

Pathways is a secure online tool to help optimize your office workflow. Clinicians and their teams can access reliable and up-to-date referral details, hundreds of patient and clinician resources, as well as community & health authority services that are categorized and searchable.

PATHWAYS FOR CLINICIANS

PROVIDES ACCESS TO:

- ▶ **Optimal specialists/clinic for your patients:**
 - Type of referrals accepted
 - Referral requirements
 - Areas of special interest
 - Wait times
 - Telehealth options
 - Languages spoken in the office
- ▶ **Forms:** a trusted source for finding referral forms, requisitions, patient forms, and more.
- ▶ **Patient resources:** patients receive recommendations from a trusted source, and can even be emailed directly
- ▶ **Clinician tools & guidelines:** can be located and used in seconds at point of care
- ▶ **Care Pathways:** clinical algorithms that help make informed decisions about whether a referral is necessary.
- ▶ **Directory of Community & Health Authority Services:** helps physicians link patients to services that support patient wellness.

IMPROVE OFFICE WORKFLOW:

- ▶ Access to specialist referral requirements at your fingertips
- ▶ Avoid time on the phone with specialist clinics to ask simple questions
- ▶ Use care pathways to decide if a referral is needed or the patient can self manage their condition
- ▶ Find important health news at a glance on the Pathways homepage
