| Hours: | Full time/Monday to Friday (8:30am – 12:00pm & 1:00pm – 4:30pm) |

Practice Description:

This established and stable solo family medicine clinic is located in gorgeous downtown Revelstoke. This practice is office-based family medicine - no hospital, ER or obstetrics. Revelstoke sits on the shores of the Columbia River, nestled between the Selkirk and Monashee mountain ranges. The community is home to world-class biking, paddling, hiking, climbing and camping.

The practice is full service and sees 25 patients per day, operating Monday to Friday from 8:30am to 4:30pm. Patients appreciate the online appointment scheduling and convenient access to other care providers who are co-located in adjacent offices in the Osteopathy & Wellness Centre. Excellent MOA who supports the clinic virtually. Recent investments provide a bright and sunny workplace that includes modern amenities (e.g., fibre internet, patient self check-in, digital office, cloud based EMR, VoIP phone, etc.) Parking is included, though you will probably walk or bike. Specialist referral channels, labs and imaging are established, including the local Queen Victoria Hospital. The candidate will require active CMPA, CCFP and MSP billing number. The rural retention premium is 16.1% and there are no daily minimums for billings. Overhead split is 25% and the payment for the locum is based on the billing amounts. The EMR used is Accuro which is cloud based.

Accommodation arrangements are available, but to be discussed with Dr Lora Cruise for more information.

This locum opportunity is a great fit for a physician who is looking to practice rural family medicine while enjoying the mountain lifestyle.
