

Managing Heart Failure in Family Practice

**MONDAY
APR 3
2023
5:00 PM**

Managing heart failure is complex, and family physicians need to know what services are available to support their patients.

Join your colleagues for an in-person roundtable session to hear from service providers as they share how they can help you optimize patient care.

PRESENTERS INCLUDE REPRESENTATIVES FROM:

- **Island Health Community Virtual Services** (Home Health Monitoring)
- **Island Health Heart Function Clinic and Heart Failure Pharmacy Service**
- **Supportive Cardiology Project** – cardiology, palliative care, and social work team focused on supporting serious illness conversations
- **Practice Support Program** – focus on panel management in FP clinics
- **Community Patient Resources** – Family Caregivers of BC, Heart & Stroke Foundation, and Better at Home
- **Palliative Care Services**
- **Hospital at Home Services**

This 1.0-credit-per-hour group learning program has been certified by the College of Family Physicians of Canada for up to 2.0 Mainpro+ credits
