

## **TWEAK Score**

## **Questionnaire on Alcohol Use During Pregnancy**

To be completed early in all pregnancies

When having a baby one of the areas your care provider will talk about is your use of alcohol. The following questions will help with the discussion.

| How may drinks does it take to make you feel high?  | Number | Number of drinks |  |
|---|--------|------------------|--|
|   |        |                  |  |
| Have close friends or relatives worried or complained about your drinking in the past year?                                   | □ No   | □ Yes            |  |
| Do you sometimes have a drink in the morning when you first get up?   | □ No   | □ Yes            |  |
| Has a friend or family member ever told you about things you said or did while you were drinking that you could not remember? | □ No   | □ Yes            |  |
| Do you sometimes feel the need to cut down on your drinking?  | □ No   | □ Yes            |  |

Talk about your answers to the above questions with your health care provider.
