

VOLUNTEER CANCER DRIVERS SOCIETY

Free, reliable rides for all cancer patients to care

Every year, we support hundreds of cancer patients and we can do the same for you.

We drive patients who otherwise lack access to private transportation to and from treatment appointments, **free-of-charge**. We take you to your treatment facility and wait during the appointment before providing immediate transportation home. Our volunteer dispatchers arrange transportation by phone or web.

There are many reasons you may need transportation. We work with patients whose family members are unable to take time off work to drive, new immigrants with fewer support systems, or patients who rely on public transit.

Rides are available to patients across the Lower Mainland and parts of the Fraser Valley. For a full list of locations in our service area, please visit **volunteercancerdrivers.ca**.

The Volunteer Cancer Drivers Society is a community-funded and volunteer-run registered charity. In our first four years of service alone, our volunteers donated over 90,000 hours and drove almost 2 million kilometers in support of patients and their families.

BOOK A RIDE

Visit

[volunteercancerdrivers.ca/
book-a-ride](http://volunteercancerdrivers.ca/book-a-ride)

or call our Dispatch Services at
604-515-5400.

We will ask for your:

- Cancer ID Card Number
- Date & Time of Appointment
- Name
- Residential Address
- Location of Appointment
- Email Address
- Phone Number

You can request **up to 5**
appointments at a time.

Priority will always be given
to patients undergoing cancer
treatments and follow-up care.

COVID-19 SAFETY

Our service currently operates with strict COVID-19 protocols in place, including health screenings, mandatory masks, vehicle sanitization and frequent hand-washing.
