

# Campbell River and District Division of Family Practice Directors and Physician Leadership

# Board Chair - Dr. Angela Logan

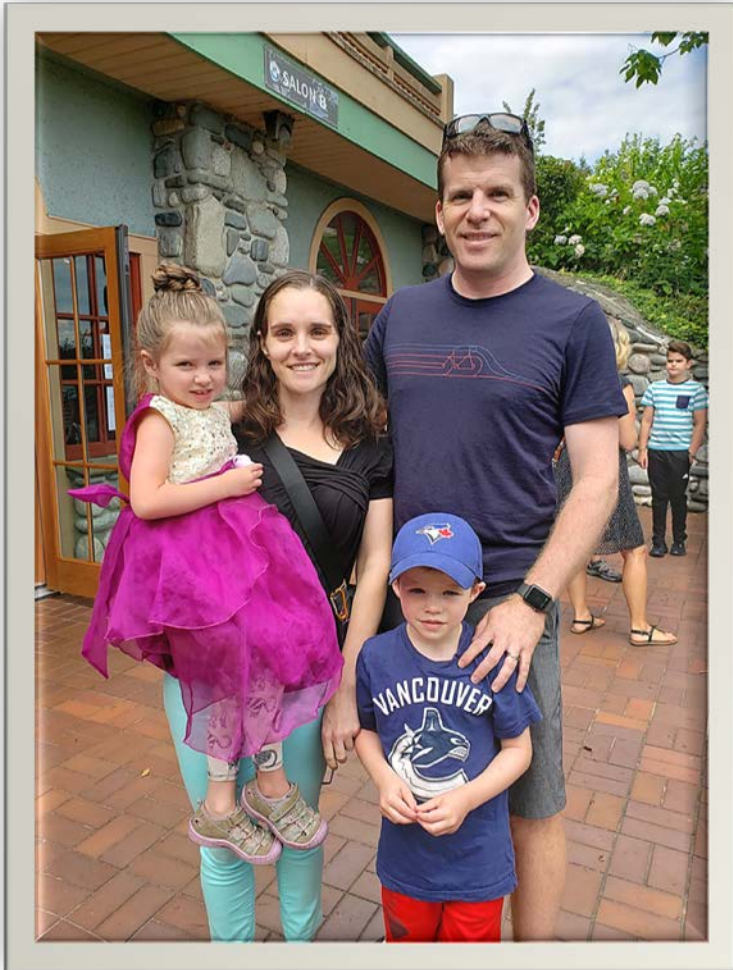

Collaborative Services Committee Co-Chair  
General Practices Services Committee  
Acute Care Communications Working Group  
& More

*This year for the board has been a year of transformation. We have rounded out our changes to meet the Society's Act regulations and have really enjoyed having the input from our non-physician colleagues at the board table. We have also been working on building relationships with our local Island Health and First Nations Partners to put us in a good position to make 2020 our year to step fully into creating Campbell River as a Primary Care Network (PCN) community.*

*I think the PCN will look to fill the gaps in the already great health care we offer to our patients everyday. I strongly believe the PCN will allow us to work smarter, not harder. I'm working with the board and PAC to ensure your voices are heard so if there is anything you think we need to know, please speak up.*

# Board Chair - Dr. Angela Logan

*We got you covered! I represent you not only at a local level but also across the Island at our Interdivisional-Collaborative Services table and at the General Practice Services Committee (GPSC) representing the Island Divisions.*

*Please stop me anytime and let me know your thoughts - I will make time for you! Your opinion is valuable and we can't do this work without you.*

*Sincerely,*

*Angela Logan*

# Co-Chair and Treasurer

Dr. Jan Coetzee  
Vice-Chair

Wendy Richardson  
Treasurer (new in 2019)

*Wendy has worked for The John Howard Society of North Island since 1990, currently as the Executive Director. She led the initiative to establish Foundry, which provides wrap-around services for young people, with a focus on mental health, primary health, addictions, and social services. In her leadership role at John Howard she has developed strong skills in risk management, policy & procedure development, strategic planning, financial oversight, and many other responsibilities for a non-profit society. Her education includes a Master's in Business Administration, specializing in Executive Management with a focus on Leadership.*

# Directors

**Dr. Ninette Fourie**

also co-leading the Physician Wellness – Joy in the Workplace Initiative

**Brian Evernden**

BA Economics, MA Public Administration

*Great to see the significant progress made by the Division over the past year on the Doctor of the Day, FETCH, Long Term Care Initiative, Pathways, and the Primary Care Network Initiative.*

*Looking forward to the next year of working with the dedicated Board members and physicians of Campbell River.*

