

PORT ALBERNI

PRIMARY CARE  
NETWORK

# MHSU CLINIC

(HOUSED WITHIN THE  
COMMUNITY HEALTH CENTRE)

*why?*

Mood & anxiety disorders are amongst the most prevalent chronic diseases in the Alberni valley.

This low-barrier MHSU clinic will act as an allied health hub, with the capacity to take referrals for attached patients from other primary care providers. This will increase access to quality MHSU services and create attachment capacity.

## Aligns with PCN Attributes:

Coordinated care; virtual care, same day access, attachment, and culturally safe care.
