# About RRDFP

Established in 2012, the [Rural and Remote Division of Family Practice](#) supports over 140 physicians and nurse practitioners in 12 chapters across British Columbia. Our Division works within four geographic health authorities and the First Nations Health Authority in over 90 communities across the province. Our members practice in the territories of over 50 First Nations and Métis Chartered communities. Our mission is to support and enable rural primary care providers as they advocate for equitable rural health services and a sustainable workforce in their communities. By working together — with partners and providers — our vision is to deliver locally developed, innovative, accessible, and sustainable health services for thriving rural communities.
