

# Attention Primary Care Clinicians, Do you have 15% or more of your practice who are older adults (55+) from the South Asian, Chinese or LGBTQ populations?

If yes, we want 15 minutes of your time for an interview about improving advance care planning for these populations.

Our goal is to match  
patients' wishes with the  
care they receive towards  
the end of life.

To participate or for further information please contact  
Helen Kwan at [hhkwan@sfu.ca](mailto:hhkwan@sfu.ca) or 7786681821.