# Directors

Stephanie Vanner – R2

*It has been a wonderful year sitting on the Board and seeing all that has been accomplished. Some highlights for me include the strategic, collaborative, and considerate approach taken to prepare for a Primary Care Network proposal that will best fit the needs of our town and the surrounding areas. Another highlight was the Health and Social Services Fair. It provided an excellent opportunity for family physicians to become better acquainted with the local resources we have to support our patients and meet the individuals doing this good work. I look forward to the next year and am thrilled to see a focus on physician wellness going forward.*

Kelly Hadfield – R1 (new director in 2019)

*Kelly has an interest in advocacy and rural global health. She is the Founder and Executive Director of the international medical charity, Ghana Medical Help, which supports the development of locally-driven, capacity building health care projects across northern rural Ghana. Through such work she has led the formation of other health care project collaborations, such as 'Learning For Lives – Ghana', which is a Canadian, Ghanaian and Irish partnership currently conducting emergency medicine, sepsis, physiotherapy and neonatology training programs. She further is the Co-Founder of a Canadian non-profit called the Prom Blitz Project, which focuses on the mental health and well-being of marginalized young women in Ontario. Kelly is excited to bring her diverse skills and experience to the Campbell River District Division and help support her new local community.*

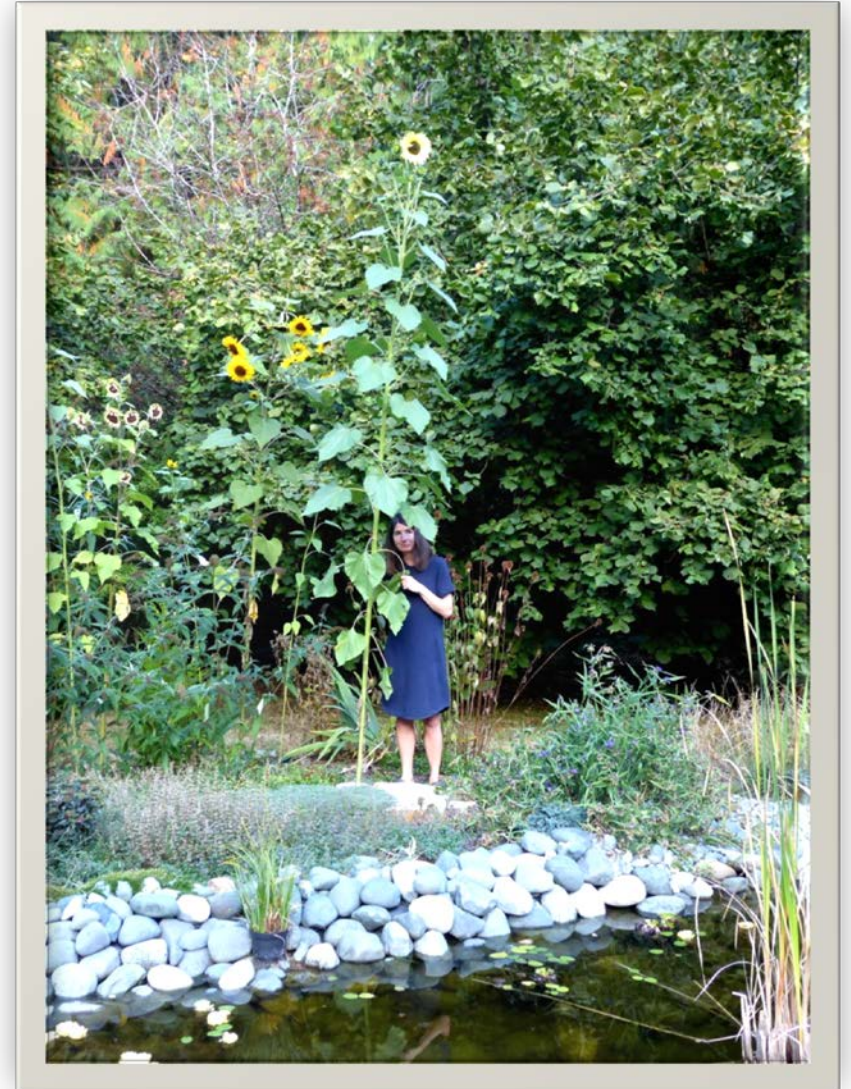

# Executive Director – Christine Colbert

*The past year has been one of phenomenal growth in physician leadership and involvement in Division projects and initiatives, both in community and in hospital. It has been an honour to support our members, be part of the building of partnerships, and to watch us grow.*

*The opportunities and rewards of working in partnerships are many and the commitment of all to improving patient care make the challenges worthwhile.*

*The mandate of the Primary Care Network has demanded our attention over the past year and we have strived to ensure that the fundamentals of our work as a Division, supporting and caring about our members, remains strong.*

