

## Save the Date:

# Cervix Screening Discussion - Offering Culturally Safe Care to Diverse Populations

BC Cancer Cervix Screening recently implemented new processes that will improve access to cervix screening follow-up, and empower patients to take an active role in protecting their health. More than ever, primary care providers play a critical role in helping their patients navigate cervix screening in a culturally-safe, trauma-informed manner.

## Webinar Content:

Hosted by **Laura Gentile (Operations Director, BC Cancer Cervix Screening)**, this webinar will be moderated by **Dr. Unjali Malhotra (Medical Director, First Nations Health Authority)** and feature presenters and discussions focused on providing safe cervix screening-related care to diverse cultural populations in BC.

## Date and Time:

Via Zoom on February 18th 2021, 12:00 - 1:30 pm  
(45 min presentation with 45 min discussion)

## RSVP:

Please RSVP to [screening@bccancer.bc.ca](mailto:screening@bccancer.bc.ca), a Zoom link will be provided in advance of the Webinar.
