

What the Primary Care Clinical Pharmacist can offer:

- comprehensive medication management services focused on the on-going care of adult patients with complex conditions to prevent and resolve medication-related problems
- provide education to patients about their medications and address barriers to adherence
- collaborate with the patient and healthcare team to implement treatment plans
- spend 1:1 time with patients (initial appointments are 60 minutes)

Refer complex patients:

- Multiple drug therapies or health conditions
- Optimize drug therapy for chronic diseases
- Polypharmacy concerns
- Medication allergies or adverse reactions
- Sub-optimal drug therapy outcomes
- Complexities from self-treatment including supplements
- Any medical complexity, issues or concerns

Refer patients experiencing change:

- Starting or stopping medications
- Recent discharge from hospital
- Recent attachment to a new provider

How to refer:

- Attached patients - fax the [PCN referral form](#) or a consult note to the PCCP MOA at 855-328-1386
- Unattached patient referrals should be faxed to the PCN Hub at 844-961-3410 on the [PCN referral form](#)

MSP Billing Notes
