COVID-19 Safety Plan

STEPS TO TAKE

ONE

Assess the Risks at Your Workplace

TWO

Implement Protocols to Reduce the Risks

- Elimination: Ensure physical distance wherever possible
- Engineering: Set-up barriers and partitions
- Administration: Ensure clear communication
- Using Masks: Protect yourself with PPE
- Hygiene: Reduce risk of surface transmission through cleaning

THREE

Develop Clear Policies for Your Clinic

FOUR

Develop Communication Plans and Training

FIVE

Monitor Your Workplace and Update Plan as Needed

SIX

Assess & Address Risks in Resuming Operations
