

You're invited to join BC ECHO on Substance Use (Opioid Use Disorder)!

What is Project ECHO?

Project ECHO is an evidence-based intervention that empowers health professionals to treat patients with complex conditions in their own communities. Targeted to **primary care providers and their teams**, participants regularly connect via videoconferencing with an interdisciplinary team knowledgeable in addiction medicine. Sessions provide lecture-style education on a given topic, followed by a **case presentation** and discussion.

Why Join?

- ✓ Improve knowledge of evidence-based approaches for OUD screening and management
- ✓ Access virtual mentoring and support for yourself and your team
- ✓ Be better prepared to tackle common clinical scenarios
- ✓ Work through your challenging cases with addiction specialists
- ✓ Earn free CME or MOC credits

Topics for Cycle 1

- Practical considerations for buprenorphine/naloxone induction
- Transitions between OUD pharmacotherapies
- Decoding urine drug tests
- Polysubstance use and OUD
- Managing co-occurring chronic pain and OUD
- ...And many more!

When are the sessions?

Cycle 1 launches on **June 27th, 2019**. Sessions are scheduled bi-weekly on **Thursdays** from **12:00 – 1:00PM PST**.

How do I attend a Session?

Join sessions via **Zoom Videoconferencing**. All you need is a computer + web cam, or smartphone. 12 sessions are scheduled – you can join any time!