*The staff and project contactors show dedication and hard work in support of the Division and are simply just a great group of people to work with. A heartfelt thanks goes out to Julie, Sadie, Allan, Dean and Amanda. Thanks also to Andrea from Eagle Eye Bookkeeping.*

## Physician Project and Committee Leads

Ingredients for a Great  
Division

# Physician Advisory Committee

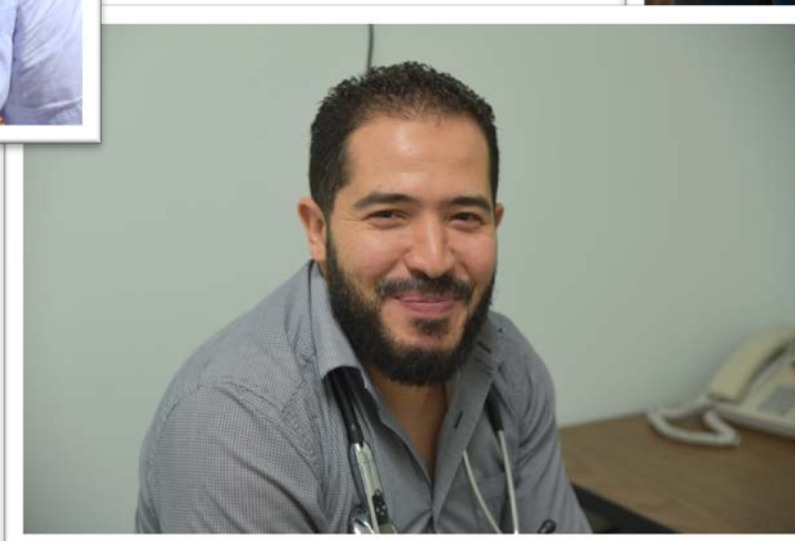

Dr. Gunther Klein

Dr. Katherine Miller

*I am proud to be part of the Campbell River & District Division of Family Practice. The work they do for our local community of physicians is crucial to our ability to practice medicine in a comfortable and supportive environment.*

Dr. Aimen Salem

# Physician Advisory Committee

Dr. Willem Prinsloo

Dr. Jordyn Vanderveen  
Also on Long Term Care (formerly  
known as RCI) Advisory

Dr. Chad Malloff

# Division Projects and Committee Leads

## Dr. Dieter de Bruin

Shared Care

Collaborative Services Committee

Anything else we ask him to do

## Dr. Marissa Dry

Long Term Care Initiative

Shared Care

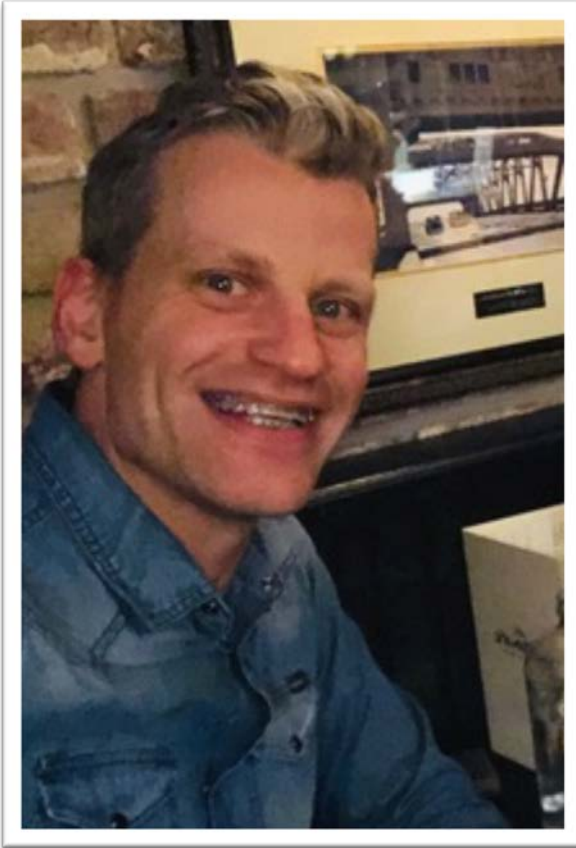

Physician Wellness - Joy in the Workplace

*Thoughts on leadership:*

*Meaningful engagement, deep listening, framing conversations and many moments of, “I hope others can see the dinosaur in the room...”*

*I believe all physicians are leaders. By working as physicians we manage complex conditions and work under challenging conditions that require patience, insight and a unique set of problem solving skills.*

# Division Projects and Committee Leads

Dr. Wiann Bedeker  
Long Term Care Initiative

Dr. Sameena Shah  
Shared Care

Dr. Erika Kellerhals  
Collaborative Services Committee  
Community Action Team

*This Division provides great opportunity to stay connected with colleagues  
- it's a useful resource to being a physician in the community! (WB)*
