Donate your old smartphone to help save a life

By donating your old Android or iPhone you can be a part of saving lives through the overdose crisis. Recipients of the phones will be able to access a life-saving app that is a new tool to prevent overdose deaths.

Donate your old smartphone to any **Lookout** location in your local area or Amanda Staller/Courtney Pankratz at **Purpose Society** (38 Begbie Street).

Please note that the app is supported by:

- iOS 11 - Iphone
- Android supports version 19 (KitKat) and above
