <https://bccfp.bc.ca/fmc-registration/>

## **New resources for family physicians: *Care During COVID-19***

Our new series of one-page resources supports family physicians in caring for vulnerable and marginalized populations throughout the coming months of the pandemic.

Using these guides, family physicians can hold anticipatory discussions with patients to help them

maintain health, stay mentally resilient, manage chronic conditions, and prepare for any potential upsurges in COVID-19 cases.

- [Anticipatory Guidance for Patients with Chronic Disease](#)
- [Caring for Children and Teens' Mental Health](#)
- [Caring for Older Patients](#)
- [Caring for Patients' Mental Health](#)
- [Caring for Patients Who Suffer Chronic Pain](#)
- [Caring for Patients Who Use Substances](#)
- [Identifying and Addressing Intimate Partner Violence](#)
- [Serious Illness Conversations with Patients at High Risk From COVID-19](#)
